Corporate Profile

Karambunai Corp Bhd ("KCB" or the "Company" and together with its subsidiaries, "KCB Group") was incorporated in Malaysia on 30 December 1965 and was a publicly listed company since 1967. KCB is principally engaged in the business of investment holdings and provision of management services. Its subsidiary companies are principally involved in leisure and tourism business comprising resort hotel operation and management, golf and country club operation and management, travel and tour agency, property development, construction, project contractor and venture capital.

KARAMBUNAI PENINSULA

KCB Group is a leading tourism player in the State of Sabah, East Malaysia. Its flagship asset is the 1,500 acres of land in Karambunai Peninsula.

Karambunai Peninsula is located in the State of Sabah, which is part of the exotic island of Borneo. The island of Borneo is the third largest island in the world and the largest island in Asia well known for its beautiful mountain peaks and rich rainforests that offer dynamic experiences to international travelers. leisure Karambunai Peninsula is situated approximately 30 kilometres north-east of the Kota Kinabalu city center. It lies within 3,835 acres of eco-sanctuary that is tucked away, yet, in the midst of civilisation. Blessed with a 6-kilometre stretch of white sandy beach, Karambunai Peninsula is a piece of paradise on earth nestled by the South China Sea on one end, rolling hills in the center and a natural cove on the other end.

Karambunai Peninsula is a natural perfection of white sandy beach, wetland, crystal blue cove, flatland, highland, rainforest and river.

Together with other landowners of Karambunai Peninsula, KCB Group plans to develop Karambunai Peninsula into a world-class econature integrated resort ("IR"). It is now in the early stage of implementation and targets to launch the IR by phases. This IR project is within the Sabah state government's Kinabalu Gold Coast Enclave development, an initiative aimed at transforming Sabah

into an internationally recognised destination for business and leisure by year 2025.

Jewel in the crown, Karambunai Peninsula... Some say it's Heaven... will continue to be the focus of KCB Group's eco-tourism development in the coming years. Completed developments within Karambunai Peninsula include (a) Nexus Resort & Spa Karambunai, a 5-star luxury resort; (b) Precinct Dillenia, a luxury 243 units beachfront pool villas and Spa suites; and (c) Karambunai Golf Course, an 18-hole world-class golf course.

NEXUS RESORT & SPA KARAMBUNAI

Nexus Resort & Spa Karambunai ("Nexus Resort") is a luxury 5-star 485-room international-class resort hotel, combining elements of modern architecture with heritage Borneo design and style. Its luxurious guestrooms are housed in Ocean Wing and Borneo Wing. The Ocean Wing features 243 Ocean panorama deluxe and premier guestrooms, tastefully furnished and spread over five-storey with private balconies offering panoramic views of the South China Sea and the beautifullylandscaped gardens. The Borneo Wing is a private enclave of seven villa-styled two-storey buildings offering 236 sea and landscaped garden view guestrooms. Nexus Resort also features six Royal and

Presidential Villas in a discrete and exclusive setting with private gardens and private swimming pools tucked away on one end of the resort at the starting point of the Karambunai white sandy beach. Nexus Resort enjoys all of the world-class facilities one would expect to find at a celebrated 5-star resort. It boasts a professional world-class golf course (Karambunai Golf Course); is home to the exclusive award winning Borneo Spa; a recreational lagoon park and water sports center; a surrounding 30-hectare natural park; world-class award-winning restaurants; Meetings, Incentives, Conventions and Exhibitions (MICE) facilities; and the serene 6-kilometre Karambunai white sandy beach.

KARAMBUNAI GOLF COURSE

Karambunai Golf Course ("Karambunai Golf") is one of the premier golf courses in the island of Borneo, specifically in Kota Kinabalu, Sabah. It is located within walking distance of **Nexus Resort & Spa Karambunai**. Designed by the world renowned American golf course architect, Ronald Fream, Karambunai Golf is an international championship par-72, 18-hole golf course. Karambunai Golf has established itself as one of the most popular golf courses in Sabah for its unique location and design which offers golfers a challenging and enjoyable experience. Nestled between the million year-old rainforest and the South China Sea, golfers can also enjoy the breathtaking views of Mount Kinabalu and Karambunai white sandy beach. Over the years, Karambunai Golf has hosted many prestigious events and has won numerous awards including the readers voted award for the "Best Resort Golf Course in Malaysia", the "Best Golf Course in East Malaysia" and the "3rd Most Memorable Golf Course in Malaysia" in the 2007/2008 Golf Malaysia Magazine Poll.

BORNEO SPA

One of the first of its kind in East Malaysia, our award winning world-class health and wellness spa, Borneo Spa, features its own private label blends of pure essential oils in aromatherapy massages, facials and signature treatments influenced by Borneo heritage and culture. The Borneo Spa inspires relaxation, rejuvenation and a harmonious equilibrium of body, mind and spirit through holistic treatments drawn from age-old traditions of natural healing from both the East and West. The Spa is equipped with 14 therapy rooms (including two double rooms for couples wishing to enjoy a massage together, each with its own private shower), a health bar, separate male and female Jacuzzis, sauna, steam bath facilities and a relaxation pool that offers further opportunity to unwind and relax. Rustic cabanas on the resort's beach front offer an alternative outdoor massage environment with the sound of the waves and the sea breeze adding to the massage experience. The Borneo Spa has won numerous awards over the years and it has stood up to the demanding expectations of today's discerning Spagoers and its competitors who are constantly looking for a new and refreshing experience where the bar of service excellence is continually growing. Borneo Spa continues in the forefront as a key player charting standards of quality and excellence in the health and wellness spa industry in Kota Kinabalu Sabah.

BANDAR SIERRA

KCB Group is also a major property developer in Kota Kinabalu, Sabah. Comprising 415 acres, Bandar Sierra is being developed into a mixed residential and commercial township development. Approximately 30 minutes' drive from the Kota Kinabalu city center, Bandar Sierra is strategically located in the middle of a rapidly developing growth corridor. It is also within close proximity to Nexus Resort & Spa Karambunai, Universiti Malaysia Sabah, the Sabah State's new federal administrative center, 1 Borneo Shopping Mall and Kota Kinabalu Industrial Park.

BUKIT UNGGUL

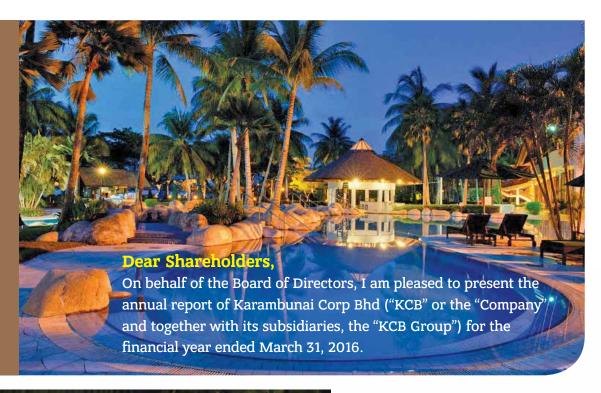

Over in Peninsular Malaysia, KCB Group owns 1,375 acres of land in Dengkil, Selangor. Approximately 40 minutes' drive from Kuala Lumpur city center, Bukit Unggul is situated within the country's Multimedia Super Corridor and is within close proximity to the Kuala Lumpur International Airport (KLIA) and the federal administrative center of Malaysia (Putrajaya). KCB Group plans to develop Bukit Unggul into a resort style mixed development. Completed development includes the **Bukit Unggul Golf Course**, an 18-hole international class golf course, and the **Bukit Unggul Golf and Country Club**. Designed by the world renowned American golf course architect, Ronald Fream, **Bukit Unggul Golf Course** is well known for its unique setting amongst a matured

rainforest spread over rolling hills and a serene valley ambience. This par-71 golf course is a challenging hilly golf course that demands patience and skills.

CHAIRMAN'S STATEMENT

ECONOMIC REVIEW

Despite the challenging economic environment in year 2015, the Malaysian economy grew by 5% (2014: 6%), supported by the continued expansion of domestic demand. Growth of domestic demand was stronger during the early part of the year, partly reflecting the frontloading of consumption spending prior to the implementation of the Goods and Services Tax ("GST") in April 2015. In the second half of the year, as growth in domestic demand moderated, a modest improvement in external demand provided additional impetus to economic growth.

The tourism industry remained one of the key economic growth sectors despite the negative travel sentiments caused by the unfortunate aviation incidents in year 2014 and the security concerns in the East coast of Sabah. These factors, coupled with the natural calamities as well as the challenging external economic environment, have affected tourist arrivals in the country during the financial year under review. On property development, there was moderation in demand and pricing for the residential subsector amidst a weaker consumer sentiments due to the uncertainty in employment and financial markets, and the consumers' adjustments to the increasing cost of living and the ringgit depreciation.

FINANCIAL PERFORMANCE

Loss after taxation for the financial year ended 31 March 2016 narrowed by 43.3% to RM23.38 million from a loss after taxation of RM41.26 million a year ago. Revenue for the financial year improved 2.8% to RM52.09 million from RM50.66 million. All the business segments, namely the (i) leisure and tourism, (ii) property development and construction, and (iii) management services recorded lower losses.

Nevertheless, the operating environment remained challenging. The leisure and tourism segment continued to operate under unfavourable market conditions with travel advisories issued on Malaysia, and the property market remained soft.

DIVIDEND

No dividend was paid during the financial year and the Board does not recommend any dividend payment for the current financial year under review.

CHAIRMAN'S STATEMENT

CORPORATE SOCIAL RESPONSIBILITY

The Group is committed to carrying out its business in a socially responsible and sustainable manner, taking into consideration factors involving (a) environmental protection; (b) ecological safety; (c) community and social obligations; and (4) company's organisation and workplace.

(a) Environmental protection

On environmental protection, the Group, as an established resort operator, has always adopted an environmentally friendly approach towards its resort operations. This includes policies implemented across the Group with objectives to minimise wastage, maximise energy-conservation, efficient and safe waste management in the proper disposal of waste materials, recycling of used materials and adopting environmentally friendly best-practices whenever possible to lessen water and air pollutions, global warming and climate change. In property development, the Group strives to adopt environmental friendly technologies to protect and preserve the natural environment. The Group is committed to use green and clean technologies in all its property development projects.

(b) Ecological safety

The Group is also committed to promote ecological safety in the development of its eco-nature integrated resort in Karambunai Peninsula. In designing the Karambunai masterplan, much consideration is being given to maintain and sustain the natural eco-system without adversely altering the natural dynamics of the living environment. We approach the eco-nature integrated resort development by finding the appropriate path to showcase both nature and development in a complementary and synergistic manner.

(c) Community and social obligations

On community and social obligations, the Group is involved in philanthropic activities including organising activities for less fortunate students, blood donation drives, contribution towards charity homes, sponsorship for local and international events such as the Borneo International Marathon event, the cleaning up of public beach and providing employment opportunities to the local community. The engagement in social activities is the Group's way of showing appreciation to the local community in which we operate our business.

(d) Company's organisation and workplace

On company's organisation and workplace, the Group recognises the importance of its workforce as they play a pivotal role in bringing the Group to greater heights and sustainable growth. Key initiatives to further strengthen the organisation include providing a conducive working environment to our employees, nurturing and retaining quality employees, providing training and development, recognises employees' ethnicity, gender diversity, welfare as well as health and safety.

FUTURE OUTLOOK

The Board is of the view that the prospects of the Malaysian economy are anticipated to remain positive amidst the more challenging international economic and financial landscape. The strength of the global economic growth and the trajectory of global oil prices will have important implications on the growth of Malaysian economy. Overall, the Malaysian economy is expected to grow by 4 - 4.5 % supported by domestic demand and private sector spending.

The tourism industry outlook is expected to remain challenging. The negative travel sentiments brought by the unfortunate aviation incidents in year 2014 and the tourismrelated security concerns in Sabah will continue to affect the leisure and tourism business of the Group in Sabah. The Board hopes the Government will continue to introduce various initiatives, promotions and campaigns, such as the relaxation on visa requirements and e-Visas, to reinvigorate the tourism industry.

On the outlook of property development, the property cooling measures have weighed on the market sentiments and the property market activities are expected to remain slow amidst the ongoing adjustments by consumers to the challenging and uncertain economic environment.

Going forward, the Group remains committed to its focus and vision as a leading resort operator and developer. The Group plans to further enhance its position as the leading tourism player in Sabah by developing its landbank in Karambunai Peninsula into a world-class eco-nature integrated resort. The success and profitability of the business of the Group will depend on the market sentiments, outlook and prospects of the Malaysia property industry as well as the tourism industry in Sabah.

CHAIRMAN'S STATEMENT

TAKE-OVER OFFER BY TAN SRI DR CHEN LIP KEONG

On 28 April 2016, RHB Investment Bank Berhad, on behalf of Tan Sri Dr Chen Lip Keong, (the "Offeror"), served a notice on the Board informing KCB of the Offeror's intention to undertake an unconditional voluntary take-over offer to acquire (a) all the remaining 1,821,848,130 KCB shares and 694,959,448 KCB warrants not already held by the Offeror, and (b) any new KCB shares that may be issued prior to the closing date of the offer arising from the exercise of the outstanding KCB warrants, at a cash consideration of RM0.05 per KCB share and RM0.02 per KCB warrant.

The Board took note that the Offeror does not intend to maintain the listing status of KCB on the Main Market of Bursa Malaysia Securities Berhad and will not take any steps to address the shortfall to meet the public shareholding spread of KCB.

On 25 May 2016, the Board announced that the percentage of public shareholding spread of KCB as at 25 May 2016 is 23.85%. Accordingly, KCB is deemed not in compliance with the public shareholding spread requirement of Bursa Malaysia Securities Berhad Listing Requirements which stipulates that a listed issuer must ensure at least 25% of the total listed shares are in the hands of public shareholders.

The take-over offer closed on the 9 June 2016 with the Offeror and party acting in concert collectively hold 79.28% of the total issued and fully paid up share capital of the Company.

ACKNOWLEDGEMENT

On behalf of the Board, I would like to place on record our sincere thanks to our shareholders, customers, suppliers, financiers, business associates and regulators for their invaluable support, understanding and confidence in us. I would also like to thank our employees and management for their dedication and hard work.

Last but not least, I look forward to meeting all of you at the forthcoming 50th annual general meeting of the Company to be held on 26 August 2016.

Thank you.

DATUK WAN KASSIM BIN AHMED

Chairman/Independent Non-Executive Director 14 July 2016

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL PERFORMANCE REVIEW

The financial performance of the Group saw a slight recovery following a very difficult financial year 2014/2015 which was marked by the unprecedented three aviation tragedies and a series of kidnapping incidents in the East coast of Sabah. Loss after taxation for the financial year ended 31 March 2016 narrowed by 43.3% to RM23.38 million from a loss after taxation of RM41.26 million a year ago. Revenue for the financial year improved 2.8% to RM52.09 million from RM50.66 million.

On segmental performance, the leisure and tourism segment posted an encouraging result, recording a lower operating loss at RM7.84 million from RM20.69 million loss a year ago, attributed largely to the improvement in the financial performance of Nexus Resort & Spa Karambunai. Overall the leisure and tourism segment maintained its revenue at RM37.57 million. There was a drop in the ticketing and tour business, but was offset by higher revenues recorded in Nexus Resort & Spa Karambunai and golfing business.

On property development and construction segment, revenue for the financial year ended 31 March 2016 expanded by 11.2% to RM14.43 million from RM12.98 million recorded in the previous year, driven mainly by the recognition of a non-recurring land sales amounted to RM2.48 million. Operating loss was lower at RM12.94 million from RM14.75 million loss a year ago, attributed mainly to the gain on disposal of non-recurring land sales and reduction in the leaseback expenses in tandem with the expiry of the hotel sub-lease agreements with the respective unit owners of Precinct Dillenia development.

On management services segment, operating loss was lower at RM3.45 million from RM8.06 million loss a year earlier, due largely to reduction in costs.

BUSINESS AND OPERATIONAL REVIEW

Leisure and Tourism

Nexus Resort & Spa Karambunai

Nexus Resort & Spa Karambunai ("Nexus Resort") is one of the key revenue drivers of the Group. It has been recognised as a leading resort destination in Sabah and has, over the years, attracted many international leisure travelers from the European countries, Russia, China, Taiwan, Hong Kong, Japan, South Korea, Singapore and Australia.

Nexus Resort saw a slight recovery in tourist arrivals during the financial year under review. The number of room nights sold increased by 26.5%, which helped in pushing the occupancy rate up by 12.5 percentage points. Revenue for the financial year ended 31 March 2016 increased by 8.3% but the average room rate was down by 7.6%, attributed to intense competition to fight for market share.

MANAGEMENT DISCUSSION AND ANALYSIS

On assets enhancement initiatives, Nexus Resort commenced a phased refurbishment and modernisation exercise to refresh our product offerings. Phase one was on hotel rooms where a total of 236 sea and garden view guestrooms at the **Borneo Wing** have been refurbished in year 2013. Phase two refurbishment was on all the food and beverage outlets namely the **Noble House** (*Chinese cuisine*), **The Penyu** (*all day dining*), **Kingfisher** (*Malaysianstyle cuisine*), **Olives** (*Mediterranean fine-dining*) and **Sunset Bar** (*char-grilled favourites and pizzas*) have been renovated in year 2014. In this year, Nexus Resort achieved another remarkable product offerings update milestone by completing the Ballroom and meeting facilities refurbishment.

Nexus Resort has won numerous accolades over the years. To add to the long list of awards, we were honoured to receive during the financial year under review the "Gold Circle Award" by Agoda.com; "Best Supporting 2015 Award" by Ctrip International; and the "Overall Challenge Trophy Award" from Sabah Hospitality Fiesta.

Karambunai Golf

Karambunai Golf presents a memorable and fair but demanding challenges, and serves as a world class example of modern and creative golf course architecture with a traditional Borneo feel. Karambunai Golf continues to be reputed as one of the top resort golf courses in Sabah and is a popular destination for golfers from Korea, China, Japan, Taiwan, Hong Kong, Indonesia and Singapore. This spectacularly beautiful golf course is surrounded by nature and stretches from the low hills, gradually descending towards the beach. The tract's key characteristics are undulating fairways and well-contoured greens, across a series of small lakes, waterways and hillocks ingeniously crafted to add to its varying degree of difficulty.

The business environment throughout the financial year under review was weak amidst the negative travel sentiments caused by the kidnapping incidents in the East coast of Sabah and the earthquake in Ranau, Sabah. Karambunai Golf saw fewer foreign golfer arrivals whilst the local market also experienced a drop in patronage amidst an economic environment with escalating cost of living. Overall revenue for the financial year ended 31 March 2016 declined by 19.3% to RM3.06 million from RM3.79 million recorded in the previous year. Karambunai Golf played host to several golf tournaments during the financial year under review, this includes the "11th Karambunai Golf Amateur Open" and "Carlsberg Golf Classic"

Bukit Unggul Golf and Country Club

Bukit Unggul Golf and Country Club ("Bukit Unggul Golf") is one of the favourite golfing destinations in the Klang Valley among local as well as expatriate golfers. It is the most scenic golf course in the Klang Valley according to a reputable golf publication survey in recent year.

Bukit Unggul Golf embarked on a comprehensive greens upgrade and landscape beautification program to bring the golf course condition and quality to next level to be on par with world's famous golf courses. These efforts have recently been recognised by the golf fraternity as Bukit Unggul Golf was voted one of the Top Three Most Improved Golf Courses by the inaugural People's Choice Award. It has also been selected as a nominee in the year 2016 Malaysia Golf Awards on the Most Improved Golf Courses category.

Bukit Unggul Golf saw a 64% increase in the number of rounds played for the financial year ended 31 March 2016. Overall revenue increased by 59% to RM4.53 million and reported a profit of RM0.7 million from a loss of RM0.4 million a year ago. Bukit Unggul Golf is gaining popularity which we attribute this to better greens maintenance, services and right pricing strategy.

Property development and construction

Bandar Sierra township

Bandar Sierra township development is progressing well and we are moving towards the end of the entire project. The Group has to-date delivered a total of 404 units of 2-storey terrace and semi-detached houses, 18 units of 2-storey shoplots and 644 units of 4-storey apartment. We are currently working on the last phase of the development comprises of 4 blocks of 4-storey apartment. Building works have been fully completed and we are now in the process of applying the occupation certificate from the authorities. Sales response was good with 87% take-up rate, and we expect to deliver the units by the third guarter of 2016.

MOVING FORWARD

Moving forward, the Group will continue to focus on its core business in the leisure and tourism, and property development. We will continue to review our business plan built on our competitive strengths amidst an overall challenging macro-economic outlook. The Group has been making good progress to pare down operating losses with many initiatives to drive revenues, manage costs and improve operational efficiency.

On leisure and tourism segment, the business is expected to remain challenging amidst route rationalisation by airlines to Malaysia and travel advisories issued on Malaysia where East coast of Sabah continues to be featured on the travel advisory lists of European countries and Australia. The Group will continue to step up marketing efforts and pricing strategy to improve our hotel occupancy. On updating its product offerings, the Group will continue with its refurbishment plan to enhance our competitive position to attract high yield long stay international leisure travelers. Going forward the Group will focus on revenue enhancement and cost management. On revenue enhancement, the Group will continue to refine the market mix of its customers to balance yield and occupancy rate to cushion the business seasonality inherent in the leisure and tourism industry. Efforts will also be taken to expand our sales channels to widen the market reach and to build the corporate meetings and social functions business to drive MICE market. On service excellence, the Group strives to train and maintain an experienced and service oriented team who are committed to uphold a high standard of service excellence.

On property development segment, the development of an eco-nature integrated resort in Karambunai Peninsula will be the focus of the Group in the coming years. The integrated resort is designed to showcase the natural beauty of Karambunai Peninsula while complementing carefully designed development components and tourist attractions and activities. Positioned as an eco-nature, education and entertainment integrated resort, the development is expected to be a high-yield project contributing to the economic growth and tourist arrivals of Sabah. We are optimistic that the development will bode well for the Group in the longer term in its core business of leisure and tourism and property development.

Thank You

The Board of Directors of Karambunai Corp Bhd is committed to its fiduciary responsibilities for sound corporate governance in its business management practices. Accordingly, the Board supports the Principles and Recommendations laid out in the Malaysian Code on Corporate Governance 2012 (the Code) wherein disclosures pursuant to the Code is mandated under paragraph 15.25 of the Bursa Securities Main Market Listing Requirements.

In particular, the Company has complied with the Recommendations of the Code save for the recommendation that the tenure of Independent Directors should not exceed a cumulative term of nine years and the recommendation for individual disclosure of directors' remuneration packages (as detailed in Other Compliances Statement of this Annual Report), whereas the ensuing paragraphs narrates how the Company has applied the Principles of the Code.

BOARD OF DIRECTORS

Board Charter

The Company has in place a Board Charter which sets out the Board's strategic intent and outlines the Board's roles and responsibilities. The Board Charter is a source reference and primary induction literature, providing insights to prospective Board members and senior management.

The Board Charter provides a basis for good governance for effective functioning and accountability of the Company. It also ensures that the Company and its subsidiaries are effectively led and controlled with the Board of Directors having the ultimate responsibility for maintaining the highest standards of integrity, accountability and corporate governance and acting in the interest of the Company as a whole. In particular, it includes the division of responsibilities and powers between the Board and management, the different committees established by the Board, and between the Chairman and the CEO.

Finally, the Board Charter is updated from time to time to reflect changes to the Company's policies, procedures and processes as well as the latest relevant legislations and regulations.

Board Responsibilities

The principal duties and responsibilities of the Board is to effectively lead and control the Company. The Board is to oversee the performance of management in a collegial relationship that is supportive yet vigilant. It is also responsible for the Company's strategies, objectives, succession plan and accountability to shareholders.

The Board has clear roles and responsibilities in discharging its fiduciary and leadership functions and has established clear functions reserved for the Board and those that were delegated to the management which are embodied in the Board Charter. All directors are to act in the best interest of the Company and shall disclose to the Board of any interest or potential interest as soon as he becomes aware of such interest.

Code of Conduct

The Company has an established Code of Business Conduct in regulating employment and business administration, made available in an employee handbook. The Code of Business Conduct reflects the commitment of the Company to run a business that is ethical, fair, efficient and effective, aligned to its business standards. The Code of Business Conduct however, does not extend to a written policy on whistleblowing. The existing receptive organisational culture, anchored by a sound risk and internal control environment is deemed sufficient and proven to be effective in practice.

Board Meetings

The Company is led and controlled by an experienced Board with a wide range of expertise. Board members' judgement has a bearing on strategies, performances, resources and standards. Four (4) Board meetings were held during the financial year ended 31 March 2016 (with details of attendance presented under Other Compliances Statement of this Annual Report). In between scheduled meetings and where appropriate, Board decisions may be effected via circular resolutions.

All Directors have complied with the minimum requirements on attendance at Board meetings as stipulated in the Bursa Securities Main Market Listing Requirements (minimum 50% attendance).

Minutes of proceedings and decisions taken during the Board meetings are recorded by the Company Secretary and were circulated promptly to the Board members.

14

Board Composition

The Board currently consists of five (5) members comprising two (2) Executive Directors and three (3) Non-Executive Directors. Among the Non-Executive Directors, all three (3) are Independent, hence more than a third of the Board is independent. Meanwhile, the Board's composition reflects a commitment towards achieving a requisite mix of skills and experience in various business and financial competencies. Executive Directors have direct responsibilities for business operations whereas Non-Executive Directors are responsible for bringing independent objective judgement to bear on Board deliberations.

The Board annually examines its size and composition with a view to determine the impact of the number and make up on its effectiveness. The Board believes that the current size and composition is ideal to provide the necessary check and balance to the Board's decision-making process. The profiles of the Directors is set out under Board of Directors' Profile of this Annual Report.

To ensure balance of power and authority, the roles of Chairman and Chief Executive Officer are distinct and separate. The Board has formally identified Datuk Wan Kassim Bin Ahmed as the Senior Independent Non-Executive Director to whom concerns may be raised.

Board Independence

The Board conducts an annual assessment of the independence of its Independent Non-Executive Directors and is satisfied that they continue to bring independent and objective judgment to Board deliberations.

The Company's Independent Non-Executive Director, namely, Datuk Wan Kassim Bin Ahmed, having served more than 9 years, constitutes a departure from the Code recommendations. The Board is of the opinion that this Director, as a result of his long tenure, possess valuable knowledge of the structure, controls and dynamics of the Company.

Consequently, pursuant to Recommendation 3.3 of the Code, the Board seek shareholders' approval to retain his designation as an Independent Director. The length of his service on the Board does not in any way interfere with his exercise of independent judgement and ability to act in the best interests of the Company as he continues to be scrupulously independent in the discharge of his duty as a constructive challenger of executive management.

The Board, therefore, recommends that Datuk Wan Kassim Bin Ahmed should continue to serve as an Independent Non-Executive Director of the Company for another year.

Board Diversity

The Board acknowledges the importance of Board diversity, including gender diversity, to the effective functioning of the Board. The Board endeavours to achieve diversification in terms of gender, ethnicity and age, underpinned by the overriding primary aim of selecting the best candidates to support the achievement of the Company's strategic objectives.

Continuing Education of Directors

Directors' training is an on-going process as the Directors recognise the need to continually develop and refresh their skills and knowledge and to update themselves on the developments in the related industry and business landscape.

Directors are required to attend the Mandatory Accreditation Programme prescribed by Bursa Malaysia Securities Berhad. During the financial year, the Directors attended an in-house training on The New Companies Act 2015 – Challenges for Directors and Secretaries.

Apart from the above, Board members were regularly updated on global developments and trends in Corporate Governance principles and best practices besides local regulatory and capital market developments.

Supply of Information

The Directors have full and unrestricted access to all information pertaining to the Company's business and affairs, whether as a full Board or in their individual capacity, to enable them to discharge their duties. Board meetings are held quarterly to deliberate inter-alia on the Company's corporate developments, financial results, business operations, risk management and internal audit reports with proceedings duly minuted and signed by the meeting Chairman.

During Board Meetings, management are required to furnish further details on any issues raised and to provide supplementary information at the Board's behest. The Board of Directors also have ready and unrestricted access to the advice and services of the Company Secretary to enable them to discharge their duties effectively.

At least one week, prior to the Board meetings, the Directors are provided with the agenda together with Board papers containing reports and information relevant to the business of the meeting to enable sufficient timeframe to consider any matters arising.

The Directors whether as a full Board or in their individual capacity, may obtain independent professional advice at the Company's expense, in furtherance of their duties.

Company Secretary

The Company Secretary plays a supporting role to the Board to ensure adherence to the Board policies and procedure and compliances with the Bursa Securities Main Market Listing Requirements and other compliance regulations.

In particular, the Company Secretary carries out the following tasks;

- attending Board and Board Committee meetings and ensuring that these meetings are properly convened and proceedings are properly recorded;
- ensuring that all appointments to the Board and Committees are properly made;
- maintaining records for the purposes of meeting statutory obligations;
- facilitating the ongoing provisions of information as may be requested by the Directors and supporting the Board in ensuring ongoing adherence to Board policies and procedures.

Board Committees

The Board has delegated specific responsibilities to Board Committees which comprise the Audit Committee, Nomination Committee and Remuneration Committee. These Committees operate within defined terms of reference and are limited to making recommendations to the Board for final decision on matters discussed and deliberated.

Minutes of proceedings and decisions taken during the Board meetings are recorded by the Company Secretary and were circulated promptly to the members of Board Committees.

Appointments to the Board

The Board had established a Nomination Committee with appropriate terms of reference on 25 February 2002. The members of the Committee, currently comprising wholly of Independent Non-Executive Directors, are as follows :-

- 1. Datuk Wan Kassim Bin Ahmed (Chairman)
- 2. Dato' Dr Mohd Aminuddin Bin Mohd Rouse

The Nomination Committee is chaired by a Senior Independent Director identified by the Board, thereby enhancing the Committee's overall effectiveness.

The Nomination Committee established by the Board, is responsible for screening, evaluating and recommending suitable candidates to the Board for appointment as Directors, as well as filling the vacant seats of the Board Committees. In respect of the appointment of Directors, the Company practised a clear and transparent nomination process which involves the identification of candidates, evaluation of suitability of candidates, meeting up with candidates, final deliberation by the Nomination Committee and recommendation to the Board.

The Nomination Committee has a formal assessment mechanism in place to assess on an annual basis, the effectiveness of the Board as a whole and the contribution of each individual director, including the Independent Non-Executive Directors. The Committee shall meet at least once a year. Additional meetings are held as and when required. During the financial year, the Committee met once on 25 February 2016.

Re-election

In accordance with the Company's Articles of Association, all Directors are subject to retirement from office at least once in every three (3) years, but shall be eligible for reelection. This provision is not only consistent with the underlying principles of the Code, but also, fully in line with paragraph 7.26 (2) of the Bursa Securities Main Market Listing Requirements. The Articles also provide that any director appointed during the year is required to retire and seek re-election at the following Annual General Meeting ("AGM") immediately after such appointment.

The Directors who are subject to re-election at the AGM will be assessed by the Nomination Committee on their performance whereupon recommendations will be submitted to the Board for decision on the proposed reelection of the Directors concerned for shareholders' approval at the forthcoming AGM.

DIRECTORS' REMUNERATION

Procedure

The Board had established a Remuneration Committee with appropriate terms of reference on 25 February 2002. The primary objective of the Remuneration Committee is to assist the Board in developing and establishing competitive remuneration policies and packages in all its forms, while drawing advice from experts if deemed necessary. The Committee currently comprising a majority of Non-Executive Directors, are as follows :-

- 1. Datuk Wan Kassim Bin Ahmed (Chairman)
- 2. Dato' Dr Mohd Aminuddin Bin Mohd Rouse
- 3. Chen Yiy Fon

The Committee shall meet at least once a year. Additional meetings shall be scheduled if considered necessary by the Committee or Chairman. During the financial year, the Committee met once on 25 February 2016.

The Level and Make-up of Remuneration

The Committee's duty is to, inter-alia, review the remuneration framework and packages of newly appointed and existing Executive Directors and make recommendations to the Board for approval, with the underlying objective of attracting, motivating and retaining Directors needed to run the Company successfully. In particular, the remuneration package is structured to commensurate with corporate and individual performance, business strategy and long term objective of the Company.

In respect of Non-Executive Directors, the level of remuneration reflects the experience and level of responsibilities undertaken and is a matter for consideration by the Board as a whole. The Non-Executive Directors abstain from discussion pertaining to their own remuneration.

Disclosure

The details of Directors' Remuneration for the financial year are summarised under Other Compliances Statement of this Annual Report.

SHAREHOLDERS

Dialogue Between Company and Shareholders

The Company recognises the importance of keeping shareholders well informed of the Group's major corporate developments and events. The Board had directed the Company to disclose all relevant information to shareholders to enable them to exercise their rights. Such information are duly and promptly announced via appropriate communication channels.

In particular, dissemination of information includes the distribution of Annual Reports, announcement of quarterly financial performance, issuance of circulars, press releases and holding of press conferences.

To further enhance transparency to all shareholders and stakeholders of the Company, the Group has established a website at www.karambunaicorp.com where shareholders can access information encompassing corporate information, financial highlights, annual reports, Bursa Malaysia Securities Berhad's announcements, and media updates.

The Annual General Meeting ('AGM')

The AGM is the principal platform for dialogue with shareholders, wherein, the Board presents the operations and performance of the Company. During the meeting, shareholders are given every opportunity to enquire and comment on matters relating to the Company's business.

The Company has taken active steps to encourage shareholder participation at general meetings such as serving notices for meetings earlier than the minimum notice period. The Chairman and members of the Board are available to respond to shareholders' queries during the meeting.

ACCOUNTABILITY AND AUDIT

Financial Reporting

The Board is responsible for ensuring a balanced and understandable assessment of the Company's position and prospects in its quarterly announcements and annual reports. The Audit Committee assists the Board by reviewing the disclosure information to ensure completeness, accuracy and validity. A full Directors' Responsibility Statement is also included in this Annual Report.

Internal Control

The Statement on Risk Management and Internal Control set out in this Annual Report provides an overview of the Company's approach in maintaining a sound system of internal control to safeguard shareholders' investment and the Company's assets.

Relationship with the Auditors

The Board via the establishment of an Audit Committee, maintains a formal and transparent relationship with the Company's auditors and place great emphasis on the objectivity and independence of the Company's external auditor.

The roles of the Audit Committee in relation to the auditors in particular, and corporate governance in general, are detailed in the Audit Committee Report of this Annual Report.

This statement is made in accordance with a resolution of the Board of Directors dated 14 July 2016.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

PREAMBLE

Pursuant to paragraph 15.26(b) of the Bursa Securities Main Market Listing Requirements, the Board of Directors is required to include in its Annual Report, a statement on the state of internal control of the Company. In making this Statement on Internal Control, it is essential to specifically address the Principles and Recommendations in the Malaysian Code on Corporate Governance ("the Code") which relate to internal control.

RESPONSIBILITY

The Board of Directors has overall stewardship responsibility for the Company's system of internal control and for reviewing its adequacy and integrity to safeguard shareholders' investment and the Company's assets. However, it should be noted that such a system is designed to manage rather than eliminate the risk of failure to achieve business objectives and can only provide reasonable and not absolute assurance against material misstatement or loss. The associated companies have not been dealt with as part of the Company for the purpose of this statement.

INTERNAL CONTROL FRAMEWORK

The embedded control system is designed to facilitate achievement of the Company's business objectives. It comprises the underlying control environment, control procedures, communication and monitoring processes which manifest as follows: -

- Organizational structure defining lines of responsibility, delegation of authority, segregation of duties and information flow. Besides the predominantly nonexecutive standing committees such as the Audit, Nomination and Remuneration Committees, the Board is supported by executive management operationally. These Committees convene periodically to meet its strategic business agenda thus ensuring that the Board, properly apprised, maintains effective supervision over the entire operations.
- Policies, procedures and standards have been established, periodically reviewed and updated in accordance with changes in the operating environment.
- Comprehensive budgeting process for major operating units with periodical monitoring of performance so that major variances are followed up and management action taken.
- Functional limits of authority in respect of revenue and capital expenditure for all operating units. These commitment authority thresholds, working in tandem with budgeting and payment controls, serve to facilitate the approval process whilst keeping potential exposure in check.

- Detailed justification and approval process for major projects and acquisitions imposed, to ensure congruence with the Company's strategic objectives.
- Independent appraisals by internal auditors to ensure ongoing compliance with policies, procedures, standards and legislations whilst assessing the effectiveness of the Group's system of financial, compliance and operational controls.

RISK MANAGEMENT FRAMEWORK

Besides primary ownership over effectiveness of the Company's internal control systems, the Company regards risk management as an integral part of the business operations. The Company recognizes its responsibility over the principal risks of various aspects of the Company's business. For long term viability of the Company, the Board acknowledges that, it is crucial to achieve a critical balance between risks incurred and potential returns.

In response to the above challenge, the Company confirms that there is on-going process of identifying, evaluating, managing, monitoring and reporting significant risks affecting the achievement of the Company's business objectives via the establishment of an in-house structured risk management framework.

A Risk Advisory Committee (RAC) comprising senior management personnel responsible, inter alia, for internal policy communications, acquiring risk management skills, developing skills through education and training, and ensuring adequate scale of recognition, rewards and sanctions was set up on 25 February 2002.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

In particular, the Company's risk management process is focused on the following objectives:-

- risks arising from business strategies and activities are identified and prioritized by functional heads;
- management and the Board have determined the Company's risk appetite vis-à-vis the accomplishment of the Company's strategic plans;
- risk mitigation activities are designed and implemented to manage risks at an acceptable level sanctioned by management and the Board.

During the financial year, the RAC convened quarterly to monitor the Company's significant risks and recommended appropriate treatments. The Audit Committee facilitated by the internal audit function, establishes the adequacy and effectiveness of the Company's Risk Management Framework by regularly reviewing the resultant RAC risk registers.

INTERNAL AUDIT

An in-house Internal Audit function supports the Audit Committee, and by extension, the Board, by providing reasonable independent assurance on the effectiveness of the Company's system of internal control.

In particular, Internal Audit appraise and contribute towards improving the Company's risk management and internal control systems and reports to the Audit Committee on a quarterly basis. The internal audit work plan which reflects the risk profile of the Company's major business sectors is routinely reviewed and approved by the Audit Committee.

Quarterly, the Board of Directors, through its Audit Committee, has reviewed the adequacy and effectiveness of the Company's risk management process and internal control systems and relevant actions have been or are being taken as the case may be, to remedy the internal control weaknesses identified from the reviews, which was largely based on the outcome of observations raised by internal auditors directly to the Audit Committee.

INTERNAL CONTROL ISSUES

Management maintains an ongoing commitment to strengthen the Company's control environment and processes. The Chief Executive Officer and the Chief Financial Officer have provided assurance to the Board that the Company's risk management and internal control systems are operating adequately and effectively, in all material aspects, based on the risk management and internal control frameworks of the Company.

The management will continue and take measures to ensure the ongoing effectiveness and adequacy of the system of risk management and internal controls, so as to safeguard shareholders' investment and the Company's assets. During the year, there were no material losses caused by breakdown in internal control.

This statement is made in accordance with a resolution of the Board of Directors dated 14 July 2016 and has been duly reviewed by the external auditors, pursuant to paragraph 15.23 of the Bursa Securities Main Market Listing Requirements.

AUDIT COMMITTEE REPORT

PREAMBLE

This report is made in accordance with a resolution of the Board of Directors dated 14 July 2016.

DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to Paragraph 15.26(a) of the Bursa Securities Main Market Listing Requirements

The Directors are required by Malaysian company law to prepare for each accounting period financial statements which give a true and fair view of the state of affairs of the Company as at the end of the accounting period and of the results of their operations and cashflows for that period.

In preparing the financial statements the Directors are required to select and apply consistently suitable accounting policies and make reasonable and prudent judgements and estimates. Applicable accounting standards also have to be followed and a statement made to that effect in the financial statements, subject to any material departures being disclosed and explained in the notes to the financial statements. The Directors are required to prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business. The Directors are responsible for ensuring proper accounting records are kept which discloses with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 1965.

They are also responsible for taking reasonable steps to safeguard the assets of the Company and for taking reasonable steps for the prevention and detection of fraud and other irregularities.

This statement is made in accordance with a resolution of the Board of Directors dated 14 July 2016.

Neither during nor at the end of the financial year, was the Company a party to any arrangement whose object was to enable the Directors to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

OTHER STATUTORY INFORMATION

- (a) Before the statements of financial position and statements of profit or loss and other comprehensive income of the Group and of the Company were made out, the Directors took reasonable steps:
 - to ascertain that action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for doubtful debts; and
 - (ii) to ensure that any current assets which were unlikely to realise their value as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected so to realise.
- (b) At the date of this report, the Directors are not aware of any circumstances :
 - (i) which would render it necessary to write off any bad debts or the amount of the allowance for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; or
 - (ii) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or
 - (iii) not otherwise dealt with in this report or the financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading; or
 - (iv) which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.
- (c) At the date of this report, there does not exist:
 - (i) any charge on the assets of the Group and of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or
 - (ii) any contingent liability of the Group and of the Company which has arisen since the end of the financial year.

OTHER STATUTORY INFORMATION (CONT'D)

- (d) In the opinion of the Directors:
 - no contingent liability or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group and of the Company to meet their obligations as and when they fall due;
 - the results of operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature, except as disclosed in the notes to the financial statements; and
 - (iii) there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Group and of the Company for the current financial year in which this report is made.

INDEPENDENT AUDITORS' REPORT

to the Members of Karambunai Corp Bhd. (Company No.: 6461-P) (Incorporated in Malaysia)

REPORT ON THE FINANCIAL STATEMENTS

We have audited the financial statements of Karambunai Corp Bhd., which comprise the statements of financial position as at 31 March 2016 of the Group and of the Company, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 33 to 98.

Directors' Responsibility for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements so as to give a true and fair view in accordance with Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Group and of the Company as of 31 March 2016 and of their financial performance and cash flows for the financial year then ended in accordance with Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.

Emphasis of Matter

Without qualifying our opinion, we draw attention to Note 2(d) to the financial statements which discloses the premise upon which the Group has prepared its financial statements by applying the going concern assumption, notwithstanding that the Group incurred net losses of RM23,375,740 for the financial year ended 31 March 2016, and as at that date, the Group's current liabilities exceeded its current assets by RM327,211,636.

These conditions indicate the existence of a material uncertainty which may cast significant doubt about the ability of the Group to continue as going concern. The financial statements have been prepared on the going concern basis which assumes that the Group will be able to operate and generate sufficient cash flows in the foreseeable future to enable the Group to meet its obligations as and when they fall due, and accordingly, the realisation of its assets and settlement of its liabilities will occur in the ordinary course of business.

INDEPENDENT AUDITORS' REPORT

to the Members of Karambunai Corp Bhd. (Company No.: 6461-P) (Incorporated in Malaysia)

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

- (a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiary companies of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.
- (b) We have considered the financial statements and the auditors' report of the subsidiary companies of which we have not acted as auditors, which are indicated in Note 6 to the financial statements.
- (c) We are satisfied that the financial statements of the subsidiary companies that have been consolidated with the financial statements of the Company is in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group and we have received satisfactory information and explanations required by us for those purposes.
- (d) The audit reports on the financial statements of the subsidiary companies did not contain any qualification or any adverse comment required to be made under Section 174(3) of the Act.

OTHER REPORTING RESPONSIBILITIES

The supplementary information set out in Note 40 to the financial statements on page 99 is disclosed to meet the requirement of Bursa Malaysia Securities Berhad and is not part of the financial statements. The Directors are responsible for the preparation of the supplementary information in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosures Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants ("MIA Guidance") and the directive of Bursa Malaysia Securities Berhad. In our opinion, the supplementary information is prepared, in all material respects, in accordance with the MIA Guidance and the directive of Bursa Malaysia Securities Berhad.

OTHER MATTERS

This report is made solely to the members of the Company, as a body, in accordance with Section 174 of the Companies Act, 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

The accompanying notes form an integral part of the financial statements.

1. CORPORATE INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Main Market of Bursa Malaysia Securities Berhad.

The registered office and principal place of business of the Company are located at No. 9020, Nexus Drive West, Karambunai, Menggatal, 88450 Kota Kinabalu, Sabah, Malaysia.

The Company is principally engaged in the business of investment holdings and provision of management services. The principal activities of the subsidiary companies are disclosed in Note 6. There have been no significant changes in the nature of these activities during the financial year.

2. BASIS OF PREPARATION

(a) Statement of compliance

The financial statements of the Group and of the Company have been prepared in accordance with Financial Reporting Standards ("FRSs") and the requirements of the Companies Act, 1965 in Malaysia.

The financial statements of the Group and of the Company have been prepared under the historical cost convention, unless otherwise indicated in the significant accounting policies below.

Adoption of new and amended standards

During the financial year, the Group and the Company have adopted the following amendments to FRSs issued by the Malaysian Accounting Standards Board ("MASB") that are mandatory for current financial year:

Amendments to FRS 119

Annual Improvements to FRSs 2010 – 2012 Cycle Annual Improvements to FRSs 2011 – 2013 Cycle Defined Benefits Plans: Employee Contributions

Adoption of above amendments to FRSs did not have any significant impact on the financial statements of the Group and the Company.

Standards issued but not yet effective

The Group and the Company have not applied the following new FRSs and amendments to FRSs that have been issued by the MASB but are not yet effective for the Group and the Company:

		Effective dates for financial periods beginning on or after
FRS 14	Regulatory Deferral Accounts	1 January 2016
Amendments to FRS 11	Accounting for Acquisitions of Interests in Joint Operations	1 January 2016

The initial application of the abovementioned FRSs are not expected to have any significant impacts on the financial statements of the Group and of the Company except as mentioned below:

FRS 9 Financial Instruments (IFRS 9 issued by IASB in July 2014)

FRS 9 (IFRS 9 issued by IASB in July 2014) replaces earlier versions of FRS 9 and introduces a package of improvements which includes a classification and measurement model, a single forward looking 'expected loss' impairment model and a substantially reformed approach to hedge accounting. FRS 9 when effective will replace FRS 139 *Financial Instruments: Recognition and Measurement.*

FRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through other comprehensive income and fair value through profit or loss. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in other comprehensive income without subsequent recycling to profit or loss. There is now a new expected credit losses model that replaces the incurred loss impairment model used in FRS 139. For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value through profit or loss. FRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management actually use for risk management purposes. Contemporaneous documentation is still required but is different to that currently prepared under FRS 139.

The adoption of FRS 9 will result in a change in accounting policy. The Group is currently examining the financial impact of adopting FRS 9.

New Malaysian Financial Reporting Standards ("MFRS Framework") issued but not yet effective

On 19 November 2011, the MASB issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards ("MFRS Framework"). The MFRS Framework is to be applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 *Agriculture* and IC Interpretation 15 *Agreements for Construction of Real Estate*, including its parent, significant investor and venturer (hereinafter called "Transitioning Entities").

Transitioning Entities will be allowed to defer adoption of the new MFRS Framework and continue to use the existing FRS Framework. The adoption of the MFRS Framework by Transitioning Entities will be mandatory for annual periods beginning on or after 1 January 2018.

2. BASIS OF PREPARATION (CONT'D)

(a) Statement of compliance (Cont'd)

New Malaysian Financial Reporting Standards ("MFRS Framework") issued but not yet effective (Cont'd)

The Group and the Company fall within the scope definition of Transitioning Entities and accordingly, will be required to prepare financial statements using the MFRS Framework in their first MFRS financial statements for the financial year ending 31 March 2019. In presenting their first MFRS financial statements, the Group and the Company will be required to restate the comparative financial statements to amounts reflecting the application of the MFRS Framework. The majority of the adjustments required on transition will be made, retrospectively, against opening retained earnings.

The Group and the Company have not completed its assessment of the financial effects of the differences between FRSs and accounting standards under the MFRS Framework. Accordingly, the consolidated and separate financial performance and financial position as disclosed in these financial statements for the financial year ended 31 March 2016 could be different if prepared under the MFRS Framework.

(b) Functional and presentation currency

The financial statements are presented in Ringgit Malaysia ("RM") which is the Group's and the Company's functional currency. All financial information is presented in RM and has been rounded to the nearest RM except when otherwise stated.

(c) Significant accounting judgements, estimates and assumptions

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

Judgements

There are no significant areas of estimation uncertainty and critical judgement in applying accounting policies that have significant effect on the amounts recognised in the financial statements.

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period are set out below:

Construction contracts

The Group recognises construction contracts revenue and expenses in the profit or loss by using the stage of completion method. The stage of completion is determined by the proportion that construction costs incurred for work performed to date bear to the estimated total construction costs.

Significant judgement is required in determining the stage of completion, the extent of the construction costs incurred, the estimated total construction revenue and costs, as well as the recoverability of the construction projects. In making the judgment, the Group evaluates based on experience and by relying on the work of specialists.

44

2. BASIS OF PREPARATION (CONT'D)

(c) Significant accounting judgements, estimates and assumptions (Cont'd)

Property developments

The Group recognises property development revenue and expenses in the statement of comprehensive income by using the stage of completion method. The stage of completion is determined by the proportion that property development costs incurred for work performed to date bear to the estimated total property development costs.

Significant judgement is required in determining the stage of completion, the extent of the property development cost incurred, the estimated total property development revenue and costs, as well as the recoverability of the development projects. In making the judgement, the Group evaluates based on past experience and by relying on the work of specialists. The carrying amount of the Group's property development costs at the reporting date is disclosed in Note 10.

Useful lives of property, plant and equipment (Note 4)

The Group regularly review the estimated useful lives of property, plant and equipment based on factors such as business plan and strategies, expected level of usage and future technological developments. Future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned above. A reduction in the estimated useful lives of property, plant and equipment would increase the recorded depreciation and decrease the value of property, plant and equipment.

Income taxes

Judgement is involved in determining the provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business.

The Group recognises liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made. As at 31 March 2016, the Group has tax payable of RM47,127,902 (2015 : RM52,320,384).

Deferred tax assets

Deferred tax assets are recognised for all unused tax losses, unabsorbed capital allowances and other deductible temporary differences to the extent that it is probable that taxable profit will be available against which the unused tax losses, unabsorbed capital allowances and other deductible temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The carrying value of the recognised and unrecognised deferred tax assets are disclosed in Note 8.

Impairment of investments in subsidiary companies

The Company reviews its investments in subsidiary companies when there are indicators of impairment. Impairment is measured by comparing the carrying amount of an investment with its recoverable amount. Significant judgement is required in determining the recoverable amount. Estimating the recoverable amount requires the Company to make an estimate of the expected future cash flows from the cash-generating units and also to determine a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount at the reporting date for investments in subsidiaries is disclosed in Note 6.

Impairment of goodwill on consolidation

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value-in-use of the cash-generating units to which the goodwill is allocated. Estimating the value-in-use amount requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The impairment assessment of goodwill is disclosed in Note 9.

2. BASIS OF PREPARATION (CONT'D)

(c) Significant accounting judgements, estimates and assumptions (Cont'd)

Impairment of loans and receivables

The Group assesses at end of each reporting period whether there is any objective evidence that a receivable is impaired. To determine whether there is objective evidence of impairment, the Group considers factors such as the probability of insolvency or significant financial difficulties of the receivable and default or significant delay in payments.

Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience for assets with similar credit risk characteristics. The carrying amounts at the reporting date for loans and receivables are disclosed in Notes 12, 13 and 14 respectively.

Material litigations

The Group determines whether a present obligation in relation to a material litigation exists at the reporting date by taking into account all available evidence, including the opinion of its solicitors and subsequent events after the reporting date. On the basis of such evidence, the Group evaluates if a provision needs to be recognised in the financial statements

Estimation of fair values of property, plant and equipment

The Group adopts revaluation policy for its land and buildings. The Group engaged independent valuation specialists to determine the fair values with the latest being 10 September 2012 for the leasehold land at Bukit Unggul, and on 18 April 2016 for leasehold land at Karambunai and Hotel property. The fair values were determined primarily using the following valuation method:

- (i) Hotel property the fair value was determined by adopting the cost method as the primary method of the valuation and adopts the direct comparison methods to cross check.
- (ii) Leasehold land at Karambunai Sabah the fair values were determined using the Discounted Cash Flows and the Residual methods. Comparison method has not been adopted to determine the fair values since there is limited comparable land sales recently transacted in the area where the land are located. In applying the Discounted Cash Flows and Residual methods, the independent valuation specialist has made several assumptions and applied suitable market conventions and appropriate valuation parameters.
- (iii) Leasehold land at Bukit Unggul, Selangor the fair values was determined using the Comparison method which compares the subject property with similar type of potential development lands and entails the analysis of recent sales of similar properties in the locality. In applying the Comparison Method, the independent valuation specialist has made several adjustments for differences in location, shape, size, terrain, surrounding areas, development potential or status and other relevant factors.

Fair value of financial instruments

Management uses valuation techniques in measuring the fair value of financial instruments where active market quotes are not available. Details of the assumptions used are given in the Note 36(c) regarding financial assets and liabilities. In applying the valuation techniques management makes maximum use of market inputs, and uses estimates and assumptions that are, as far as possible, consistent with observable data that market participants would use in pricing the instrument. Where applicable data is not observable, management uses its best estimate about the assumptions that market participants would make. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the end of the reporting period.

2. BASIS OF PREPARATION (CONT'D)

(d) Going concern assumption

The Group incurred a net loss of RM23,375,740 (2015: RM41,528,147) for the financial year ended 31 March 2016. As of that date, the Group's current liabilities exceeded its current assets by RM327,211,636 (2015: RM316,833,293). These conditions indicate the existence of material uncertainties which may cast significant doubt on the ability of the Group to continue as going concern and therefore it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The financial statements have been prepared on the going concern basis which assumes that the Group will be able to operate and generate sufficient cash flows in the foreseeable future to enable the Group to meet its obligations as and when they fall due, and accordingly, the realisation of its assets and settlement of its liabilities will occur in the ordinary course of business.

The Directors are of the opinion that the Group will continue as going concern and accordingly, the financial statements have been prepared on a going concern basis and do not include any adjustments relating to the amounts and classification of assets and liabilities that might be necessary should the going concern basis of preparation of the financial statements be inappropriate.

3. SIGNIFICANT ACCOUNTING POLICIES

The Group and the Company apply the significant accounting policies set out below, consistently throughout all periods presented in the financial statements unless otherwise stated.

(a) Basis of consolidation

(i) Subsidiary companies

Subsidiary companies are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiary companies are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary company is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of acquiree's identifiable net assets.

Acquisition-related costs are expensed off in profit or loss as incurred.

If the business combination is achieved in stages, previously held equity interest in the acquiree is remeasured at its acquisition date fair value and the resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument within the scope of FRS 139 *Financial Instruments: Recognition and Measurement* is measured at fair value with the change in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(a) Basis of consolidation (Cont'd)

(i) Subsidiary companies (Cont'd)

Inter-company transactions, balances and unrealised gains or losses on transactions between Group of companies are eliminated. Unrealised losses are eliminated only if there is no indication of impairment. Where necessary, accounting policies of subsidiary companies have been changed to ensure consistency with the policies adopted by the Group.

In the Company's separate financial statements, investments in subsidiary companies are stated at cost less accumulated impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts are recognised in profit or loss. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. The policy of recognition and measurement of impairment losses is in accordance with Note 3(j).

(ii) Changes in ownership interests in subsidiary companies without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary company is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

(iii) Disposal of subsidiary companies

If the Group loses control of a subsidiary company, the assets and liabilities of the subsidiary company, including any goodwill, and non-controlling interests are derecognised at their carrying value on the date that control is lost. Any remaining investment in the entity is recognised at fair value. The difference between the fair value of consideration received and the amounts derecognised and the remaining fair value of the investment is recognised as a gain or loss on disposal in profit or loss. Any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities.

(iv) Goodwill on consolidation

The excess of the aggregate of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If the total consideration transferred, non-controlling interest recognised and previously held interest measured at fair value is less than the fair value of the net assets of the subsidiary company acquired (ie. a bargain purchase), the gain is recognised in profit or loss.

Following the initial recognition, goodwill is measured at cost less accumulated impairment losses. Goodwill is not amortised but instead, it is reviewed for impairment annually or more frequent when there is objective evidence that the carrying value may be impaired. See accounting policy Note 3(j) to the financial statements on impairment of non-financial assets.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(b) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. The policy of recognition and measurement of impairment losses is in accordance with Note 3(j).

(i) Recognition and measurement

Cost includes expenditures that are directly attributable to the acquisition of the assets and any other costs directly attributable to bringing the asset to working condition for its intended use, cost of replacing component parts of the assets, and the present value of the expected cost for the decommissioning of the assets after their use. For qualifying assets, borrowing costs are capitalised in accordance with the accounting policy on borrowing costs. All other repair and maintenance costs are recognised in profit or loss as incurred.

The cost of property, plant and equipment recognised as a result of a business combination is based on fair value at acquisition date. The fair value of property is the estimated amount for which a property could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. The fair value of other items of property, plant and equipment is based on the quoted market prices for similar items.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment are derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising on the disposal of property, plant and equipment are determined as the difference between the disposal proceeds and the carrying amount of the assets and are recognised in profit or loss. On disposal of a revalued asset, the amounts in revaluation reserve relating to those assets are transferred to retained earnings.

Land and buildings are measured at fair value less accumulated depreciation on buildings and impairment losses recognised after the date of the revaluation. Valuations are performed with sufficient regularity to ensure that the carrying amount does not differ materially from the fair value of the land and buildings at the end of the reporting period.

As at the date of revaluation, accumulated depreciation, if any, is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Any revaluation surplus arising upon appraisal of land is recognised in other comprehensive income and credited to the revaluation reserve in equity. To the extent that any revaluation decrease or impairment loss has previously been recognised in other comprehensive income. Downward revaluations of land are recognised upon appraisal or impairment testing, with the decrease being charged to other comprehensive income to the extent of any revaluation surplus in equity relating to this asset and any remaining decrease recognised in profit or loss. Any revaluation surplus remaining in equity on disposal of the asset is transferred to other comprehensive income.

(ii) Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in the profit or loss as incurred.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(b) Property, plant and equipment (Cont'd)

(iii) Depreciation

Depreciation is recognised in the profit or loss on straight line basis to write off the cost or valuation of each asset to its residual value over its estimated useful life. Leased assets are depreciated over the shorter of the lease term and their useful lives.

Property, plant and equipment are depreciated based on the estimated useful lives of the assets as follows:

Long term leasehold land	Over remaining leasehold period of 99 to 999 years
Hotel property	50 years
Golf course and its related buildings	10 years
Office buildings, shoplots, and jetty	10 – 50 years
Plant and machinery	4 – 10 years
Furniture and fittings, partition and renovation, computer and	
plant and machinery	3 – 10 years
Motor vehicles	4 – 6 years

The residual values, useful lives and depreciation method are reviewed at each reporting period end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the property, plant and equipment.

Fully depreciated property, plant and equipment are retained in the financial statements until they are no longer in use and no further charge for depreciation is made in respect of these property, plant and equipment.

(c) Land held for property development

Land held for property development consists of land where no development activities have been carried out or where development activities are not expected to be completed within the normal operating cycle. Such land is classified within non-current assets and is stated at cost less any accumulated impairment losses.

Land held for property development are reclassified as property development costs at the point when development activities have commenced and where it can be demonstrated that the development activities can be completed within the normal operating cycle.

(d) Property development costs

Property development costs comprise all costs that are directly attributable to development activities or that can be allocated on a reasonable basis to such activities.

When the financial outcome of a development activity can be reliably estimated, property development revenue and expenses are recognised in profit or loss by using the stage of completion method. The stage of completion is determined by the proportion that property development costs incurred for work performed to date bear to the estimated total property development costs.

Where the financial outcome of a development activity cannot be reliably estimated, property development revenue is recognised only to the extent of property development costs incurred that is probable will be recoverable, and development costs on properties sold are recognised as an expense in the period in which they are incurred.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(d) Property development costs (Cont'd)

Any expected loss on a development project, including costs to be incurred over the defects liability period, is recognised as an expense immediately.

Property development costs not recognised as an expense are recognised as an asset, which is measured at the lower of cost and net realisable value.

The excess of revenue recognised in the profit or loss over billings to purchasers is classified as accrued billings within trade receivables and the excess of billings to purchasers over revenue recognised in profit or loss is classified as progress billings within trade payables.

(e) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs incurred in bringing the inventories to their present location and conditions are accounted for as follows:

- Raw materials, consumables: Costs of dry goods are determined on weighted average basis. Costs of wet goods are determined on first-in-first-out basis.
- Trading merchandise: Costs are determined on first-in-first-out basis.
- Completed development properties: Cost of unsold completed properties is determined on specific identification basis and comprises attributable land and development expenditure incurred up to completion of the properties.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(f) Financial assets

Financial assets are recognised on the statements of financial position when, and only when, the Group and the Company become a party to the contractual provisions of the financial instrument.

Financial assets are initially recognised at fair value plus transaction costs except for financial assets at fair value through profit or loss, which are recognised at fair value. Transaction costs for financial assets at fair value through profit or loss are recognised immediately in profit or loss.

The Group and the Company classify their financial assets depends on the purpose for which the financial assets were acquired at initial recognition, into the following categories:

(i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those maturing later than 12 months after the end of the reporting period which are presented as non-current assets.

After initial recognition, financial assets categorised as loans and receivables are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, and through the amortisation process.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(f) Financial assets (Cont'd)

(ii) Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of the assets within 12 months after the end of the reporting period.

After initial recognition, available-for-sale financial assets are measured at fair value. Any gains or losses from changes in fair value of the financial asset are recognised in other comprehensive income, except that impairment losses, foreign exchange gains and losses on monetary instruments and interest calculated using the effective interest method are recognised in profit or loss. The cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment when the financial asset is derecognised. Interest income calculated using the effective interest method for loss. Dividends from an available-for-sale equity instrument are recognised in profit or loss when the Group's and the Company's right to receive payment is established.

Investment in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost less impairment loss.

Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace concerned. All regular way purchases or sales of financial assets are recognised and derecognised on the trade date i.e. the date that the Group and the Company commit to purchase or sell the asset.

A financial asset is derecognised when the contractual rights to receive cash flows from the financial asset has expired or has been transferred and the Group and the Company have transferred substantially all risks and rewards of ownership. On derecognition of a financial asset, the difference between the carrying amount and the sum of consideration received and any cumulative gains or loss that had been recognised in equity is recognised in profit or loss.

(g) Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definition of financial liabilities.

Financial liabilities are recognised on the statements of financial position when, and only when, the Group and the Company become a party to the contractual provisions of the financial instrument.

The Group and the Company classify their financial liabilities at initial recognition, into the following categories:

(i) Financial liabilities measured at amortised cost

The Group's and the Company's financial liabilities comprise trade and other payables and loans and borrowings.

Trade and other payables are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(g) Financial liabilities (Cont'd)

(i) <u>Financial liabilities measured at amortised cost (Cont'd)</u>

Loans and borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Gains and losses on financial liabilities measured at amortised cost are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

(ii) <u>Financial guarantee contracts</u>

A financial guarantee contract is a contract that requires the issuer to make specific payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the best estimate of the expenditure required to settle the present obligation at the reporting date and the amount recognised less cumulative amortisation.

A financial liability is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

(h) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

(i) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, bank balances, demand deposits, bank overdraft and highly liquid investments that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value. For the purpose of statement of cash flows, cash and cash equivalents are presented net of bank overdrafts and pledged deposits.

(j) Impairment of assets

(i) Non-financial assets

The carrying amounts of non-financial assets (except for inventories and deferred tax assets) are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite useful lives, or that are not yet available for use, the recoverable amount is estimated each period at the same time.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(j) Impairment of assets (Cont'd)

(i) Non-financial assets (Cont'd)

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units. Subject to operating segment ceiling test, for the purpose of goodwill impairment testing, cash-generating units to which goodwill has been allocated are aggregated so that the level at which impairment testing is performed reflects the lowest level at which goodwill is monitored for internal reporting purposes. The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to a cash-generating unit or a group of cash-generating units that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or cash-generating unit is the greater of its value-in-use and its fair value less costs of disposal. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

An impairment loss is recognised if the carrying amount of an asset or cash-generating unit exceeds its estimated recoverable amount. Impairment loss is recognised in profit or loss, unless the asset is carried at a revalued amount, in which such impairment loss is recognised directly against any revaluation surplus for the asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same asset. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (group of cash-generating units) and then to reduce the carrying amounts of the other assets in the cash-generating unit (group of cash-generating units) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation or amortisation, had no impairment loss been recognised for asset in prior years. Such reversal is recognised in the profit or loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

(ii) Financial assets

All financial assets, other than those categorised as fair value through profit or loss and investments in subsidiary companies, are assessed at each reporting date whether there is any objective evidence of impairment as a result of one or more events having an impact on the estimated future cash flows of the asset.

Financial assets carried at amortised cost

To determine whether there is objective evidence that an impairment loss on financial assets has been incurred, the Group considers factors such as the probability of insolvency or significant financial difficulties of the receivable and default or significant delay in payments. For certain categories of financial assets, such as trade receivables, assets that are assessed not to be impaired individually are subsequently assessed for impairment on a collective basis based on similar risk characteristics. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period and observable changes in national or local economic conditions that correlate with defaults on receivables.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(j) Impairment of assets (Cont'd)

(ii) Financial assets (Cont'd)

Financial assets carried at amortised cost (Cont'd)

If any such evidence exists, the amount of impairment loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account and the amount of impairment loss is recognised in profit or loss. Receivables together with the associated allowance are written off when there is no realistic prospect of future recovery.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised in profit or loss, the impairment loss is reversed, to the extent that the carrying amount of the asset does not exceed what the carrying amount would have been had the impairment not been recognised at the date the impairment is reversed. The amount of reversal is recognised in profit or loss.

Available-for-sale financial assets

Significant financial difficulties of the issuer or obligor, and the disappearance of an active trading market are considerations to determine whether there is objective evidence that investment securities classified as available-for-sale financial assets are impaired. A significant or prolonged decline in the fair value of investments in equity instruments below its cost is also an objective evidence of impairment.

If an available-for-sale financial asset is impaired, the amount of impairment loss is recognised in profit or loss and is measured as the difference between its cost (net of any principal payment and amortisation) and its current fair value, less any impairment loss previously. When a decline in the fair value of an available-for-sale financial asset has been recognised in other comprehensive income, the cumulative loss in other comprehensive income is reclassified from equity to profit or loss.

Impairment losses on available-for-sale equity investments are not reversed in profit or loss in the subsequent periods. Increase in fair value of equity instrument, if any, subsequent to impairment loss is recognised other comprehensive income. For available-for-sale debt investments, impairment losses are subsequently reversed in profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss in profit or loss.

Unquoted equity securities carried at cost

If there is objective evidence (such as significant adverse changes in the business environment where the issuer operates, probability of insolvency or significant financial difficulties of the issuer) that an impairment loss on financial asset carried at cost has been incurred, the amount of the loss is measured as the difference between the carrying amount of the financial asset and the Group's share of net assets or the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed in subsequent periods.

(k) Share capital

An equity instrument is any contract that evidences a residual interest in the assets of the Group and the Company after deducting all of its liabilities. Ordinary shares are equity instruments. Ordinary shares are recorded at the nominal value of shares issued. Ordinary shares are classified as equity.

Dividend distribution to the Company's shareholders is recognised as a liability in the period they are approved by the Board of Directors except for the final dividend which is subject to approval by the Company's shareholders.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(l) Provisions

Provisions are recognised when there is a present legal or constructive obligation as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at each end of the reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Any reimbursement that the Group can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision. The relating expense relating to any provision is presented in the statements of profit or loss and comprehensive income net of any reimbursement.

(m) Foreign currency translation

(i) Foreign currency transactions and balances

Transactions in foreign currency are recorded in the functional currency of the respective Group entities using the exchange rates prevailing at the dates of the transactions. At each reporting date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the reporting date are included in profit or loss except for exchange differences arising on monetary items that form part of the Group's net investment in foreign operation. These are initially taken directly to the foreign currency translation reserve within equity until the disposal of the foreign operations, at which time they are recognised in profit or loss. Exchange differences arising on monetary items that form part of the Company's net investment in foreign operation are recognised in profit or loss in the Company's financial statements of the foreign operation, as appropriate.

Exchange differences arising on the translation of non-monetary items carried at fair value are included in profit or loss for the reporting period except for the differences arising on the translation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income. Exchange differences arising from such non-monetary items are also recognised in other comprehensive income.

(ii) Foreign operations

The assets and liabilities of foreign operations denominated in functional currencies other than RM are translated to RM at the rate of exchange prevailing at the reporting date and income and expenses, excluding foreign operations in hyperinflationary economies, are translated to RM at exchange rates at the dates of the transactions.

Goodwill and fair value adjustments arising on the acquisition of foreign operations are treated as assets and liabilities of the foreign operations and are recorded in the functional currency of the foreign operations and translated at the closing rate at the reporting date.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(m) Foreign currency translation (Cont'd)

(ii) Foreign operations (Cont'd)

Foreign currency differences are recognised in other comprehensive income and accumulated in the foreign currency translation reserve ("FCTR") in equity. However, if the operation is a non-wholly owned subsidiary company, then the relevant proportionate share of the translation difference is allocated to the non-controlling interests. When a foreign operation is disposed off such that control, significant influence or joint control is lost, the cumulative amount in the FCTR related that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal.

When the Group disposes of only part of its interest in a subsidiary company that includes a foreign operation, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

(n) Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date, whether fulfillment of the arrangement is dependent on the use of a specific asset or asset and the arrangement conveys a right to use the asset, even if that right is not explicitly specific in an arrangement.

(i) Finance lease

Leases in terms of which the Group or the Company assumes substantially all the risks and rewards of ownership are classified as finance lease. Upon initial recognition, the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

Minimum lease payments made under finance leases are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the profit or loss. Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

Leasehold land which in substance is a finance lease is classified as a property, plant and equipment.

(ii) Operating lease

Leases, where the Group or the Company does not assume substantially all the risks and rewards of ownership are classified as operating leases and, except for property interest held under operating lease, the leased assets are not recognised on the statement of financial position. Property interest held under an operating lease, which is held to earn rental income or for capital appreciation or both, is classified as investment property and measured using fair value model.

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease. Contingent rentals are charged to profit or loss in the reporting period in which they are incurred.

Leasehold land which in substance is an operating lease is classified as prepaid land lease payments.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(o) Revenue

(i) Development properties/construction contracts

Revenue from sales of properties under development from contract works undertaken are recognised in profit or loss based on the stage of completion basis where the outcome of the developments contracts can be reliably estimated. The stage of completion basis is computed based on proportion of which the development costs and the contract costs incurred for work performed to date bear to the estimated total development and contract costs respectively.

(ii) Hotel and golf operations

Revenue from the provision of rooms, food and beverage, other department sales, landing services fees and golf related income are recognised when services are rendered.

(iii) Sales of goods

Revenue from the sale of goods is measured at fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised upon delivery of goods when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods.

(iv) Subscription fees

Subscription fees received from club members are recognised on an accrual basis. When members account become inactive, subscription fee is suspended until it is realised on a cash basis. Members' accounts are deemed to be inactive where subscriptions are in arrears for more than 6 months.

(v) Rendering of services

Revenue from services rendered is recognised in the profit or loss based on the value of services performed and invoiced to customers during the financial year.

(vi) Rental income

Rental income is accounted for on a straight-line basis over the lease terms. The aggregate costs of incentives provided to lessees are recognised as a reduction of rental income over the lease term on a straight-line basis.

(vii) Interest income

Interest income is recognised on an accrual basis using the effective interest method.

(viii) Land sold

Revenue from sale of land and completed landed properties is measured at the fair value of the consideration receivable and is recognised in profit or loss when the significant risk and reward of ownership have been transferred to the buyer.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(p) Employee benefits

(i) Short term employee benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees of the Group. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick and medical leave are recognised when the absences occur.

The expected cost of accumulating compensated absences is measured as additional amount expected to be paid as a result of the unused entitlement that has accumulated at the end of the reporting period.

(ii) Defined contribution plans

As required by law, companies in Malaysia contribute to the state pension scheme, the Employees Provident Fund ("EPF"). Some of the Group's foreign subsidiary companies also make contributions to their respective countries' statutory pension schemes. Such contributions are recognised as an expense in the profit or loss as incurred. Once the contributions have been paid, the Group has no further payment obligations.

(q) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of the assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred. Borrowing costs consist of interest and other costs that the Group and the Company incurred in connection with the borrowing of funds.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or completed.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

(r) Income tax

Tax expense in profit or loss comprises current and deferred tax. Current tax and deferred tax is recognised in profit or loss except to the extent that it relates to a business combination or items recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the financial year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised using the liability method for all temporary differences between the carrying amounts of assets and liabilities in the statement of financial position and their tax bases. Deferred tax is not recognised for the temporary differences arising from the initial recognition of goodwill, the initial recognition of assets and liabilities in a transaction which is not a business combination and that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(r) Income tax (Cont'd)

The measurement of deferred tax is based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(s) Segments reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-makers are responsible for allocating resources and assessing performance of the operating segments and make overall strategic decisions. The Group's operating segments are organised and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

(t) Contingencies

Where it is not probable that an inflow or an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the asset or the obligation is disclosed as a contingent asset or contingent liability, unless the probability of inflow or outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent assets or contingent liabilities unless the probability of inflow or outflow of economic benefits is remote.

Impairment testing of goodwill

Goodwill represents the excess of cost of acquisition over the fair value of the net assets of subsidiary companies acquired in prior years. Goodwill has been allocated to the Group's cash-generating unit ("CGU") identified that is expected to benefit from the synergies of the acquisitions, which is in respect of the property development segment.

The carrying amount of goodwill arising from acquisition of subsidiary company is as follows:

		Group	
	2016	2015	
	RM	RM	
Property development segment:			
Karambunai Resorts Sdn. Bhd.	14,937,416	14,937,416	

The recoverable amount of this CGU is determined based on the fair value less costs to sell off the development properties. The fair value less costs to sell is based on observable market prices for similar assets. The fair values of the development properties are estimated based on market values of comparable properties for Karambunai land as disclosed in Note 4(d) to the financial statements.

The Board of Directors is of the opinion that no further impairment of goodwill allocated to Karambunai land has occurred as the fair value approximates the carrying amount.

30. LOSS PER ORDINARY SHARE

Basic loss per ordinary share

The calculation of basic loss per ordinary share was based on the loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, calculated as follows:

Loss attributable to ordinary shareholders:

		Group	
	2016	2015	5
	RM	RM	1
Loss for the financial year attibutable to owners	(23,375,740)	(41,257,866	5)
Weighted average number of ordinary shares:			
		Group	
	Num	ber of shares	
	2016	2015	5
Issued ordinary shares at beginning / end of the financial year	5,776,587,696	5,776,587,696	5
Basic loss per ordinary share:			
		Group	
	2016	2015	5
Basic loss per ordinary share (in sen)	(0.40)	(0.71]]
Diluted loss per share			

The Group has no dilution in their earnings per ordinary share as the exercise price of the warrants have exceeded the average market price of ordinary shares during the financial year, the options do not have any dilutive effect on the weighted average number of ordinary shares.

Information regarding transactions with the key management personnel is disclosed in Note 28(b).

34. SEGMENT INFORMATION

For management purposes, the Group is organised into business segments based on their services and has three reportable operating segments as follows:

Leisure and tourism	Travel and tours agency, golf and country club operation and management, resort hotel operation and management.
Property development and construction	Property development, construction and project contracts.
Management services	Investment holdings, provision of management services, consultancy and venture capital.

Investment holdings, provision of management services, consultancy and venture capital are being managed by four different operating segments within the Group. These operating segments have been aggregated to form a reportable segment as management services taking into account the following factors:

- these operating segments have similar long-term gross profit margin;
- the nature of the services and production processes are similar;
- the methods used to render the services to the customers are similar.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the consolidated financial statements.

Transactions between segments are carried out on agreed terms between both parties. The effects of such intersegment transactions are eliminated on consolidation. The measurement basis and classification are consistent with those adopted in the previous financial year.

34. SEGMENT INFORMATION (CONT'D)

Segment assets and liabilities information are neither included in the internal management reports nor provided regularly to the management. Hence no disclosures are made on segment assets and liabilities.

35. MATERIAL LITIGATIONS

Group

As reported in the previous financial year, a group of 122 purchasers and owners of units ("Claimants") of a development known as Precinct Dillenia has on 10 December 2012 initiated an arbitration claim against Clear Sky Development Sdn Bhd (the "Respondent"), an indirect wholly-owned subsidiary of the Company, for an alleged outstanding lease rental of RM18,550,801 and overdue interest of RM8,571,605 pursuant to the hotel sub-lease agreements entered into between the respective Claimants and the Respondent. The arbitration hearings were held on 9 March 2015, 10 March 2015 and 25 May 2015 and the parties are still awaiting for a date for further submission. As at 31 March 2016, there are 10 units owners left in the arbitration with a total outstanding lease rental claim and overdue interest of approximately RM4,817,000.

36. FINANCIAL INSTRUMENTS

(a) Classification of financial instruments

Financial assets and financial liabilities are measured on an ongoing basis either at fair value or at amortised cost. The principal accounting policies in Note 3 describe how the classes of the financial instruments are measured and how income and expenses including fair values gain or loss are recognised.

The following table analyses the financial assets and liabilities in the statements of financial position by the class of financial instruments to which they are assigned and therefore by the measurement basis:

(b) Financial risk management objectives and policies

The Group's financial risk management policy is to ensure that adequate financial resources are available for the development of the Group's operations whilst managing its credit, liquidity, foreign currency, interest rate and market price risks. The Group operates within clearly defined guidelines that are approved by the Board and the Group's policy is not to engage in speculative transactions.

The following sections provide details regarding the Group's exposure to the abovementioned financial risks and the objectives, policies and processes for the management of these risks.

(i) Credit risk

Credit risk is the risk of a financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group's exposure to credit risk arises principally from its receivables from the inability of its customers to make payments when due and deposits with bank and financial institutions. The Company's exposure to credit risk arises principally from loans and advances to subsidiary companies and financial guarantees given to banks for credit facilities granted to subsidiary companies.

The Group has adopted a policy of only dealing with creditworthy counterparties. Management has a credit policy in place to control credit risk by dealing with creditworthy counterparties and deposit with banks and financial institutions with good credit rating. The exposure to credit risk is monitored on an ongoing basis and action will be taken for long outstanding debts.

36. FINANCIAL INSTRUMENTS (CONT'D)

- (b) Financial risk management objectives and policies (Cont'd)
 - (i) Credit risk (Cont'd)

Exposure to credit risk

The carrying amounts of the financial assets recorded on the statements of financial position at the end of the financial year represent the Group's and the Company's maximum exposure to credit risk except for financial guarantees provided to banks for banking facilities granted to certain subsidiary companies. The Company provides secured corporate guarantees amounting to RM18,977,109 (2015: RM17,947,449) to banks in respect of banking facilities granted to certain subsidiary companies. There was no indication that any subsidiary company would default on repayment as at the end of the reporting period. As at reporting date, the fair value of the financial guarantees is negligible as the probability of the financial guarantees being called upon is remote.

The Group does not have any significant exposure to any individual customer at the reporting date.

Inter Company Balances

The Company provides advances to subsidiary companies. The maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position as at the end of the financial year.

As at the end of the financial year, there was no indication that the advances to subsidiary companies are not recoverable other than those which had been impaired. The Company does not specifically monitor the ageing of the advances to subsidiary companies. The Company monitors the results of the subsidiary companies regularly.

Financial Guarantees

At the end of the reporting date, there was no indication that the subsidiary company which was granted with the syndicated term loan (Note 20) would default on repayment. Hence, the financial guarantee granted by the Company has not been recognised since the fair value on initial recognition was not material.

(ii) Interest rate risk

The Group is exposed to interest rate risk arising primarily from financing through interest bearing financial assets and financial liabilities. The Group's policy is to obtain the financing with the most favourable interest rates in the market.

The Group manages the interest rate risk of its deposits with licensed banks by placing them at the most competitive interest rates obtainable, which yield better returns than cash at bank and to satisfy conditions for bank guarantee and borrowing facilities granted to the Group.

The Group manages its interest rate risk exposure from interest bearing borrowings by obtaining financing with the most favourable interest rates in the market. The Group constantly monitors its interest rate risk by reviewing its debts portfolio to ensure favourable rates are obtained. The Group does not utilise interest swap contracts or other derivative instruments for trading or speculative purposes.

(b) Financial risk management objectives and policies (Cont'd)

(ii) Interest rate risk (Cont'd)

The interest rate profile of the Group's and the Company's significant interest-bearing financial instruments, based on carrying amounts as at the end of the reporting period were:

	Group

Bank borrowing - secured	18,977,109	17,947,449	
	19,938,604	19,795,330	

Interest rate sensitivity analysis

The Group and the Company do not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the end of the reporting period would not affect profit or loss.

(iii) Liquidity risk

Liquidity risk refers to the risk that the Group or the Company will encounter difficulty in meeting its financial obligations as they fall due. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities.

The Group's and the Company's funding requirements and liquidity risk are managed with the objective of meeting business obligations on a timely basis. The Group finances its liquidity through internally generated cash flows and minimises liquidity risk by keeping committed credit lines available.

As disclosed in Note 2(d), the Directors of the Company are of the opinion that the going concern assumption of the Group is appropriate on the basis that the Group will be able to operate and generate sufficient cash flows in the foreseeable future to enable the Group to meet its obligations as and when they fall due, and accordingly, the realisation of its assets and settlement of its liabilities will occur in the ordinary course of business.

36. FINANCIAL INSTRUMENTS (CONT'D)

- (b) Financial risk management objectives and policies (Cont'd)
 - (iv) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group is exposed to foreign currency risk on transactions that are denominated in currencies other than the respective functional currencies of Group entities. The currency giving rise to this risk is primarily the United States Dollar (USD).

Foreign exchange exposures in transactional currencies other than functional currencies of the operating entities are kept to an acceptable level.

The carrying amounts of the Group's foreign currency denominated financial assets and financial liabilities at the end of the reporting period are as follows:

	Denominated in USD RM
Group 2016 Financial liability Bank borrowing	18,977,109
2015 Financial liability Bank borrowing	17,947,449

Foreign currency sensitivity analysis

Foreign currency risk arises from Group entities which have a RM functional currency. The exposure to currency risk of Group entities which do not have a RM functional currency is not material and hence, sensitivity analysis is not presented.

The following table demonstrates the sensitivity of the Group's loss for the financial year to a reasonably possible change in the USD exchange rates against the respective functional currencies of the Group entities, with all other variables held constant.

	Increase/ (Decrease)	Increase/ (Decrease)
Effects on loss for the financial year:		
- Strengthen by 5% (2015: 5%)	948,855	916,969
- Weaken by 5% (2015: 5%)	(948,855)	(916,969)

36. FINANCIAL INSTRUMENTS (CONT'D)

(c) Fair value of financial instruments

The carrying amounts of short term receivables and payables, cash and cash equivalents and short term borrowings approximate their fair value due to the relatively short term nature of these financial instruments and insignificant impact of discounting.

It was not practicable to estimate the fair value of investment in unquoted equity due to the lack of comparable quoted prices in an active market and the fair value cannot be reliably measured.

The table below analyses financial instruments not carried at fair value for which fair value is disclosed, together with their fair values and carrying amounts show in the statements of financial position.

36. FINANCIAL INSTRUMENTS (CONT'D)

- (c) Fair value of financial instruments (Cont'd)
 - (i) Policy on transfer between levels

The fair value of an asset to be transferred between levels is determined as of the date of the event or change in circumstances that caused the transfer.

There were no transfers between levels during current and previous financial years.

(ii) Level 1 fair value

Level 1 fair value is derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.

(iii) Level 2 fair value

Level 2 fair value is estimated using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Non-derivative financial instruments

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the end of the reporting period.

(iv) Level 3 fair value

Level 3 fair value for the financial assets and liabilities are estimated using unobservable inputs.

37. SUBSEQUENT EVENTS

On 28 April 2016, the Company announced through Bursa Malaysia Securities Berhad ("Bursa Securities") that the Company has on even date received a notice of unconditional voluntary take-over offer from Tan Sri Dr Chen Lip Keong ("TSCLK"), a director and a substantial shareholder of the Company, to acquire:

- (1) all the remaining ordinary shares and outstanding warrants of the Company not already held by TSCLK; and
- (2) any new shares that may be issued prior to the closing date of the offer arising from the exercise of the outstanding warrants at a cash consideration of RM0.05 per offer share and RM0.02 per offer warrant.

On 25 May 2016, the Company had, vide the announcement in relation to TSCLK take-over offer, informed that the percentage of public shareholding spread of the Company as at 25 May 2016 was less than 25% pursuant to the valid acceptances received from the shareholders of the Company. Consequently the Company is deemed not in compliance with the public shareholding spread requirement under paragraph 8.02 (1) of the Main Market Listing Requirements of Bursa Securities.

The take-over offer has closed on the 9 June 2016.

38. CAPITAL MANAGEMENT

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Group monitors capital using a gearing ratio. The Group's policy is to maintain a prudent level of gearing ratio that complies with debt covenants and regulatory requirement. The gearing ratios at end of the reporting period are as follows:

		Group	(Company
	2016	2015	2016	2015

There were no changes in the Group's approach to capital management during the financial year.

The Group is not subject to any externally imposed capital requirements.

39. DATE OF AUTHORISATION FOR ISSUE

The financial statements of the Group and of the Company for the financial year ended 31 March 2016 were authorised for issue in accordance with a resolution of the Board of Directors on 14 July 2016.

40. SUPPLEMENTARY INFORMATION ON THE DISCLOSURE OF REALISED AND UNREALISED PROFITS OR LOSSES

The following analysis of realised and unrealised (accumulated losses)/retained earnings of the Group and of the Company as at the reporting date is presented in accordance with the directive issued by Bursa Malaysia Securities Berhad and prepared in accordance with the Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosures Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants.

NOTICE OF ANNUAL GENERAL MEETING

8. To transact any other ordinary business of which due notice shall have been received.

By Order of the Board YEW NYUK KWEI, MACS 01247 Company Secretary

Kota Kinabalu 29 July 2016

Notes :-

- 1. A member entitled to attend and vote at the Meeting is entitled to appoint a proxy or proxies to attend and vote in his/her stead. A proxy may but need not be a member of the Company and the provisions of Section 149(1)(b) of the Companies Act, 1965 shall not apply.
- 2. Where a member appoints two (2) proxies, the appointment shall be invalid unless he/she specifies the proportion of his/her shareholdings to be represented by each proxy.
- 3. The instrument appointing a proxy must be in writing under the hand of the appointer or his attorney duly authorised in writing or if such appointer is a corporation, either under its common seal, or the hand of an officer or attorney duly authorised.
- 4. The instrument appointing a proxy and the power of attorney or other authority (if any) under which the instrument is signed or a notarily certified copy of that power of authority, shall be deposited at the Company's Registered Office at No. 9020, Nexus Drive West, Karambunai, Menggatal, 88450 Kota Kinabalu, Sabah, Malaysia not less than forty-eight (48) hours before the time for holding the Meeting or any adjourned meeting.
- 5. Please note that in order to attend and vote at the Meeting, a member must be registered in the Record of Depositors at 4.00 p.m. on 18 August 2016 in accordance with Article 51(e) of the Company's Articles of Association. Any changes in the entries on the Record of Depositors after the above mentioned date and time shall be disregarded in determining the rights of any person to attend and vote at the Meeting.
- 6. Shareholders' attention is hereby drawn to the Main Market Listing Requirements of the Bursa Malaysia Securities Berhad, which allows a member of the Company which is an exempt authorized nominee, as defined under the Securities Industry (Central Depositories) Act, 1991, who holds ordinary shares in the Company for multiple beneficial owners in one securities account ("omnibus") to appoint multiple proxies in respect of each omnibus account it holds.
- 7. The 2016 Annual Report is in CD-ROM format. Printed copies of the Annual Report shall be provided to the shareholders upon request. Shareholders who wish to receive a printed copy of the Annual Report and who require assistance with viewing the CD-ROM, kindly contact Mr Goh Chin Khoon at Tel: 03-79681001 & Fax: 03-79588013 or Ms Shirley Wong at Tel: 088–480870 / 411111 & Fax: 088-480899 / 412111 or e-mail to cosec@karambunaicorp.com.

NOTICE OF ANNUAL GENERAL MEETING

EXPLANATORY NOTES:-

- (a) Agenda item no. 1 is meant for discussion only as the provision of Section 169(1) of the Companies Act, 1965 does not require a formal approval of shareholders for the Audited Financial Statements. Hence, this item on the Agenda is not put forward for voting.
- (b) Ordinary Resolution 5 Authority to Allot and Issue Shares pursuant to Section 132D of the Companies Act, 1965

The proposed resolution, if passed, will empower the Directors to issue shares up to 10% of the issued capital of the Company for the time being for such purposes as the Directors consider would be in the interest of the Company. This authority unless revoked or varied by the Company in a general meeting, will expire at the next Annual General Meeting of the Company. No proceeds were raised from the previous mandate. The renewed mandate will provide flexibility to the Company for any possible fund raising activities, including placement of shares, for the purpose of funding further investment project(s), working capital and/or acquisitions.

(c) Ordinary Resolution 6 - Continuing in Office as Independent Non-Executive Director

Datuk Wan Kassim Bin Ahmed was appointed an Independent Director on 20 October 1998 and he has served the Company for more than nine (9) years as at the date of the notice of the Annual General Meeting. Datuk Wan Kassim Bin Ahmed has met the independent guideline as set out in chapter 1 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. The Board, therefore, considers Datuk Wan Kassim Bin Ahmed to be independent and recommends Datuk Wan Kassim Bin Ahmed to remain as Independent Director.

STATEMENT ACCOMPANYING NOTICE OF ANNUAL GENERAL MEETING

- 1. The name of Director standing for re-election:-
 - (a) Mr Lim Mun Kee Ordinary Resolution 2
- 2. Information about the Director standing for re-election is set out under Board of Directors' Profile section of the Annual Report, and the details of his attendance of Board Meetings held during the financial year ended 31 March 2016 are set out under Other Compliances Statement section of the Annual Report.
- 3. Tan Sri Dr Chen Lip Keong retires pursuant to Article 107 of the Company's Articles of Association and he does not wish to seek re-election in view of his other interests and commitments.
