### **CORPORATE** PHILOSOPHY

# Caring for Our Customers

The Public Bank Group's commitment to excellence in customer service is reflected in the Group's pursuit of customer service levels which are benchmarked to internationally recognised ISO-standards and the continuous offering of new and innovative product and services.

Phase Five of Public Bank's Customer Care Campaign with the sub-theme "Your Needs, Our Focus" culminated with the highlight of the campaign which was an award presentation ceremony to lucky customers who participated in the customer survey. Public Bank believes in listening to its customers to keep abreast of their changing expectations and needs. The survey was conducted to solicit direct feedback from customers with 600,000 questionnaires sent to Public Bank's customers over a six month period. Simultaneously, an independent evaluation of staff compliance with Public Bank's service delivery standards was also carried out by mystery customers. The Bank received an overwhelming response to the survey and rewarded the lucky winners from Klang Valley and other regions with attractive cash prizes.

The Public Bank Manchester United MasterCard cardmembers who participated in the "Experience Old Trafford" Contest were rewarded with a dream trip to Manchester, England. The prize included return flight to Manchester, three nights accommodation, RM1,000 spending money and a guided tour.

In enhancing customer service and convenience, Public Bank launched a service to enable individual and corporate tax payers to make their tax payments via the Bank's internet banking channel, PBeBank.com. Public Bank is the first bank to provide this convenient online tax payment for customers.

The strength of the Public Bank brand was endorsed by the Reader's Digest SuperBrands 2005 for the second consecutive year.

## CORPORATE PHILOSOPHY

# Caring for Our Employees

In its belief that Human Capital is one of its greatest assets, the Public Bank Group continuously undertakes activities aimed at promoting the overall well-being of its employees.

Besides the attractive staff remuneration and fringe benefits, the Bank coordinated a total of 23 Health Talks and forums with Hospitals/Health Service Providers in the Klang Valley in 2005 to increase the employees' awareness of the various health issues and health maintenance. In addition, employees of all levels also underwent a full medical check up aimed at ensuring that the employees maintain a healthy lifestyle and facilitating early detection of any serious illness. In August 2005 when the country was badly hit by the haze menace, the Public Bank Group purchased masks for distribution to its employees for their health protection.

A rest and recovery room was set up at the Bank's Head Office for employees to recuperate if they suddenly fall ill during office hours and while waiting for the doctor/medical aid to arrive.

The Bank believes in taking care of its employees not only during their tenure of service with the Bank. In unfortunate circumstances where the employees passed away, the Bank ensures that the Group Term Life/Personal Accident Insurance Policy claims are distributed to the next of kin. In 2005, the Bank distributed a total claim of RM678,000-00 to the families of demised staff.

Staff have also stepped forward to assist their colleagues in time of need through generous cash donations collected through the Public Bank Group Sports Club. In 2005, a total of RM23,500-00 was collected to assist 6 colleagues in need of urgent financial aid. The Bank has been granting long service awards to staff in recognition of their loyal service and contribution. In 2005, the Public Bank Group presented long service gold medallions to 1,501 employees who had served 10 years and more worth a total of RM1.6 million.

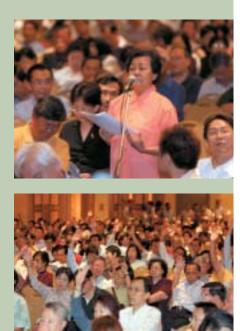

### CORPORATE PHILOSOPHY

The consistently strong financial performance as reflected in the Public Bank Group's unbroken profit track record since it started business and the excellent corporate governance practiced by the Group, together with proactive management of the efficiency of the Group's capital structure are the key factors driving healthy returns to shareholders and enhancement of long term shareholders' value.

# Caring for Our Shareholders

The Annual General meetings ("AGM") of Public Bank provides shareholders with the forum to express their views on the performance of the Public Bank Group. The AGM is an open and transparent platform with an extensive analysis of the Group's performance being presented by the Chairman and Founder, Tan Sri Dato' Sri Dr. Teh Hong Piow which is comprehensively illustrated by visual presentation of key figures data. In 2005, approximately 2,900 shareholders and proxy holders attended the AGM.

Public Bank's excellent corporate governance was accorded recognition with the award of the Malaysian Business Corporate Governance Award by the Malaysian Business magazine for the third consecutive year. The Public Bank Group remains the benchmark for corporate governance. In 2005 Public Bank received a total of 13 awards from local and international publications amongst which were five best bank in Malaysia awards FinanceAsia, Euromoney, The Banker, The Asian Banker and The Asset.

For the first time in its history, Public Bank paid an interim dividend of 20 sen less 28% taxation in 2005. Together with the proposed final dividend of 20 sen and special dividend of 15 sen totalling 35 sen less 28% taxation, the total dividend for 2005 would amount to RM1.30 billion.

# CORPORATE Social Responsibility

# Caring for Our Community...

Corporate Social Responsibility ("CSR") is often viewed as business ethics, environmental sustainability or corporate philanthropy. CSR is essentially about how a business takes account of its economic, environment and social impact arising from how it operates and a company's performance should be measured not only by the economic value it has created but also its impact on society and the environment.

There is an increasing recognition by corporates that CSR can be a key differentiation and a means of achieving real business value in a competitive landscape. Customers and the public in general are not only more aware of the wider responsibilities of corporations but are also demanding greater social accountability of corporates, both directly and through "voting" with their choice of who they buy their goods and services from.

The Public Bank Group have always been committed to operate in an economically, socially and environmentally sustainable manner. For a leading financial institution with its business deeply rooted in the domestic community and whose services reach out to the entire community and whose branch network extends to every part of the country, the Group fully subscribes to the notion of fulfilling its responsibilities to the community it operates in. The Group strongly believes that in fulfilling its corporate social responsibilities, it will enhance its reputation and branding, which are not only of particular importance in a service oriented industry but will result in reduced reputational risk and improve longer term sustainability of the Group's business.

Public Bank, as the 5th largest listed company on Bursa Securities, have a strong following amongst international institutional investors. There is a clear global trend in the development of socially responsible investment, particularly by international institutional investors whose investment criteria have shifted from pure financial returns and performance to a wider perspective. Increasingly, when investment decisions are made, environmental and social responsibility criteria and how corporates fulfil their CSR are accorded a greater weightage or even regarded as a disqualification criteria.

In discharging its corporate social responsibilities, the Public Bank Group have in 2005 focused on the areas of healthcare, education, professional development, contribution to charity and conservation of the environment.

## CORPORATE SOCIAL RESPONSIBILITY

#### HEALTHCARE

Public Bank donated RM200,000 to the Academy of Medicine Malaysia ("AMM") and the Academy of Family Physicians of Malaysia ("AFPM") in their effort to raise funds for the building of a five-storey Academy Building for both the Academies and other specialist societies associated with the AMM and AFPM.

Public Bank distributed 'duit raya' of RM100 each to children from Rumah Anak Yatim Peyakin and the Pure Life Society in conjunction with Deepavali and Hari Raya Aidil Fitri. Goodies worth RM50,000 were also distributed to 200 police traffic personnels in Kuala Lumpur.

Public Bank Group supported the 'Yayasan Kebajikan Negara Malaysia ("YKNM") by placing YKNM donation collection boxes at all 251 Public Bank branches throughout the country to facilitate collection of donations from the Group's customers, employees and visitors to the Group's branches on behalf of YKNM. The beneficiaries of YKNM are members of the public of all races from the low income group requiring financial assistance for medical services.

Tan Sri Dato' Sri Dr. Teh Hong Piow presented the first donation of RM10,000 to YKNM on behalf of Public Bank.

In conjunction with the 2006 Chinese New Year, Public Bank collaborated with the Lembah Pantai Service Centre by distributing ang pows and hampers to 250 senior and needy citizens from the Lembah Pantai constituency worth RM47,000 with each senior citizen receiving an ang pow of RM118 each.

# CORPORATE SOCIAL RESPONSIBILITY

# Caring for Our Environment

#### OUR CONTRIBUTION TOWARDS CONSERVATION OF THE ENVIRONMENT

The Public Bank Group continues to play its part in supporting conservation and environmental protection by participating in activities to promote conservation and care for the environment.

#### CONSERVATION OF THE HAWKSBILL TURTLES

The World Wildlife for Nature ("WWF") Malaysia in collaboration with the Fisheries Department had established the Padang Kemunting Turtle Management Centre in Melaka, the only Hawksbill turtle hatchery and information centre in the country as part of its effort to protect the Hawksbill turtles, a critically endangered species.

Public Bank contributed RM45,000 to WWF Malaysia in support of this environmentally significant project to protect the Hawksbill turtle population and the nesting sites of the Melaka coastline and to promote conservation of these endangered species. Public Bank's contribution had assisted WWF Malaysia in financing their conservation awareness activities which include production of calendar and educational posters featuring turtles, research on the awareness of the local communities and their economic dependence on turtles.

Staff of Public Bank from Head Office, Melaka and Negeri Sembilan branches participated in a one-day programme at the Padang Kemunting Turtle Management Centre where they attended an educational talk and participated in the hatchery clean-up maintenance work and beach cleaning.

# ANNUAL CORPORATE GIFTS PROMOTING FLOWERS OF MALAYSIA

As part of its efforts to promote awareness for the preservation of the environment, the Public Bank Group's annual corporate gifts for 2005 such as corporate calendars, desktop calendars and diaries continued to adopt designs that promote the beauty of nature, featuring beautiful Malaysian flowers. The theme for 2005 is a continuation of the Group's focus on the flora and fauna of Malaysia in the promotion of its corporate image through its annual corporate gifts.

#### PAPER RECYCLING CAMPAIGN

To create awareness of the effects of deforestation and global warming and the havoc caused by changing weather patterns arising from global warming, Public Bank embarked on a paper recycling campaign among the staff of the Group in the Klang Valley. The paper was handed over to Malaysian Newsprint Industries for recycling.

# HUMAN RESOURCE DEVELOPMENT

Creating the Human Capital Edge "Learn from the past. Live in the present. Prepare for the future."

> An organisation is only as good as the people it has. In today's competitive environment, organisations are required to, not only manage the twin pressures of globalisation and rapid changes, but at the same time, maintain a competitive edge. Visionary organisations will make this happen by getting the best out of their people, nurturing their talents to blossom to their full potential in pursuit of the organisations' goals.

# REALISING THE POTENTIAL OF OUR STAFF

Public Bank Group has always displayed a readiness to invest in its staff right from the onset of their career with the Group, equipping them with knowledge, skills and attitudes that will enable them to make their mark in the organisation. Strong induction and orientation programmes are among the training lined up for staff from day one to inculcate in them the right corporate values and a sense of belonging.

In the current intensely competitive environment, the extent of employee engagement is a key differentiator that will impact the business. Engaged staff who are passionate about the Public Bank Group's goals and committed towards its values are the best advocates of the Group and its products and services. The HR Division therefore continually provides the necessary support and infrastructure environment through constant internal communications with staff, fair and reflective reward system and provision of opportunities for growth and development. In so doing, the Group's HR policies help to drive the move towards achievement of business goals for both the immediate and long-term.

### HUMAN RESOURCE DEVELOPMENT

#### THE BASIS OF COMPETITION – THE KNOWLEDGE OF OUR PEOPLE

Recognising that its our people who will make the difference to outperform the competition, the Public Bank Group's staff competencies are constantly being reviewed and assessed for alignment with corporate objectives. The Group invests substantially in the development of the right competencies so that staff are equipped to be "intelligence workers" focused on what matters to customers to respond to their needs. Staff are encouraged to emotionally connect with customers to deliver consistent, familiar experience throughout the Group.

A "learning landscape" was built featuring various solutions and customised learning for staff, through a variety of delivery channels in order to extend the reach of training and ensure rapid and instant dissemination of knowledge across the entire organisation, while realising the benefits of economies of scale. The e-learning platform, being the latest channel introduced, encompasses in particular training in product knowledge, regulatory and statutory framework requirements and revision modules for preparation of certification gualifications.

In 2005, classroom training programmes covering management skills, core banking issues and specialised areas such as credit and selling skills were conducted for 15,550 participants spread over 1,850 training days. Another 12,513 participants underwent e-learning through the Group's e-learning platform covering 2,889 training days.

Public Bank recognises the importance of aligning its HR solutions with business priorities as the financial symbiosis between the Group and its human capital is such that one cannot thrive without the success of the other.

#### ANALYSIS OF THE BALANCE SHEET

#### **Total Assets**

The Public Bank Group's total assets stood at RM111.61 billion as at 31 December 2005, a growth of 21% as compared to the total assets as at 31 December 2004. The increase in total assets in 2005 was mainly driven by the increase in deposit placements by customers and financial institutions as well as funds from the issuance of USD400 million Subordinated Notes, which were channelled to fund the strong growth in loans, advances and financing as well as higher placement of interbank funds, particularly with Bank Negara Malaysia and higher holdings of securities purchased under resale agreements.

#### **Cash and Short-Term Funds**

The Group's cash and short-term funds registered a decline of 7% to RM18.36 billion as at 31 December 2005. The decrease was mainly due to the shift of funds to longer term placements with financial institutions and Bank Negara Malaysia.

#### **Deposits and Placements with Banks and Other Financial Institutions**

The Group's deposits and placements with banks and other financial institutions increased by RM7.25 billion in 2005. The increase was mainly due to higher placements with Bank Negara Malaysia resulting from the excess funds available from strong growth in deposits from customers and the issuance of USD400 million Subordinated Notes.

#### Securities Purchased under Resale Agreements

Securities purchased under resale agreements increased by RM3.37 billion, primarily on account of higher Malaysian Government Securities purchased.

#### Securities Held-for-Trading

The Group's holdings of securities held-for-trading declined by RM3.71 billion mainly due to the disposal of Cagamas Bonds and negotiable instruments of deposit.

#### Securities Available-for-Sale

The Group's holdings of securities available-for-sale increased by RM0.93 billion due to increased investment in highly rated private debt securities, as part of the Group's continued efforts to invest its funds in the capital market to enhance returns.

#### **Securities Held-to-Maturity**

The Group's securities held-to-maturity increased by RM1.40 billion due to increased holdings of money market instruments, particularly Malaysian Government Securities, Cagamas Bonds and negotiable instruments of deposit.

#### Loans, Advances and Financing

The Group's total gross loans, advances and financing grew strongly by 20% to RM68.10 billion in 2005 which was more than twice the annual growth rate for the Malaysian banking industry of 9.5% as at 30 November 2005. Consequently, the Group's overall domestic loans market share increased to 12% from 11% a year earlier.

The Group has consistently recorded a high and above industry level of loan growth, with growth rates close to or in excess of 20% annually since 2001. This was achieved through competitive pricing, innovative product packaging and proactive product enhancement as well as improved loan service delivery standards, including fast approval turnaround time and efficient documentation and disbursement processes.

The Group's lending operations continued to be focused on the retail sector. In 2005, 93% or RM63.25 billion of the Group's gross loans, advances and financing was channelled to finance the retail sector, in particular to cater for the business needs of small- and medium-sized enterprises ("SMEs") and for the purchase of residential properties and passenger vehicles. Lending to SMEs expanded by 13% to RM14.81 billion representing 22% of total gross loans, advances and financing as at end of 2005. Total lending for the purchase of residential properties and transport vehicles grew strongly by 22% to RM34.47 billion and accounted for 51% of gross loans, advances and financing at the end of 2005.

The Group's Islamic financing registered commendable growth of 16% in 2005 as compared to 7% growth in 2004. Total gross Islamic financing stood at RM7.35 billion as at end 2005 and accounted for 11% of the Group's overall loans, advances and financing. The strong growth reflects the Group's continued commitment to Bank Negara Malaysia's efforts to further develop the Islamic banking sector.

Lending to the corporate sector has been relatively flat, mainly due to loan disintermediation by the capital market, which saw continued preference by large corporations to access the private debt securities market as an alternative source of funding.

Gross non-performing loans of the Group fell by RM0.10 billion in 2005 to RM1.41 billion. The gross and net non-performing loans ratio improved to 2.1% and 1.7% from 2.7% and 2.1% respectively as at end of 2004. The net non-performing loans ratio is 72% lower than the banking system's net non-performing loans ratio of 6.0% as at 30 November 2005. The Group's continued improvement in asset quality is the result of a consistently prudent credit culture, policies and practices, which is complemented by strong credit risk management and proactive recovery processes.

The Group maintained a high level of loan loss coverage for its non-performing loans and financing, with its ratio of general allowance at 1.6% and loan loss coverage of 92% in 2005, as compared to the 52% coverage for the banking industry as at 30 November 2005.

#### Total Liabilities and Shareholders' Equity

The Group's total liabilities grew by RM19.36 billion in 2005, mainly from increases in deposits from customers, interbank deposit placements and funds from the issuance of USD400 million Subordinated Notes.

The Group's shareholders' funds remained strong at RM8.48 billion even after the payment of dividends of RM1.65 billion and further share buy-back totalling RM0.18 billion during the year. This was due to the strong net profit after tax registered for 2005 of RM1.45 billion and proceeds of RM0.29 billion from shares issued pursuant to the exercise of employees' share options under the Public Bank Berhad Employees' Share Option Scheme.

#### **Deposits from Customers**

The Group's customer deposits grew by 16% in 2005 to RM84.13 billion. The Group registered healthy growth in low cost current accounts and savings accounts of 10% and 9% respectively, as compared to the annual growth in the banking industry of 8% and 5% respectively as at 30 November 2005. The growth was mainly supported by the Group's extensive branch network and its high standards of customer service delivery. In addition, the Group also expanded its issuance of negotiable instruments of deposit by RM6.01 billion to fund the growth in its loan base as well as to develop the corporate customer deposit base.

Deposits from individuals, a stable source of funds, continued to be the Group's main source of deposits, accounting for 71% of the Group's core customer deposits of demand deposits, savings deposits and fixed deposits.

The Group's overall funding structure continued to improve with the strong growth in lower cost deposits. Current and savings accounts comprised 11% and 15% respectively of the customer deposit base as at the end of 2005. The ratio of fixed deposits to total deposits has declined further to 51% from 54% in 2004.

The Group's gross loans to deposits ratio has increased slightly to 81% as at 31 December 2005 from 79% a year ago.

#### **Deposits and Placements of Banks and Other Financial Institutions**

Deposits and placements of banks and other financial institutions increased by RM4.72 billion or 160% to RM7.68 billion as part of the Group's funding of its gapping operations.

#### **Obligations on Securities Sold under Repurchase Agreements**

Obligations on securities sold under repurchase agreements increased by RM0.78 billion due to the Group's efforts to develop the short term corporate customer deposit base.

#### **Bills and Acceptances Payable**

The Group's Bills and Acceptances Payable increased by RM0.87 billion in 2005, as a result of higher volume of bankers' acceptances rediscounted.

#### **Recourse Obligations on Loans Sold to Cagamas**

Recourse obligations on loans sold to Cagamas decreased by RM0.06 billion due to repayment to Cagamas.

#### **Subordinated Notes**

The Group issued an additional USD400 million Subordinated Notes in 2005, with the objective of providing the Group with the capacity to expand its business and balance sheet without burdening shareholders for more equity capital, thus improving the return on equity.

#### **Commitments and Contingencies**

Commitments and contingencies increased by RM9.17 billion to RM28.95 billion mainly on account of higher foreign exchange related contract and interest rate related contracts as well as the increase in irrevocable commitments to extend credit. However, in terms of credit equivalent of the commitment and contingencies, there was only an increase of RM0.53 billion.

#### ANALYSIS OF THE INCOME STATEMENT

#### Net Interest Income

Net interest income of the Public Bank Group grew by 7% to RM2,484 million in 2005 as compared to the 11% growth registered in 2004. The lower growth in net interest income, despite the continued strong double-digit growth in interest bearing assets, was due to further reduction in net interest margin mainly as a result of competitive pressures. The Group's average net interest margin on interest bearing assets, excluding funds from issuance of NIDs, fell by 50 basis points to 3.6% in 2005 from 4.1% in 2004. The pressure on net interest margin was more pronounced for the new passenger vehicle hire purchase financing segment which continue to record a higher margin contraction in 2005.

The Public Bank Group's continued proactive asset-liability management in 2005 resulted in higher net interest margin earned on its fund-based portfolio.

Net interest income was the main contributor of total income, accounting for 65% (2004: 67%) of the total income of the Group.

#### Net income from Islamic Banking Business

Net income from the Group's Islamic Banking operation increased by 7% or RM26 million to RM407 million. This was largely contributed by higher net financing income of RM16 million arising from growth in Islamic financing. Islamic Banking income accounted for 11% of the Group's total income.

#### **Other Operating Income**

Other operating income of the Group improved by 24% to RM918 million in 2005 as compared to RM742 million in 2004. The growth was mainly attributed to higher income from the Group's fund management activities as well as higher fees and transaction income from retail banking operations. Fees from unit trust funds under management grew by 17% to RM136 million on the back of strong growth in net asset value of unit trust funds under management of 22%, while the gain on sale of trust units rose by 52% to RM133 million due to the strong interest in the Group's 7 new unit trust funds launched during the year as well as existing funds. Transactional fees, commission income and service charges grew by 6% or RM22 million, whilst foreign exchange profits rose by 11% or RM8 million in 2005. These increases were offset by lower net gain from sale of securities held-for-trading in 2005 of RM29 million.

The Group's other operating income for 2005 accounted for 24% (2004: 22%) of total income.

#### **Other Operating Expenses**

The Group's other operating expenses rose by 7% to RM1,399 million in 2005. Personnel cost amounted to RM704 million and accounted for 50% of other operating expenses. The staff strength of the Group remained stable at 12,800 at the end of 2005 as compared to 12,659 a year ago. Salaries, allowances and bonuses increased by 5%, while pension costs fell by 17% due to the recognition of actuarial gains of RM20 million in respect of the Group's retirement benefit plan. Administration and general expenses and establishment cost, which together contributed to 31% of other operating expenses, increased by 3% and 4% respectively in 2005. Marketing expenses increased by RM63 million or 31% to RM267 million in 2005 primarily due to higher sales commission paid for increased gross sales of trust units as well as the launch of the 7 new unit trust funds by the Group's fund management business.

As the 7% increase in other operating expenses was lower than the growth in net income of 11%, the cost income ratio of the Group improved further to 36.7% for 2005 from 37.9% in 2004. This reflected the Group's higher efficiency and productivity.

#### Allowance for Losses on Loans, Advances and Financing

The allowance for losses on loans, advances and financing of the Group amounted to RM382 million in 2005, an increase of RM111 million compared to the previous year. This was mainly attributed to higher general allowance by RM92 million due to the higher loans growth achieved in 2005. Specific allowance written back decreased by RM32 million and this was partially mitigated by higher bad debt financing recovered of RM19 million.

#### Impairment Written back/(Losses)

Impairment written back in 2005 was RM15 million as compared to an impairment loss of RM17 million in 2004. Impairment written back during the year arose mainly from securities held-to-maturity and investment properties.

#### Tax Expense and Zakat

The Group's effective tax rate of 25% in 2005 was lower than the statutory tax rate of 28% due to the effects of lower tax rates in other jurisdictions.

### STATEMENT OF RESPONSIBILITY BY DIRECTORS

in respect of the preparation of the annual audited financial statements

The Directors are responsible for ensuring that the annual audited financial statements of the Group and the Bank are drawn up in accordance with the requirements of the applicable approved accounting standards in Malaysia, the provisions of the Companies Act, 1965, Bank Negara Malaysia's Guidelines and the Listing Requirements of Bursa Malaysia Securities Berhad.

for the financial year ended 31 December 2005

#### **DIVIDENDS** (continued)

The Directors recommend the payment of a final dividend of 20% and a special dividend of 15%, less 28% tax respectively, amounting to approximately RM829.9 million (representing a total of 25.2 sen net per share) in respect of the current financial year. This is computed based on the issued and paid-up capital as at 31 December 2005, excluding treasury shares held by the Bank, of 3,293,188,589 ordinary shares of RM1.00 each, to be paid to shareholders whose names appear in the Record of Depositors on a date to be determined by the Directors.

#### **ISSUE OF SHARES**

During the financial year, the issued and paid-up share capital of the Bank was increased from 3,355,767,324 ordinary shares of RM1.00 each in the Bank ("PBB Shares") to 3,417,373,089 PBB Shares by the issuance of 61,605,765 PBB Shares, pursuant to the exercise of options granted under the Public Bank Berhad Employees' Share Option Scheme at the following option prices:

Number of PBB Shares issued:	Option price per share
64,489	RM1.64
1,123,850	RM3.40
10,627,351	RM3.56
10,331,375	RM4.60
35,817,000	RM4.92
3,641,700	RM6.37

All the new ordinary shares that were issued rank pari passu in all respects with the existing ordinary shares of the Bank.

#### SHARE BUY-BACK

On 30 March 2005, the shareholders of the Bank renewed their approval for the Bank to buy-back its own shares. During the financial year, the Bank bought back from the open market, 24,007,100 PBB Shares listed and quoted as "Local" on the Main Board of Bursa Malaysia Securities Berhad ("Bursa Malaysia") at an average buy-back price of RM7.61 per share. The total consideration paid for the share buy-back of PBB Shares by the Bank during the financial year, including transaction costs, was RM183,158,887 and was financed by internally generated funds. The PBB Shares bought back are held as treasury shares in accordance with Section 67A Subsection 3(A)(b) of the Companies Act, 1965. None of the treasury shares held were resold or cancelled during the financial year.

As at 31 December 2005, the Bank held 124,184,500 PBB Shares as treasury shares out of its total issued and paid-up share capital of 3,417,373,089 PBB Shares. Such treasury shares are held at a carrying amount of RM784,599,937. Further information is disclosed in Note 27 to the financial statements.

#### PUBLIC BANK BERHAD GROUP EMPLOYEES' SHARE OPTION SCHEME

Details of the Public Bank Berhad Group Employees' Share Option Scheme ("PBB ESOS") are as disclosed in Note 23(b) to the financial statements. The expiry date of the PBB ESOS is on 25 February 2008.

for the financial year ended 31 December 2005

#### PUBLIC BANK BERHAD GROUP EMPLOYEES' SHARE OPTION SCHEME (continued)

In respect of the offers of PBB ESOS on 10 January 2005 and 5 December 2005 at an exercise price of RM6.37 and RM5.67 respectively per PBB Share, the Bank has been granted exemption by the Companies Commission of Malaysia from having to disclose the names of option holders who have been granted options in aggregate of less than 200,000 options. The names of option holders and the number of options granted which in aggregate are 200,000 options or more are as follows:

Name of Option Holders	Number of PBB Share Options Granted
Dato' Chang Kat Kiam	253,000
Leong Kwok Nyem	253,000
Wong Jee Seng	253,000
Cheng Siew Ngoh, Jenny	215,000
Chia Lee Kee	215,000
Soong Hoe Seng	215,000

Details of options granted to Directors are disclosed in the section on Directors' Interests in this report.

Other than as disclosed, no other options were granted to any person to take up unissued shares of the Bank during the year.

#### **RESERVES, PROVISIONS AND ALLOWANCES**

There were no material transfers to or from reserves or provisions or allowances during the year other than those disclosed in the financial statements.

#### BAD AND DOUBTFUL DEBTS AND FINANCING

Before the income statements and balance sheets of the Group and the Bank were made out, the Directors took reasonable steps to ascertain that actions had been taken in relation to the writing off of bad debts and financing and the making of allowance for doubtful debts and financing, and satisfied themselves that all known bad debts and financing had been written off and adequate allowance had been made for doubtful debts and financing.

At the date of this report, the Directors are not aware of any circumstances which would render the amount written off for bad debts and financing, or the amount of the allowance for doubtful debts and financing in the financial statements of the Group and the Bank, inadequate to any substantial extent.

#### **CURRENT ASSETS**

Before the income statements and balance sheets of the Group and the Bank were made out, the Directors took reasonable steps to ensure that current assets, other than debts and financing, which were unlikely to be realised in the ordinary course of business at their values as shown in the accounting records of the Group and the Bank have been written down to an amount which they might be expected to realise.

for the financial year ended 31 December 2005

#### **CURRENT ASSETS (continued)**

At the date of this report, the Directors are not aware of any circumstances which would render the values attributed to the current assets in the financial statements of the Group and the Bank misleading.

#### **VALUATION METHODS**

At the date of this report, the Directors are not aware of any circumstances which have arisen which render adherence to the existing methods of valuation of assets and liabilities in the financial statements of the Group and the Bank misleading or inappropriate.

#### **CONTINGENT AND OTHER LIABILITIES**

At the date of this report, there does not exist:

- (a) any charge on the assets of the Group or the Bank which has arisen since the end of the financial year which secures the liabilities of any other person; or
- (b) any contingent liability in respect of the Group or the Bank that has arisen since the end of the financial year other than those incurred in the ordinary course of business.

No contingent or other liability of the Group and the Bank has become enforceable, or is likely to become enforceable, within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group or the Bank to meet their obligations as and when they fall due.

#### CHANGE OF CIRCUMSTANCES

At the date of this report, the Directors are not aware of any circumstances, not otherwise dealt with in this report or the financial statements of the Group and the Bank, which would render any amount stated in the financial statements misleading.

#### **ITEMS OF UNUSUAL NATURE**

The results of the operations of the Group and the Bank during the financial year were not, in the opinion of the Directors, substantially affected by any item, transaction or event of a material and unusual nature.

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors, to affect substantially the results of the operations of the Group and the Bank for the current financial year in which this report is made.

#### SIGNIFICANT EVENTS DURING THE YEAR

The significant events during the financial year are as disclosed in Note 52 to the financial statements.

#### SUBSEQUENT EVENTS

There were no material events subsequent to the balance sheet date that requires disclosure or adjustments to the financial statements.

for the financial year ended 31 December 2005

### **BUSINESS REVIEW 2005**

Supported by the healthy economic growth and employment condition in 2005, Public Bank continued to expand its business and preserve its strong asset quality. However, the competition in the banking business further intensified as the industry players pursued competitive pricing and marketing strategies to gain market share. With the relaxation of the foreign exchange administration rule in April 2005, the operating environment for domestic and foreign-controlled banks was further liberalised.

Amidst the competitive environment, Public Bank continued to grow its consumer financing and retail commercial lending businesses, complemented by corporate banking business and treasury operations. In consumer financing, the Bank continued to promote home mortgages, car hire-purchase financing, personal financing, credit card business and share margin financing. The Bank also continued to grow its lending business to middle market small- and medium-sized enterprises (SMEs) for working capital, business expansion and purchase of shophouses and business premises. To expand its market share, the Bank provided a wide range of financing packages at competitive interest rates and terms and leveraged on its wide branch network, efficient on-line channels, superior delivery standards, strong sales and marketing force and strong brand name to efficiently deliver its products and services.

To mitigate pressure on net interest margins, the Bank further intensified its efforts to expand fee-based activities such as cash management services, credit card business, trade bills business, share trading activities, treasury and corporate banking services, sales of units trusts and sales of bancassurance and general insurance products. The Bank also continued to allocate its resources to high yielding assets and promote foreign currency accounts to its customers after the liberalisation of the foreign exchange administration rule in April 2005. On liability management, Public Bank continued to mobilise core customer deposits and interbank deposits to manage its funding costs.

In line with its long-term business strategy, the Bank continued to simultaneously drive higher cost efficiency and higher staff productivity through efficient cost management, staff training, close monitoring of key performance indicators and stable headcount. To enhance customer convenience, Public Bank expanded its self-service channels by installing more cheque deposit machines and cash deposit terminals and enhanced its Internet banking and ATM services.

### ECONOMIC OUTLOOK AND PROSPECTS FOR 2006

The Malaysian economy is projected to remain healthy in 2006. Based on current projections, the economy is expected to grow by 5.5% in the year, while inflation will remain modest. The economy will continue to be supported by steady improvement in domestic and external demand. Domestic demand is expected to further strengthen on the back of higher disposable income and stable employment. In addition, private investment is expected to further strengthen, underpinned by sustained domestic and foreign direct investment. External demand is projected to further improve as the recovery in the global semiconductor industry is expected to strengthen further in 2006.

Malaysia's economic fundamentals are projected to remain healthy. In particular, Malaysia's external position is expected to remain strong based on the projected large surplus in the current account of the balance of payments, while the national savings will remain high. With the strengthened growth by the private sector, the Government is expected to remain on course to consolidate its financial position. Bank Negara Malaysia is also expected to maintain its accommodative monetary policy in 2006 to support economic growth as inflation is likely to remain modest. With strong capitalisation and high asset quality, the banking sector has the capacity to continuously support economic activity.

### **BUSINESS OUTLOOK FOR 2006**

The banking business is expected to further expand in 2006 as the Malaysian economy and employment conditions are projected to remain healthy. Under these conditions, asset quality of the banking system is also expected to remain strong. The banking business, however, will continue to remain competitive due to excess liquidity, liberal operating environment and the emergence of new Islamic banks in the country. Banks will continue to introduce new products and services.

In lending business, growth in consumer lending is expected to remain strong as household gearing is still modest, despite the high growth in consumption credit in recent years. Similarly, growth in lending to SMEs is expected to remain healthy due to the expected recovery in private investment and high capacity utilisation. At the same time, SME activities will continue to be supported by the Government's fiscal spending and efforts to further promote SMEs as an engine of growth. Growth in corporate lending is expected to remain relatively low as large corporates are likely to continue to tap the capital market.

Public Bank will continue to increase its market share in consumer financing and retail commercial lending to SMEs by providing comprehensive packages of financial solutions at competitive interest rates and terms to its customers. Also, it will further enhance features of existing products and introduce new delivery channels such as mobile banking to efficiently deliver its products and services. The Bank will continue to leverage on its wide branch network, strong sales and marketing force, efficient on-line channels, strong customer franchise and superior delivery standards to expand its market share. The Bank will also establish its Islamic Banking subsidiary to further grow its Islamic banking business.

To manage its funding costs, the Bank will continue to further mobilise cheaper cost deposits from retail and wholesale depositors and further improve its deposit mix. It will continue to promote fee-based activities and allocate resources to further generate non-interest income.

While Public Bank continues to pursue volume growth, it will remain prudent by adhering to its risk management policy, sound credit policies and procedures and effective recovery processes to maintain a strong asset quality. The Bank will continue to develop a fully integrated risk management framework in line with BNM's requirement to meet the January 2008 deadline for the implementation of the standardised approach of the Basel II capital accord.

## REPORT OF THE AUDITORS TO THE MEMBERS

- 31 December 2005

We have audited the financial statements set out on pages 203 to 325. The preparation of the financial statements is the responsibility of the Bank's Directors. Our responsibility is to express an opinion on the financial statements based on our audit.

It is our responsibility to form an independent opinion, based on our audit, on the financial statements and to report our opinion to you, as a body, in accordance with Section 174 of the Companies Act, 1965 and for no other purpose. We do not assume responsibility to any other person for the content of this report.

We conducted our audit in accordance with approved Standards on Auditing in Malaysia. These standards require that we plan and perform the audit to obtain all the information and explanations which we consider necessary to provide us with evidence to give reasonable assurance that the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial statements. An audit also includes an assessment of the accounting principles used and significant estimates made by the Directors as well as evaluating the overall adequacy of the presentation of information in the financial statements. We believe our audit provides a reasonable basis for our opinion.

In our opinion:

- (a) the financial statements are properly drawn up in accordance with the provisions of the Companies Act, 1965 and applicable approved accounting standards in Malaysia as modified by Bank Negara Malaysia's Guidelines so as to give a true and fair view of:
  - (i) the state of affairs of the Group and of the Bank as at 31 December 2005 and the results of their operations and cash flows for the year ended on that date; and
  - (ii) the matters required by Section 169 of the Companies Act, 1965 to be dealt with in the financial statements of the Group and of the Bank;

and

(b) the accounting and other records and the registers required by the Companies Act, 1965 to be kept by the Bank and the subsidiary companies of which we have acted as auditors have been properly kept in accordance with the provisions of the said Act.

The subsidiary companies in respect of which we have not acted as auditors are identified in Note 12 to the financial statements and we have considered their financial statements and the auditors' reports thereon.

We are satisfied that the financial statements of the subsidiary companies that have been consolidated with the Bank's financial statements are in form and content appropriate and proper for the purposes of the preparation of the consolidated financial statements and we have received satisfactory information and explanations required by us for those purposes.

None of the audit reports on the financial statements of the subsidiary companies were subject to any qualification nor included any comment under sub-section (3) of Section 174 of the Act.

### 1. PRINCIPAL ACTIVITIES AND GENERAL INFORMATION

The Group is principally engaged in all aspects of banking, merchant banking, financing, stock broking, provision of finance to purchasers of licensed public vehicles, provision of related financial services, management of unit trusts and sale of trust units and investment holding.

The Bank is principally engaged in all aspects of banking and finance company businesses which include Islamic banking and the provision of related financial services.

There have been no significant changes to these principal activities during the financial year.

The Bank is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Main Board of Bursa Malaysia Securities Berhad. The registered office of the Bank is located at 27th Floor, Menara Public Bank, 146, Jalan Ampang, 50450 Kuala Lumpur.

The financial statements were approved and authorised for issue by the Board of Directors on 23 January 2006.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted by the Group and the Bank are consistent with those adopted in the previous years except for the adoption of the revised guidelines on Financial Reporting for Licensed Institutions (BNM/GP8) issued by Bank Negara Malaysia on 5 October 2004, which became effective for the current financial year. The adoption of the revised BNM GP8 has resulted in the adoption of the following accounting policies:

- the recognition and measurement of the holdings of the investment and dealing securities portfolio of the Group and the Bank as securities held-for-trading, securities held-to-maturity and securities available-for-sale, which has been adopted retrospectively;
- (ii) the recognition and measurement of derivative financial instruments and the adoption of hedge accounting, which has been adopted retrospectively; and
- (iii) where a loan, advance or financing account becomes non-performing, interest accrued and recognised as income prior to the date the loan is classified as non-performing is reversed out of income and set-off against the accrued interest receivable account in the balance sheet. Thereafter, interest on the non-performing loan shall be recognised as income on a cash basis instead of being accrued and suspended at the same time as practised previously. The policy has been adopted retrospectively.

The effects of adopting the above policies retrospectively on the Group's and the Bank's retained profits are reflected as prior year adjustments in the Statements of Changes In Equity and are disclosed in Note 47 to the financial statements.

Bank Negara Malaysia has granted indulgence to the Bank from complying with the requirement on the impairment of loans and financing under the revised BNM/GP8 until 1 January 2006. Therefore, the allowance for bad and doubtful debts and financing of the Group and the Bank have been computed based on the requirement of BNM/GP3 which remains consistent with the basis adopted in the previous years.

- 31 December 2005

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### (a) Basis of Accounting

The financial statements of the Group and the Bank have been prepared on the historical cost basis except as disclosed in the notes to the financial statements and are in accordance with the applicable approved accounting standards in Malaysia as modified by Bank Negara Malaysia Guidelines and comply with the provisions of the Companies Act, 1965.

The financial statements incorporate all activities relating to the Islamic Banking business which have been undertaken by the Bank. Islamic Banking business refers generally to the acceptance of deposits and granting of financing under the principles of Shariah.

### (b) Basis of Consolidation

The consolidated financial statements include the financial statements of the Bank and its subsidiary companies made up to the end of the financial year.

Subsidiary companies are those enterprises controlled by the Group. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiary companies are included in the consolidated financial statements from the date that control effectively commences until the date that control effectively ceases. Subsidiary companies are consolidated using the acquisition method of accounting.

Under the acquisition method of accounting, the results of subsidiary companies acquired or disposed of during the year are included from the date of acquisition or up to the date of disposal. At the date of acquisition, the fair values of the subsidiary companies' net assets are determined and these values are reflected in the Group financial statements. The difference between the acquisition cost and the fair values of the subsidiary companies' net assets is reflected as goodwill or negative goodwill as appropriate.

Intragroup transactions, balances and the resulting unrealised profits are eliminated on consolidation. Unrealised losses resulting from intragroup transactions are also eliminated unless cost cannot be recovered.

### (c) Investment in Subsidiary Companies

Investment in subsidiary companies which are eliminated on consolidation, are stated in the Bank's financial statements at cost and write down is made in the event of impairment, if any.

#### (d) Investment in Associated Companies

The Group treats associated companies as those companies in which a long term equity interest of between 20 to 50 percent is held and where it exercises significant influence but not control through management participation.

In the consolidated balance sheet, the Group's interests in associated companies are stated at the net asset value of associated companies at the date of acquisition and the Group's share of post acquisition results and reserves less an allowance for diminution in value where such diminution in value is other than temporary. The difference, if any, between the cost of investment and the underlying net asset value on acquisition which represents goodwill or negative goodwill is accounted for in accordance with the policy as referred to in Note 2(e).

- 31 December 2005

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### (e) Goodwill/Intangible Asset

Goodwill represents the difference between the purchase price and the fair values of the net identifiable assets of subsidiary companies at the dates of acquisition. Purchased goodwill represents the difference between the purchase price and the fair values of the net assets acquired at the date of acquisition.

Goodwill and purchased goodwill are amortised over an estimated useful life of not more than twenty years and are stated at cost less accumulated amortisation and accumulated impairment losses, if any.

Negative goodwill represents the excess of the fair values of the net identifiable assets acquired over the cost of acquisition. Negative goodwill, not exceeding the fair values of the non-monetary assets acquired, is recognised in the income statement over the weighted average useful life of those assets that are depreciable/amortisable. Negative goodwill in excess of the fair values of the non-monetary assets acquired is recognised in the income statement.

The remaining intangible asset represents cost of the dealer licence of a local stock broking company acquired by the stock broking subsidiary pursuant to the stock broking industry consolidation and is amortised on a straight line basis over its estimated useful life of not more than twenty years and is stated at cost less accumulated amortisation and accumulated impairment losses, if any.

### (f) Derivative Financial Instruments and Hedge Accounting

Derivative financial instruments are measured at fair value and are carried as assets when the fair value is positive and as liabilities when the fair value is negative. Any gain or loss arising from a change in the fair value of the derivatives is recognised in the income statement unless they are part of a hedging relationship which qualifies for hedge accounting where the gain or loss is recognised as follows:

#### Fair value hedge

Where a derivative financial instrument hedges the changes in fair value of a recognised asset or liability, any gain or loss on the hedging instrument is recognised in the income statement. The hedged item is also stated at fair value in respect of the risk being hedged, with any gain or loss being recognised in the income statement.

#### Cash flow hedge

Gains and losses on the hedging instrument, to the extent that the hedge is effective, are deferred in a separate component of equity. The ineffective part of any gain or loss is recognised in the income statement. The deferred gains and losses are then released to the income statement in the periods when the hedged item affects the income statement.

#### (g) Securities

The holdings of the securities portfolio of the Group and the Bank are recognised based on the following categories and consequently their valuation methods:

### (i) <u>Securities held-for-trading</u>

Securities are classified as held-for-trading if these financial assets are acquired principally for the purpose of benefiting from actual or expected short-term price movement or to lock in arbitrage profits. Securities held-for-trading are stated at fair value and any gain or loss arising from a change in their fair values and the derecognition of securities held-for-trading are recognised in the income statement.

- 31 December 2005

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### (g) Securities (continued)

### (ii) Securities held-to-maturity

Securities held-to-maturity are financial assets with fixed or determinable payments and fixed maturity that the Group and Bank have the positive intent and ability to hold to maturity. Unquoted shares in organisations set up for socio-economic purposes and equity instruments received as a result of loan restructuring or loan conversion which do not have a quoted market price in an active market and whose fair value cannot be reliably measured are also classified as securities held-to-maturity.

The securities held-to-maturity are measured at accreted/amortised cost based on the effective yield method. Amortisation of premium, accretion of discount and impairment as well as gain or loss arising from derecognition of securities held-to-maturity are recognised in the income statement.

### (iii) <u>Securities available-for-sale</u>

Securities available-for-sale are financial assets that are not classified as held-for-trading or held-to-maturity. The securities available-for-sale are measured at fair value or at cost (less impairment losses) if the fair value cannot be reliably measured. Any gain or loss arising from a change in fair value are recognised directly in equity through the statement of changes in equity, until the financial asset is sold, collected, disposed of or impaired, at which time the cumulative gain or loss previously recognised in equity will be transferred to the income statement.

### (h) Investment Properties

Investment properties are interests in land and buildings which are intended to be held on a long term basis for their investment potential, with rental income being negotiated at arm's length. Such properties are not depreciated and are stated annually or such longer period as may be considered appropriate at their open market values on the basis of professional valuations performed at the end of each financial year. Changes in the values of investment properties are dealt with as movements in the capital reserve account. If the total outstanding of this capital reserve is insufficient to cover a deficit, on a portfolio basis, the excess of the deficit is charged to income statement immediately. Any subsequent revaluation surplus is credited to the income statement to the extent of the deficit previously charged.

On disposal of an investment property, the relevant portion of the capital reserves realised in respect of previous valuations is released to the income statement.

#### (i) Property and Equipment and Depreciation

Property and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. The policy for the recognition and measurement of impairment losses is in accordance with Note 2(j).

Freehold land and work-in-progress are not depreciated. Depreciation of other property and equipment is provided on a straight line basis calculated to write off the cost of each asset over the term of its estimated useful lives at the following principal annual rates:

Leasehold land	Over the remaining leasehold period or 50 years, whichever is lower
Buildings	2.0%
Renovations	Over the term of the leases ranging from 2 to 50 years
Office equipment, furniture and fittings	10.0% – 33.3%
Computer equipment and software	20.0% - 33.3%
Motor vehicles	20.0%

- 31 December 2005

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (j) Impairment of Assets

The carrying amount of the Group's assets, other than financial assets (other than investment in subsidiary and associated companies, securities available-for-sale and securities held-to-maturity) and deferred tax assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset or the cash-generating unit to which it belongs exceeds its recoverable amount. Impairment losses are recognised in the income statement.

The recoverable amount is the greater of the asset's net selling price and its value in use. In assessing value in use, estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss in respect of goodwill is not reversed unless the loss was caused by a specific external event of an exceptional nature that is not expected to recur and subsequent external events have occurred that reverse the effect of that event.

In respect of other assets, an impairment loss is reversed if there has been a change in estimates used to determine the recoverable amount.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised. The reversal is recognised in the income statement.

#### (k) Foreclosed Properties

Foreclosed properties are those acquired in full or partial satisfaction of debts and are stated at the lower of cost and net realisable value.

#### (I) Bills and Acceptances Payable

Bills and acceptances payable represent the Group's own bills and acceptances rediscounted and outstanding in the market.

#### (m) Repurchase Agreements

Securities purchased under resale agreements are securities which the Group and the Bank commit to resell at future dates and are reflected as an asset on the balance sheet.

Obligations on securities sold under repurchase agreements are obligations which the Group and the Bank commit to repurchase at future dates and are reflected as a liability on the balance sheet.

### (n) Provisions

A provision is recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of a past event and a reliable estimate can be made of the amount.

#### (o) Liabilities

Deposits from customers are stated at placement values and adjusted for accrued interest. Deposits and placements of banks and financial institutions are stated at placement values. Other liabilities are stated at cost.

- 31 December 2005

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### (p) Profit Equalisation Reserves ("PER")

PER is the amount appropriated out of the total Islamic Banking gross income in order to maintain a certain level of return to depositors which is as stipulated by Bank Negara Malaysia's Circular on "Framework of Rate of Return". PER is deducted from the total Islamic Banking gross income in deriving the net distributable gross income. The amount appropriated is shared by the depositors and the Group/Bank.

### (q) Interest-Bearing Borrowings

Interest bearing borrowings are recognised initially at cost, less discount and attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest basis.

### (r) Treasury Shares

When the Bank buys back its own shares, the amount of the consideration paid, including directly attributable costs, is recognised as a change in equity. Shares bought back are held as treasury shares and presented as a deduction from the shareholders' equity.

### (s) Operating Revenue

Operating revenue of the Group comprises all types of revenue derived from banking, merchant banking, financing, stock broking, leasing and factoring, management of unit trust and sales of trust units as well as trustee services but excluding all related companies transactions.

Operating revenue of the Bank comprises gross interest income, commission and other income derived from banking and finance operations.

#### (t) Recognition of Interest and Financing Income

Interest income is recognised in the income statement for all interest bearing assets on an accrual basis. Interest income includes the amortisation of premium or accretion of discount. Interest income on securities are recognised on an effective yield basis.

Interest income on overdrafts, term loans and housing loans is accounted for on an accrual basis by reference to rest periods as stipulated in the loan agreements, which are either monthly or daily. Interest income on hire purchase, block discounting and leasing business is recognised using the "sum-of-digits" method. Income from the Islamic Banking financing is recognised on an accrual basis in accordance with the principles of Shariah.

When an account becomes non-performing, interest accrued and recognised as income prior to the date the loan is classified as non-performing is reversed out of income and set-off against the accrued interest receivable account in the balance sheet. Thereafter, interest on the non-performing loan shall be recognised as income on a cash basis. Customers' accounts are deemed to be non-performing where repayments are in arrears for more than three (3) months from first day of default or after maturity date.

The policy on interest recognition on non-performing loans is in conformity with the revised BNM/GP8.

- 31 December 2005

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### (u) Recognition of Fees and Other Income

Income from the various business activities of the Group and the Bank is recognised using the following bases:

- (i) Loan arrangement, management and participation fees are recognised upfront as income based on contractual arrangements. Guarantee fee is recognised as income upon issuance of the guarantees;
- (ii) Dividend income is recognised when the right to receive payment is established;
- (iii) Factoring commission income is recognised upon acceptance of the factored invoices. Factoring interest is recognised on an accrual basis;
- (iv) Revenue from sale of trust units is recognised upon allotment of units, net of cost of units sold;
- Management fees from the management of unit trusts, net brokerage income, margin interest and rollover fees are recognised on an accrual basis;
- (vi) Other fees and commissions on services and facilities extended to customers are recognised on inception of such transactions;
- (vii) Fees from advisory and corporate finance activities are recognised as income on completion of each stage of the assignment; and
- (viii) Rental income is recognised on an accrual basis when it falls due.

### (v) Recognition of Interest, Financing and Related Expenses

Interest expense and attributable profit (on activities relating to Islamic Banking business) on deposits and borrowings of the Group and the Bank are recognised on an accrual basis.

Handling fees paid to motor vehicle dealers for hire purchase loans are expensed off to income statement in the period in which the handling fees are incurred in accordance with Bank Negara Malaysia Circular dated 4 July 2003.

### (w) Allowance for Bad and Doubtful Debts and Financing

Loans, advances and financing are stated at cost less any allowance for bad and doubtful debts and financing.

Allowance for bad and doubtful debts and financing are made with regard to specific risks and relate to those loans or trade receivables that have been individually reviewed and specifically identified as sub-standard, doubtful or bad.

A general allowance based on a percentage of total outstanding loans (including accrued interest), net of specific allowance for bad and doubtful debts, is maintained by the Group and the Bank against risks which are not specifically identified.

An uncollectible loan or portion of a loan classified as bad is written off after taking into consideration the realisable value of collateral, if any, when in the opinion of management, there is no prospect of recovery.

- 31 December 2005

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### (w) Allowance for Bad and Doubtful Debts and Financing (continued)

Values assigned to collateral held for non-performing loans secured by properties is determined based on the realisable values of the properties, being the force sale value provided by independent parties/valuers, on the following basis:

- (i) assigning only fifty percent (50%) of the realisable value of the properties held as collateral for non-performing loans which are in arrears for more than five (5) years but less than seven (7) years; and
- (ii) for non-performing loans which are in arrears for more than seven (7) years, no value will be assigned to the realisable value of the properties held as collateral.

The portion of non-performing loans where no realisable value has been assigned will be written-off.

### (x) Employee Benefits

(i) Short-Term Benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees of the Group. Short-term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increases their entitlement to future compensated absences, and short-term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

### (ii) Defined Contribution Plan

As required by law, companies in Malaysia make contributions to the state pension scheme, the Employees Provident Fund ("EPF"). Overseas subsidiary companies make contributions to their respective countries' statutory pension schemes. Such contributions are recognised as an expense in the income statement as incurred.

### (iii) Defined Benefit Plan

The Bank and certain subsidiary companies contribute to a fully funded defined benefit plan approved by the Inland Revenue Board known as the Public Bank Group Officers' Retirement Benefits Fund (the "Fund") for its eligible employees. The obligations under the Fund are determined based on actuarial valuation where the amount of benefit that employees have earned in return for their service in the current and prior years are estimated. The benefit is calculated using the Projected Unit Credit Method in order to determine its present value. Actuarial gains and losses are recognised as income or expense over four years when the cumulative unrecognised actuarial gains or losses for the Fund exceed 10% of the higher of the present value of the defined benefit obligation and the fair value of plan assets. Where there are any improvements in benefits for the Fund, past service cost is recognised immediately to the extent that the benefits are already vested, and otherwise is amortised on a straight-line basis over the average period until the amended benefits become vested.

The amount recognised in the balance sheet represents the present value of the defined benefit obligations adjusted for unrecognised actuarial gains and losses and unrecognised past service cost, and reduced by the fair value of plan assets. Any asset resulting from this calculation is limited to the net total of any unrecognised actuarial losses and past service cost, and the present value of any economic benefits in the form of refunds or reductions in future contributions to the plan.

- 31 December 2005

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### (x) Employee Benefits (continued)

### (iv) Equity Compensation Benefits

The Bank's employees' share option scheme allows the Group employees, except the employees of JCG Holdings Limited ("JCGH") and its subsidiary companies and Cambodian Public Bank Limited, to acquire shares of the Bank. JCGH employee share option scheme allows the employees and directors of JCGH and its subsidiaries to acquire shares in JCGH. When the granted options of these schemes are exercised, equity is increased by the amount of the proceeds received.

### (y) Foreign Currencies

#### (i) Foreign Currencies Transactions

Transactions in foreign currencies during the financial year are translated into Ringgit Malaysia at the rates of exchange ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to Ringgit Malaysia at the foreign exchange rates ruling at that date. All exchange differences are recognised in the income statement.

#### (ii) Financial Statements of Foreign Operations

The financial statements of foreign branches are translated into Ringgit Malaysia at the rates of exchange ruling at the balance sheet date. The results of these branches for the financial year are accounted for based on closing rates of exchange at balance sheet date. All exchange differences are recognised in the income statement.

The financial statements of foreign subsidiary companies and a subsidiary incorporated in the Federal Territory of Labuan are translated into Ringgit Malaysia at the rates of exchange ruling at the balance sheet date. The revenues and expenses of foreign operations are translated to Ringgit Malaysia at average exchange rates applicable throughout the year. Foreign exchange differences arising on translation are taken to the exchange equalisation reserves.

The closing rates used in the translation of foreign currency monetary assets and liabilities and the financial statements of foreign operations are as follows:

	2005	2004
1 USD	RM3.7795	RM3.8000
1 HKD	RM0.4875	RM0.4887

### (z) Foreign Exchange Related Contracts

Outstanding foreign exchange related contracts at the balance sheet date are valued based on the applicable spot rates ruling at that date adjusted for the applicable premium or discount to maturity. Gains or losses are recognised in the income statement in the year they arise.

### (aa) Operating Leases

Payments made under operating leases are recognised in the income statement on an accrual basis in accordance with the terms of the leases.

- 31 December 2005

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### (bb) Income Taxes

Tax on profit or loss for the financial year comprises current and deferred tax. Income tax is recognised in the income statement except to the extent it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of prior years.

Deferred tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences and unutilised tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and unutilised tax losses can be utilised. Temporary differences are not recognised for goodwill not deductible for tax purposes and the initial recognition of assets and liabilities that at the time of transaction, affects neither accounting nor taxable profit. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

### (cc) Cash and Cash Equivalents

Cash and cash equivalents consist of cash and bank balances with banks and other financial institutions, and short-term deposits maturing within one month.

## 23. EMPLOYEE BENEFITS

## (a) Defined Benefit Plan

The Bank and certain subsidiary companies contribute to a fully funded defined benefit scheme known as Public Bank Group Officers' Retirement Benefits Fund ("the Fund") for its eligible employees. Contributions to the Fund are made to a separately administered fund. Under the Fund, eligible employees are entitled to one month of the final/last drawn salary for each completed year of service with the Group upon attainment of the retirement age of 55. For employees who leave before the attainment of the retirement age, the retirement benefit will be computed based on the scale rate stipulated in the rules of the Fund.

The salient features of the PBB ESOS are as follows:

- The ESOS Committee appointed by the Board of Directors to administer the PBB ESOS, may from time to time grant options to Directors and employees of the Group to subscribe for new ordinary shares of RM1.00 each in the Bank;
- The eligibility of a Director or employee of the Group to participate in the PBB ESOS shall be at the discretion of the PBB ESOS Committee, who shall take into consideration factors such as years of service and performance track record;
- (iii) The total number of shares to be issued under the PBB ESOS shall not exceed in aggregate fifteen percent (15%) of the issued and paid-up share capital of the Bank at any point of time during the tenure of the PBB ESOS and out of which not more than fifty percent (50%) of the shares shall be allocated, in aggregate, to directors and senior management. In addition, not more than ten percent (10%) of the shares available under the PBB ESOS shall be allocated to any individual director or eligible employee who, either singly or collectively through persons connected, holds twenty percent (20%) or more in the issued and paid-up capital of the Bank and no option shall be granted for less than 1,000 shares;
- (iv) The option exercise price for each ordinary share of RM1.00 each shall be at a discount of not more than ten percent (10%) of the five (5)-day weighted average market price of PBB shares quoted as "Local" on the Main Board of the Bursa Securities and as shown in the Daily Official List issued by the Bursa Securities at the time the option is granted;
- (v) The number of outstanding options to subscribe for shares or the option price or both may be adjusted following any issue of additional shares by way of rights issues, bonus issues or other capitalisation issue carried out by the Bank while an option remains unexercised; and
- (vi) All new ordinary shares issued upon exercise of the options granted under the PBB ESOS will rank pari passu in all respects with the existing ordinary shares of the Bank.

#### 24. SUBORDINATED NOTES (continued)

- (a) On 22 June 2004, the Bank issued USD350 million in aggregate principal amount of Subordinated Notes due 2014 callable with step-up in 2009. The Notes bear interest at the rate of 5.625% per annum from (and including) 22 June 2004 to (but excluding) 22 September 2009 and, thereafter, at a rate per annum equal to the interest rate of five year US treasury notes plus 3.10%. The interest is payable semi-annually in arrears on 22 March and 22 September in each year commencing on 22 March 2005. The Notes were issued at a price of 99.716 percent of the principal amount of the Notes. The Notes will, subject to the prior consent of Bank Negara Malaysia, be redeemable in whole but not in part, at the option of the Bank in the event of certain changes affecting taxation in Malaysia or on 22 September 2009 at their principal amount plus accrued interest (if applicable).
- (b) On 20 June 2005, the Bank issued USD400 million in aggregate principal amount of Subordinated Notes due 2017 callable with step-up in 2012. The Notes bear interest at the rate of 5% per annum from (and including) 20 June 2005 to (but excluding) 20 June 2012 and, thereafter, at a rate per annum equal to the interest rate of five year US treasury notes plus 2.827%. The interest is payable semi-annually in arrears on 20 June and 20 December in each year commencing on 20 December 2005. The Notes were issued at a price of 99.383 per cent of the principal amount of the Notes. The Notes will, subject to prior consent of Bank Negara Malaysia, be redeemable in whole but not in part, at the option of the Bank in the event of certain changes affecting taxation in Malaysia or on 20 June 2012 at their principal amount plus accrued interest (if applicable).

All the subordinated notes above constitute unsecured liabilities of the Bank, and are subordinated in right of payment upon occurrence of any winding up proceeding to the prior payment in full of all deposit liabilities and all other liabilities of the Bank in accordance with the terms and conditions of the Notes and qualify as Tier II capital for the purpose of determining the capital adequacy ratio of the Group and the Bank.

The statutory reserves are maintained in compliance with Section 36 of the Banking and Financial Institutions Act, 1989 and are not distributable as cash dividends.

The capital reserves of the Group arose mainly from the capitalisation of retained profits that resulted from bonus issues by subsidiary companies and the restructuring exercise involving certain subsidiary companies undertaken by the Group in previous years.

The exchange equalisation reserves comprises all foreign exchange differences arising from the translation of the financial statements of foreign subsidiaries.

The revaluation reserve is in respect of unrealised fair value gains and losses on securities available-for-sale.

- 31 December 2005

#### 29. RETAINED PROFITS

As at 31 December 2005, the Bank has tax exempt profits available for distribution of approximately RM284,000,000 (2004 - RM284,000,000), subject to agreement by Inland Revenue Board.

Subject to agreement by the Inland Revenue Board, the Bank has sufficient tax credit under Section 108 of the Income Tax Act, 1967 and the balance in the tax exempt account to frank the payment of dividends out of the Bank's entire retained profits as at 31 December 2005.

#### 38. EARNINGS PER SHARE (EPS)

## (a) Basic Earnings Per Share

The calculation of the basic earnings per share is based on the net profit for the financial year divided by the weighted average number of ordinary shares of RM1.00 in issue during the financial year excluding the weighted average treasury shares held by the Bank. The comparatives' net profit for the year have been restated as a result of change in accounting policies as set out in Note 47.

	Group		Bank

A proposed final dividend of 20% and special dividend of 15%, less 28% tax respectively, in respect of financial year ended 31 December 2005 amounting to approximately RM829,883,524 computed based on the outstanding issued and paid-up capital, excluding treasury shares held by the Bank, of 3,293,188,589 ordinary shares of RM1.00 each, have been proposed by the Directors for shareholders' approval at the forthcoming Annual General Meeting. Consistent with treatment adopted in prior year, the financial statements for the current financial year do not recognise this proposed dividend as a liability. Such dividend, if approved by the shareholders, will be excluded from shareholders' equity as an appropriation of retained profits in the financial year ending 31 December 2006.

Accordingly, based on the above, the gross and net dividend per share for each financial year are as follows:

#### 41. COMMITMENTS AND CONTINGENCIES (continued)

Principal amounts of the foreign exchange related contracts and interest rate related contracts are as follows:

	Grou	p	Bank		
	2005 RM'000	2004 RM'000	2005 RM'000	2004 RM'000

	12,768,757	5,534,621	12,749,859	5,515,587	

The foreign exchange related contracts and interest rate related contracts are subject to market risk and credit risk.

#### Market Risk

Market risk is the potential change in value caused by movement in market rates or prices. The contractual amounts stated above provide only a measure of involvement in these types of transactions and do not represent the amounts subject to market risk. Exposure to market risk may be reduced through offsetting on and off-balance sheet positions. As at 31 December 2005, the amount of contracts which were not hedged in the Group and in the Bank and, hence, exposed to market risk was RM1,485,257,000 (2004 – RM1,377,179,000) and RM1,485,257,000 (2004 – RM1,377,179,000) respectively.

#### Credit Risk

Credit risk arises from the possibility that a counter party may be unable to meet the terms of a contract in which the Group or the Bank has a gain in a contract. As at 31 December 2005, the amounts of credit risk in the Group and in the Bank, measured in terms of the cost to replace the profitable contracts, was RM24,737,000 (2004 – RM11,502,000) and RM24,737,000 (2004 – RM11,502,000) respectively. This amount will increase or decrease over the life of the contracts, mainly as a function of maturity dates and market rates or prices.

- 31 December 2005

#### 42. FINANCIAL RISK MANAGEMENT POLICIES

The Group's and the Bank's risk management policy seeks to ensure that adequate financial resources are available for the development of the Group's and the Bank's businesses whilst managing its interest rates, foreign exchange, liquidity, operational and credit risks. The guidelines and policies adopted by the Group and the Bank to manage the following risks that arise in the conduct of the business activities are as follows:

#### (a) Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events and is managed through established operational risk management processes, proper monitoring and reporting of the business activities by control and support units which are independent of the business units and oversight provided by the management and the Board.

The operational risk management processes include appropriate documentation of processes and procedures. Backup procedures, regular contingency planning, self-compliance audit and internal audits also form an integral part of the operational risk management processes.

#### (b) Credit Risk

Credit risk is the potential loss of revenue as a result of defaults by the borrowers or counterparties through its lending, hedging, trading and investing activities.

The primary exposure to credit risk arises through its loans, advances and financing. The amount of credit exposure in this area is represented by the carrying amounts of the assets in the balance sheet. The lending activities are guided by the Credit Policy which has been established to ensure that the overall objectives in the area of lending are achieved i.e. the loans portfolio is strong and healthy, credit risks are well diversified and there is no significant concentration of credit risk. The Credit Policy documents the lending policy, collateral policy and credit approval processes including an internal grading system known as the Credit Risk Rating.

Credit exposure also arises from financial transactions with counter parties including interbank market activities, derivative instruments used for hedging and debt instruments of which the amount of credit exposure in respect of these instruments is equal to the carrying amount of these assets in the balance sheet. This exposure is monitored on an on-going basis against predetermined counter party limits.

The credit exposure arising from off-balance sheet activities i.e. commitments and contingencies are explained in Note 41.

#### (c) Market Risk

Market risk is the risk of loss arising from adverse movement in the level of market prices or rates, the three key components being foreign currency exchange risk, interest rate risk and equity risk.

Market risk arising from trading activities is governed by the Trading Book Policy Statement which is approved by the Board and Bank Negara Malaysia. The Trading Book Policy Statement sets out the trading limits which include, interalia, the Overall Open Position, Daily and Cumulative Cut Loss Position and Maximum Holding Periods to ensure that dealers day-to-day trading activities are within the risk parameters set, independent mark-to-market valuation and validation procedures, policy on hedged transactions and prohibition on the transfer of financial instruments from the trading book to the banking book.

- 31 December 2005

#### 42. FINANCIAL RISK MANAGEMENT POLICIES (continued)

#### (c) Market Risk (continued)

#### (i) Foreign Currency Exchange Risk

Foreign currency exchange risk refers to adverse exchange rate movements on foreign currency positions originating from treasury money market activities and from the Group's investments and retained earnings in its subsidiaries, branches and associated companies, whose functional currencies are not in Ringgit.

Foreign currency exchange open positions are monitored against predetermined position limits and cut-loss limits. Where possible, the foreign currency-denominated assets are generally funded by borrowings and deposits received in the same foreign currencies. Foreign exchange exposures arising from the Group's investments and retained earnings in its subsidiaries, branches and associated companies are hedged.

#### (ii) Interest Rate Risk

Interest rate risk refers to the volatility in net interest income as a result of changes in the levels of interest rate and shifts in the composition of the assets and liabilities. Interest rate risk is managed through interest rate sensitivity gap analysis. The potential reduction in net interest income from an adverse interest rate movement is monitored against the risk tolerance limits set.

The effects of changes in the levels of interest rates on the market value of securities are monitored closely and mark-to-market valuations are regularly reported to management. Hedging instruments such as interest rate swaps are used to minimise exposure to interest rate volatility.

#### (iii) Equity Risk

Equity risk refers to the adverse movements in the price of equities on the equity positions taken from time to time. Equity positions are monitored against predetermined cut-loss limits.

#### (d) Liquidity Risk

Liquidity risk relates to the ability to maintain sufficient liquid assets to meet its financial commitments and obligations when they fall due at a reasonable cost.

Liquidity risk is primarily managed through the Bank Negara Malaysia New Liquidity Framework which takes into consideration the contractual and behavioural cash flow of assets, liabilities and off-balance sheet commitments, and also the realisable cash value of eligible liquefiable assets. Liquidity risk management is supplemented by internal liquidity risk management policy.

In addition, the Liquidity Contingency Funding Plan ensures that alternative funding strategies are in place and can be implemented on a timely basis to minimise the liquidity risk that may arise due to unforeseen adverse changes in the market place.

#### 43. INTEREST RATE RISK

The Group and the Bank are exposed to various risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The following tables indicate the effective interest rates at the balance sheet date and the periods in which the financial instruments reprice or mature, whichever is earlier.

#### 44. FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES

Financial instruments comprise financial assets, financial liabilities and off-balance sheet financial instruments. Fair value is the amount at which the financial asset could be exchanged or a financial liability could be settled, between knowledgeable and willing parties in an arm's length transaction. The information presented herein represents the estimates of fair values as at the balance sheet date.

Where available, quoted and observable market prices are used as the measure of fair values. Where such quoted and observable market prices are not available, fair values are estimated based on a range of methodologies and assumptions regarding risk characteristics of various financial instruments, discount rates, estimates of future cash flows and other factors.

Fair value information for non-financial assets and non-financial liabilities are excluded as they do not fall within the scope of FRS132<sub>2004</sub> Financial Instruments: Disclosure and Presentation which requires the fair value information to be disclosed. These include investment in subsidiaries, investment in associated companies, property and equipment and intangible assets.

The following summarises the carrying values and the estimated fair values of those financial assets and financial liabilities which fall within the scope of FRS132<sub>2004</sub>.

#### 44. FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES (continued)

The general allowance of the Group and the Bank of RM1,056,199,000 (2004 - RM895,833,000) and RM984,830,000 (2004 - RM821,318,000) respectively, are not included in the carrying amounts.

The following methods and assumptions are used to estimate the fair values of the following classes of financial instruments:

- (a) Cash and Short-Term Funds The carrying amount approximates fair value due to the relatively short maturity of the financial instruments.
- (b) Deposits and Placements with Financial Institutions and Securities Purchased under Resale Agreements The fair values of these financial instruments with remaining maturity of less than one year approximate their carrying amounts due to the relatively short maturity of the financial instruments. For those financial instruments with maturity of more than one year, the fair values are estimated based on discounted cash flows using applicable prevailing market rates for placements of similar credit risk and similar remaining maturity as at balance sheet date.

- 31 December 2005

#### 44. FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES (continued)

- (c) Securities Held-for-Trading, Securities Available-for-Sale and Securities Held-to-Maturity The fair values are estimated based on quoted or observable market prices as at the balance sheet date. Where such quoted or observable market prices are not available, the fair values are estimated using pricing models or discounted cash flow techniques. Where discounted cash flow technique is used, the expected future cash flows are discounted using prevailing market rates for similar instruments as at balance sheet date.
- (d) Loans, Advances and Financing The fair values of fixed rate loans with remaining maturity of less than one year and variable rate loans are estimated to approximate their carrying values. For fixed rate loans and Islamic financing with remaining maturity of more than one year, the fair values are estimated based on expected future cash flows of contractual instalment and discounted at applicable prevailing rates as at balance sheet date offered to new borrowers with similar credit profiles. In respect of non-performing loans, the fair values are deemed to approximate the carrying values, net of specific allowance for bad and doubtful debts and financing.
- (e) Derivative financial instruments The fair values of derivative financial instruments are normally zero or negligible at inception and subsequent changes in value is favourable (assets) or unfavourable (liabilities) as a result of fluctuations in market interest rates or foreign exchange rates relative to their terms. The fair values of derivative instruments are estimated with reference to quoted market prices. Internal models are used where no market price is available.
- (f) Deposits from Customers The fair values of deposit liabilities payable on demand (demand and savings deposits), or deposits with remaining maturity of less than one year are estimated to approximate their carrying amounts. The fair values of fixed deposits with remaining maturities of more than one year are estimated based on expected future cash flows discounted at applicable prevailing rates offered for deposits of similar remaining maturities. The fair values of Islamic deposits are deemed to approximate their carrying amounts as profit rates are determined at the end of their holding periods based on the profit generated from the assets invested. The fair value of negotiable instruments of deposits are estimated based on quoted or observable market prices as at the balance sheet date. Where such quoted or observable market prices are not available, the fair values of negotiable instruments of deposit are estimated cash flow technique.
- (g) Deposits and Placements of Banks and Other Financial Institutions, Obligations on Securities Sold under Repurchase Agreements and Bills and Acceptances Payable – The fair values of these financial instruments with remaining maturity of less than one year approximate their carrying amounts due to the relatively short maturity of the financial instruments.
- (h) Recourse Obligations on Loans Sold to Cagamas The fair values for recourse obligations on loans sold to Cagamas are determined based on the discounted cash flows of future instalment payments at applicable prevailing Cagamas rates as at balance sheet date.
- (i) Subordinated Notes The fair value of the subordinated notes is estimated based on quoted market prices of the subordinated notes.

#### 47. CHANGES IN ACCOUNTING POLICIES AND PRIOR YEAR ADJUSTMENTS

#### (a) Changes in Accounting Policies

During the financial year ended 31 December 2005, the Group and the Bank adopted the revised BNM/GP8 which resulted in the following new accounting policies:

1) The holdings of the securities portfolio of the Group and the Bank are recognised based on the following categories and valuation methods:

#### (i) Securities held-for-trading

Securities are classified as held-for-trading if these financial assets are acquired principally for the purpose of benefiting from actual or expected short-term price movement or to lock in arbitrage profits. The securities held-for-trading are stated at fair value and any gain or loss arising from a change in their fair values and the derecognition of securities held-for-trading are recognised in the income statement.

- 31 December 2005

#### 47. CHANGES IN ACCOUNTING POLICIES AND PRIOR YEAR ADJUSTMENTS (continued)

#### (a) Changes in Accounting Policies (continued)

#### (ii) Securities held-to-maturity

Securities held-to-maturity are financial assets with fixed or determinable payments and fixed maturity that the Group and Bank have the positive intent and ability to hold to maturity. Unquoted shares in organisations set up for socio-economic purposes and equity instruments received as a result of loan restructuring or loan conversion which do not have a quoted market price in an active market and whose fair value cannot be reliably measured are also classified as securities held-to-maturity.

The securities held-to-maturity are measured at accreted/amortised cost based on effective yield method. Amortisation of premium, accretion of discount and impairment as well as gain or loss arising from derecognition of securities held-to-maturity are recognised in the income statement.

#### (iii) Securities available-for-sale

Securities available-for-sale are financial assets that are not classified as held-for-trading or held-tomaturity. The securities available-for-sale are measured at fair value or at cost (less impairment losses) if the fair value cannot be reliably measured. Any gain or loss arising from a change in fair value are recognised directly in equity through the statement of changes in equity, until the financial asset is sold, collected, disposed of or impaired, at which time the cumulative gain or loss previously recognised in equity will be transferred to the income statement.

2) Derivatives financial instruments are measured at fair value and are carried as assets when the fair value is positive and as liabilities when the fair value is negative. Any gain or loss arising from a change in the fair value of the derivatives is recognised in the income statements unless they are part of a hedging relationship which qualifies for hedge accounting where the gain or loss is recognised as follows:

#### Fair value hedge

Where a derivative financial instrument hedges the changes in fair value of a recognised asset or liability, any gain or loss on the hedging instrument is recognised in the income statement. The hedged item is also stated at fair value in respect of the risk being hedged, with any gain or loss being recognised in the income statement.

#### Cash flow hedge

Gains and losses on the hedging instrument, to the extent that the hedge is effective, are deferred in the separate component of equity. The ineffective part of any gain or loss is recognised in the income statement. The deferred gains and losses are then released to the income statement in the periods when the hedged item affects the income statement.

3) When a loan, advance or financing account becomes non-performing, interest accrued and recognised as income prior to the date the loan is classified as non-performing is reversed out of income and set-off against the accrued interest receivable account in the balance sheet. Thereafter, the interest on the non-performing loan shall be recognised as income on a cash basis instead of being accrued and suspended at the same time as practised previously.

#### 49. SEGMENT INFORMATION

Segment information is presented in respect of the Group's business and geographical segments.

The primary format, business segments, is prepared based on the internal financial reporting system to reflect the Group's management reporting structure. The amounts for each business segment are shown after the allocation of certain centralised costs, funding income and the application of transfer pricing, where appropriate. Inter-segment pricing is determined on a negotiated basis.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items mainly comprise Head Office assets, payables and expenses to support the operating business segments.

Segmental capital expenditure is the total cost incurred during the year to acquire segment assets that are expected to be used for more than one period.

#### (a) By Business Segments:

The Group comprises the following main business segments:

(i) Retail Operations

Retail operations focuses on providing products and services to individual customers and small-and mediumsized enterprises. The products and services offered to customers include credit facilities (mortgages, trade, personal loans and hire purchase financing), credit cards, remittance services, deposit collection and investment products.

#### **52. SIGNIFICANT EVENTS**

- (a) On 20 June 2005, the Bank issued USD400 million in aggregate principal amount of Subordinated Notes ("the Notes") due 2017 callable with step-up in 2012. The Notes bear interest at the rate of 5% per annum from (and including) 20 June 2005 to (but excluding) 20 June 2012 and, thereafter, at a rate per annum equal to the interest rate of five year US treasury notes plus 2.827%. The interest is payable semi-annually in arrears on 20 June and 20 December in each year commencing on 20 December 2005. The Notes were issued at a price of 99.383 per cent of the principal amount of the Notes. The Notes will, subject to prior consent of Bank Negara Malaysia, be redeemable in whole but not in part, at the option of the Bank in the event of certain changes affecting taxation in Malaysia or on 20 June 2012 at their principal amount plus accrued interest (if applicable).
- (b) On 28 September 2005, the securities of the Bank's wholly-owned subsidiary, HHB Holdings Berhad ("HHB") was removed from the Official List of Bursa Malaysia Securities Berhad as HHB did not have an adequate level of operations to warrant continued listing.

### (u) Allocation of Income

The method of allocation of income to the types of deposits is based on "The Framework on Rate of Return" issued by Bank Negara Malaysia. This Framework on Rate of Return which is based on the return on assets concept, calculates the income on assets. The return on assets after deducting incidental expenses and allowances for losses on financing, advances and other loans are distributed to the depositors using the weighted average method.

#### (v) Shariah Committee

The Shariah Committee was established under Bank Negara Malaysia's "Guidelines on the Governance of Shariah Committee for the Islamic Financial Institutions" (BNM/GPS1) to advise the Board of Directors on Shariah matters in its business operations and to provide technical assistance in ensuring the Islamic Banking products and services offered by the Group and the Bank are in compliance with Shariah principles. The Shariah Panel also provides guidance on legal matters on Islamic Banking products and services.

#### (w) Zakat Obligations

This represents business zakat payable by the Bank to comply with Shariah principles. Zakat provision is calculated based on 2.5% of the estimated Muslim individual shareholders using the profit and loss method.

# **MALAYSIAN** ECONOMY: Review of 2005 and Prospects

#### **OVERVIEW**

The Malaysian economy in 2005 continued to remain sound and stable, despite greater external challenges due to moderation in global growth, higher inflationary pressures and higher interest rates. During the year, the Government's macroeconomic policies remained focused on sustaining growth momentum and improving international competitiveness in order to generate growth.

On the fiscal front, the Government continued to support the economy through a modest fiscal deficit. By the end of 2005, the deficit is expected to be around 3.8% of gross domestic product ("GDP"). Monetary policy remained accommodative, despite the rise in the overnight policy rate ("OPR") by 30 basis points in November.

Also, during the year, the Government adopted a managed float for the ringgit exchange rate, replacing the ringgit peg introduced in 1998, due to significant changes in the international and regional financial and economic environment. After the shift to a managed float, the ringgit exchange rate has remained stable.

#### **GDP GROWTH**

Notwithstanding the challenges, the Malaysian economy continued to turn in respectable growth for the year. For the first three quarters of 2005, the economy expanded by 5.3% supported by a significant recovery in the third quarter of the year. The growth was achieved in an environment of modest inflation.

As showed in Graph 1, Malaysia's economy was accelerating faster than that of Singapore (5%), Thailand (4.4%) and South Korea (3.5%), but slower than China (9.4%) and Hong Kong (7.2%). Based on the recovery in industrial production and exports in the fourth quarter, the Malaysian economy is on track to achieve its growth target of 5-6% for 2005.

#### SOURCES OF GROWTH

Growth in the first three quarters of 2005 was led by the services sector, followed by the manufacturing, agriculture and mining sectors (Table 1).

Accounting for 58% of GDP, the services sector grew strongly by 6.7% due to strong private spending, tourism and business activities.

# **MALAYSIAN** ECONOMY: Review of 2005 and Prospects

The manufacturing sector expanded by 4%, affected by slower export demand for the electronics industry in the first half of the year. The agriculture sector grew by 3.2%, contributed by crude palm oil and rubber production. The mining sector remained subdued with a growth of 1.8% due to disruptions in crude oil production. The construction sector further contracted by 1.9% due to lower civil engineering activities.

From the demand side, private domestic demand continued to drive growth in 2005 as public sector spending remained on course to consolidate (Table 2). Private consumption grew strongly by 9.3% for the first three quarters of the year, supported by stable income and employment, low interest rates and high commodity prices.

#### Table 2

Malaysia: GDP by Expenditure Components, 2004 and 2005 (at constant 1987 prices)

Imports of Goods and Services	20.7	7.3	
GDP	7.1	5.3	

Source: Department of Statistics, Malaysia. Quarterly National Product and Expenditure Accounts, Third Quarter 2005

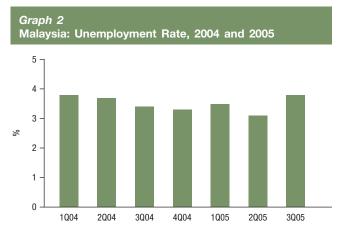

Investment continued to recover. For the first three quarters of the year, investment grew by 6.2% due to firmer capital spending in the manufacturing and services sectors and in oil production. Public consumption increased by only 2.9%. Exports of goods and services moderated to 7.6% due to lower exports of electronics products. Imports of goods and services moderated to 7.3%, affected by lower imports of consumption goods.

#### STRONG FUNDAMENTALS

The growth has helped support Malaysia's economic fundamentals. Labour market conditions remained stable with the unemployment rate at 3.8% at the end of the third quarter of 2005 (Graph 2). Inflation remained modest at 3% in the period January-November 2005 despite higher oil prices, road toll charges and "sin taxes" (Graph 3).

Malaysia's external position remained strong. The surplus in the current account of the balance of payments has been projected to increase from 13.3% of gross national product ("GNP") in 2004 to 15.7% at the end of 2005. Total external debt is estimated to decline from 44.6% of GDP in 2004 to 40.2% of GDP in 2005.

Bank Negara Malaysia's ("BNM") international reserves remained high at RM271.4 billion as at 15 December 2005, despite the significant fund outflow in the third quarter of this year. The reserves was sufficient to cover 7.9 months of retained imports and was about 6.4 times that of short-term external debt.

#### STRONG BANKING SYSTEM

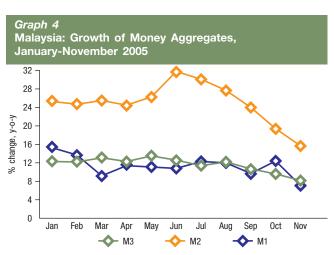

The banking system continued to remain strong in 2005. Despite the inclusion of market risk in the capital adequacy framework effective April 1, 2005, the risk-weighted capital ratio ("RWCR") and core capital ratio ("CCR") of the banking system remained high at 13.8% and 10.8% respectively at the end of November (Table 3).

# Table 3Banking System: Risk-Weighted Capital Ratioand Core Capital Ratio, 2004 and 2005

		2005			
	2004	Mar	Jun	Sep	Nov
Risk-Weighted Capital Ratio (%)	14.3	13.8	13.6	13.3	13.8
Core Capital Ratio (%)	11.3	10.9	10.8	10.6	10.8

#### MONETARY AGGREGATES

Growth in monetary aggregates was in line with the positive growth in the real economy. At the end of November, M1 grew by 7.3%, M2 by 15.9%, and M3 by 8.4% due to higher demand for loans by the private sector (Graph 4).

Source: Bank Negara Malaysia. Monthly Statistical Bulletin, November 2005

Source: Bank Negara Malaysia. Monthly Statistical Bulletin, November 2005

Asset quality of the banking system improved further in 2005 due to lower new non-performing loans, higher recoveries and write-offs. The ratio of net non-performing loans to total loans and advances of the banking system declined from 7.5% at the end of 2004 to 6% at the end of November 2005 (Graph 5). The loan-loss coverage of the banking system increased from 211% at the end of 2004 to 220% at the end of November 2005 (Graph 6).

Lending activity continued to increase during the year, supported mainly by loans to consumers and small- and medium-sized enterprises ("SME"). For the period January-November 2005, total new loans approved by the banking system increased by 12.2% compared to the corresponding period last year (Graph 7), while total loans disbursed increased by 9.8% (Graph 8). Annual loan growth of the banking system rose from 8.5% in 2004 to 9% at the end of November 2005.

#### AMPLE LIQUIDITY

Graph 7

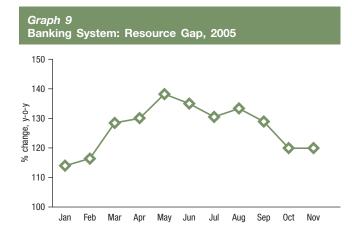

15

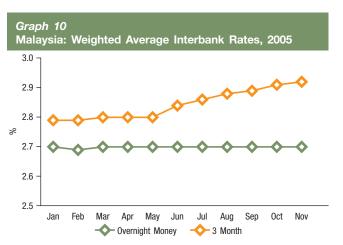

12

Liquidity in the banking system (as measured by the resource gap) remained ample in 2005 (Graph 9). The gap between total deposits and total loans remained large as growth in total deposits continued to outpace growth in total loans. BNM continued to mop up the excess liquidity to maintain stable interest rates.

# **MALAYSIAN** ECONOMY: Review of 2005 and Prospects

Source: Bank Negara Malaysia. Monthly Statistical Bulletin, November 2005

During the January-November 2005 period, the weighted average overnight interbank interest rate was around 2.7%, while the 3-month weighted average interbank rate rose marginally from 2.8% in the January-May 2005 period to 2.84-2.93% in the June-November 2005 period (Graph 10). Key interest rates increased in December after the decision by BNM to increase the OPR by 30 basis points on November 30.

#### **PROSPECTS FOR 2006**

The Malaysian economy is expected to maintain its growth momentum in 2006, despite the increasing challenges from high oil prices, widening global imbalances, and high global interest rates. GDP is expected to increase by 5.5% in 2006. Growth will continue to be driven by private domestic demand. In particular, private consumption is expected to remain strong due to higher disposable income, stable employment conditions and modest inflation outlook.

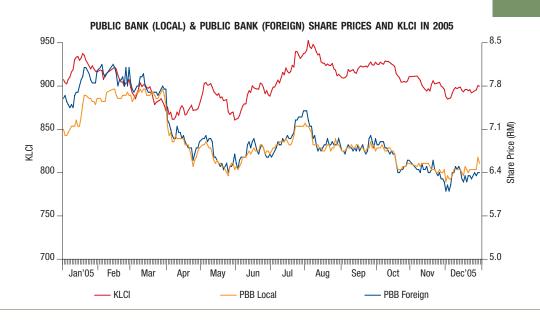

Private investment is also expected to gather higher momentum next year in line with expected sustained direct domestic investment and inflows of foreign direct investment in manufacturing and manufacturing-related services, oil and gas and services sectors. Investment in agriculture is expected to gain momentum in line with the Government's objective to revitalise the sector. In addition, capacity utilisation in the manufacturing sector is high at 76%.

External demand is expected to improve based on the projection that the global economy will maintain a 4.3% growth with sustained growth in major OECD economies such as the US, Europe and Japan. The recovery in the global semiconductor industry in the second half of 2005 is expected to strengthen next year.

In line with the positive growth outlook, Malaysia's economic fundamentals are expected to remain healthy. Unemployment is expected to remain low, while inflation is expected to remain modest and manageable. Malaysia's external position, based on the projected large surplus in the current account of the balance of payment, is expected to remain strong.

The Government is expected to remain on course to consolidate its financial position. BNM is expected to continue to maintain its accommodative monetary policy to support growth. Amid the positive growth outlook, the banking industry will continue to remain strong in 2006 with high capitalisation and strong asset quality. Lending activity is expected to sustain its momentum in tandem with the projected GDP growth.

# **INVESTOR** INFORMATION

### **STOCK MARKET PERFORMANCE IN 2005**

The stock market started 2005 on a positive note. The Kuala Lumpur Composite Index ("KLCI") rallied to a 41/<sub>2</sub> year high of 937.56 points on 18 January 2005, buoyed by the entry of foreign funds amidst speculation on the removal of the Ringgit peg against the US dollar, and investor interest in the restructuring theme of Government Linked Corporations ("GLCs"). However, concerns over high oil prices and below consensus corporate earnings in the last quarter of 2004 saw the KLCI fall below 900 points in early March 2005. A regional equity sell down sparked by surging oil prices and concerns of investment outflows upon the lifting of capital controls on 1 April 2005 by Bank Negara Malaysia exerted downward pressure on the KLCI.

These negative factors, combined with heavy selling of speculative stocks, which resulted in limit-down fall in share prices of some of these stocks led to a steady decline of the KLCI, eventually to its lowest level in 2005 at 860.73 points on 31 May 2005, with the Second Board Index falling close to the Asian financial crisis level of 80 points.

The KLCI recovered to move above 900 points in early July 2005 on selected buying by institutional investors. Investor interest in GLCs and the removal of the Ringgit peg against the US dollar spurred the KLCI to a  $51/_2$  year high of 952.59 points on 3 August 2005. However, the KLCI soon retraced lower before consolidating at above 900 points in early September 2005 as rising crude oil prices following Hurricane Katrina in the US, less than convincing corporate results and weaker than expected GDP growth expectations for the second quarter of 2005 weighed on the stock market.

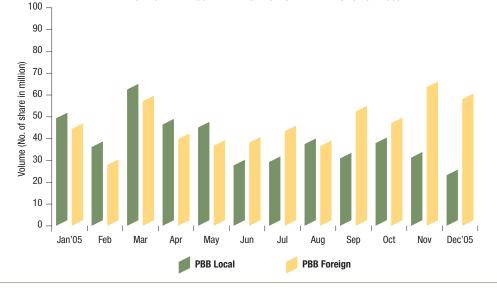

Although the KLCI rebounded to above 920 points on stronger regional equity markets coupled with a fiscally prudent Government budget for 2006, the KLCI turned bearish again in October 2005 on concerns of rising inflation and interest rates, whilst the lower than expected appreciation of the Ringgit and widening interest rate differential between US and Malaysian interest rates led to heavy selling by foreign funds. On 30 November 2005, Bank Negara Malaysia raised interest rates for the first time since 2000. The benchmark overnight policy rate was raised by 30 basis point to 3.00% from 2.70%. The KLCI fell 8.33 points to 887.80 points on 1 December 2005 on fears of further interest rate increases in the near future. For the year, the KLCI lost 7.64 points or 0.84% from 907.43 points at the end of 2004 and 52.80 points or 5.54% from the 2005 peak of 952.59 points to close at 899.79 points. Volume traded on Bursa Securities for 2005 totalled 118.82 billion shares valued at RM201.09 billion, a decrease of 0.89 billion shares and RM42.77 billion as compared to 2004.

Market analysts expect the equity markets to remain cautious in 2006 given the expectations of higher interest rates and inflationary pressures from the expected reduction in petrol subsidies. Nevertheless, the stock market's downside risk is mitigated by undemanding valuations, attractive dividend yields and excess domestic liquidity. Likewise, the regional equity markets are expected to remain resilient given the high levels of liquidity and trade surpluses among most Asian economies.

In terms of valuations, Bursa Securities' price earnings rating remains reasonable at 16.8 times 2005 earnings and is 6.4% below the 6 years historical average of 18 times. The stock market's gross dividend yield of 4.1% compares favourably with short-term fixed deposit rates of 3%.

PUBLIC BANK LOCAL AND FOREIGN SHARE TRANSACTION 2005

#### PUBLIC BANK SHARE PRICE PERFORMANCE IN 2005

Public Bank share prices outperformed the KLCI during the first quarter of 2005. Public Bank (Local) share and Public Bank (Foreign) share prices rose from RM7.10 and RM7.60 respectively as at the end of 2004 to RM7.50 and RM7.95 respectively when the KLCI reached its 41/<sub>2</sub> year high of 937.56 points on 18 January 2005. On the same day, Public Bank announced its financial results for 2004 and proposed a final dividend of 35% less 28% tax and a special dividend of 15% less 28% tax. The market responded favourably to the Public Bank (Local) shares and Public Bank (Foreign) shares traded to a year high of RM7.75 and RM8.15 respectively on 14 February 2005.

The following weeks saw Public Bank share prices trending lower, in line with the general decline of the KLCI on weak market sentiment. Both Public Bank (Local) share and Public Bank (Foreign) share prices fell to a first half 2005 low of RM6.35 and RM6.40 respectively on 25 May 2005.

On 21 July 2005, Public Bank Group announced a positive second quarter 2005 results together with an interim dividend of 20% less 28% tax. The positive news amidst a more bullish stock market following the removal of the Ringgit peg led both Public Bank (Local) share and Public Bank (Foreign) share prices higher to RM7.20 and RM7.40 respectively on 1 August 2005.

Share prices of Public Bank shares eased in September and October 2005 following the decline of the KLCI and continued to consolidate despite the release of third quarter 2005 results in October 2005 that were within analysts' consensus estimates.

The increase in the overnight policy rate by 0.30% saw weaker sentiment for financial sector stocks with the Kuala Lumpur Finance Index closing lower by 104.73 points to 7,092.25 points the day following the increase in interest rates. Prices of both Public Bank (Local) shares and Public Bank (Foreign) shares fell in tandem to a year low of RM6.25 and RM6.10 respectively on 1 December 2005. Public Bank (Local) share and Public Bank (Foreign) share prices closed at RM6.55 and RM6.40 respectively on 30 December 2005.

#### NOTES:

- 1. In respect of deposited securities, only Members whose names appear in the Record of Depositors on 13 March 2006 ("General Meeting Record of Depositors") shall be eligible to attend the Meeting.
- 2. The right of Foreigners to vote in respect of deposited securities is subject to Section 41(1)(e) and Section 41(2) of the Securities Industry (Central Depositories) Act, 1991; the Securities Industry (Central Depositories) (Foreign Ownership) Regulations, 1996 and the Articles of Association of the Company. Where a Foreigner, based on the General Meeting Record of Depositors, holds deposited securities in a Securities Account and such securities raise the ownership of shares in the Company by Foreigners beyond the Company's foreign shareholding limit of 30%, such Foreigner or the proxy appointed by him, in respect of such securities, shall not be entitled to exercise in any manner whatsoever any voting rights in respect of the aforesaid securities at the Meeting.
- 3. A Member entitled to attend and vote at the Meeting may appoint a proxy to attend and vote on his behalf. A proxy need not be a Member of the Company.
- 4. A Member shall not be entitled to appoint more than two (2) proxies to attend and vote at the Meeting provided that where a Member is an authorised nominee as defined in accordance with the provisions of the Securities Industry (Central Depositories) Act, 1991, it may appoint up to two (2) proxies in respect of each Securities Account it holds with ordinary shares in the Company standing to the credit of the said Securities Account.
- 5. The instrument appointing a proxy shall be in writing under the hand of the appointor or his attorney duly authorised in writing or if such appointor is a corporation, under its common seal or the hand of its attorney.
- 6. The instrument appointing a proxy must be deposited at the Registered Office of the Company, at 27th Floor, Menara Public Bank, 146 Jalan Ampang, 50450 Kuala Lumpur not less than 48 hours before the Meeting.
