

EVERLAST ALUMINIUM (M) SDN. BHD.

Everlast was incorporated as a private limited company under the Companies Act, 1965 on 7 May, 1988.

From its traditional status as a distributor of Press Metal Berhad's extruded aluminium profiles, the Company has grown to become the leading player in the aluminium ladders market.

The Company exports increasing amount of its ladders and is now making especially good progress in the export to the United Kingdom, apart from the traditional export to the United Arab Emirates, South Africa, Singapore, Bangladesh, Egypt, Maldives and Yemen.

The Company successfully upgraded its ISO9002 : 1994 certification to ISO9001 : 2000 certification in 2002 and remains as the only Malaysian ladder company holding this prestigious quality management certification. With a stable and good quality system, the Company's longer term direction is to further develop the volume of export business especially to the advance countries. To complement this business focus, the Company is actively investing into research and development to produce internationally certified models for greater market penetration.

In the interior construction segment, the Company remains active in the distribution of Boral's gypsum and plaster boards and Armstrong's mineral fibre boards. The focus of the distribution business is in good credit management instead of expanding market share.

Everlast was incorporated as a private limited company under the Companies Act, 1965 on 7 May 1988. Everlast is principally engaged in the marketing and retailing of extruded aluminium profiles, rolled sheets and coils, aluminium ladders, gypsum partition boards and ceiling boards, Armstrong mineral fibre boards, Hume Chemboards and building accessories. The customers of the company include building contractors, component fabricators, engineering workshops, manufacturing companies, stockists, wholesalers and retail hardware shops.
