With the assistance of the Group's Internal Audit department, risk management training and facilitation sessions were conducted for staff of operating companies. Through the ERM process, significant risks and relevant management actions were documented and presented to the Audit Committee.

Within the ERM framework, operating companies have Risk Committees whose members represent key areas in operations. These committees are guided by documented terms of reference and meetings are held regularly to deliberate on risk and control issues. Risks and control measures are documented and compiled to represent the risk profile of the operating company. Key risks of operating companies are consolidated to form the risk profile of the Group. Risks and control measures are periodically communicated to the relevant personnel within the Group and to the Audit Committee. Risk profiles are reviewed and updated on a periodic basis.

Hence, in accordance with the *Statement on Internal Control: Guidance for Directors of PLCs* the Group has in place an ongoing process for identifying, evaluating, monitoring and managing the significant risks affecting the achievement of its business objectives and this process has operated during the year under review and up to the date of approval of the annual report.

CHAIRMAN'S STATEMENT

On behalf of the Board of Directors, I present herewith the Annual Report and financial statements of our Company and the Group for the financial year ended 31 December 2002.

ECONOMIC REVIEW

The Malaysian economy expanded at a stronger rate in 2002 than that of 2001 by achieving real Gross Domestic Product growth of 4.2%. The economic growth was driven by encouraging external demand as well as sustained domestic demand which in turn was due to strong consumer spending, continued recovery in investment activity and the expansion in public sector expenditure. Reflecting a broad based growth, all sectors of the economy reported positive growth in output in 2002. Led by the export-oriented industries, the manufacturing sector reported a growth of 4.1% in 2002 compared to a contraction of 6.2% in 2001. The services sector expanded by 4.5% in 2002 due to stronger domestic demand and continued expansion in trade and tourism related activities. Supported by higher consumer spending and a significant increase in tourist arrivals, the wholesale and retail trade, hotels and restaurants subsector reported a 2.5% growth in output.

The external position of Malaysia remained strong in 2002 with the trade account maintained at a sizeable surplus of RM51.0 billion. The net international reserves of Bank Negara Malaysia increased by RM2.4 billion to RM131.4 billion as at end 2002 compared with the end September 2002 level.

The Kuala Lumpur Composite Index ("KLCI") commenced the year 2002 on a promising note with encouraging developments in corporate mergers and restructuring as well as improving prospect for the domestic economy. The KLCI reached an intraday year high of 816.94 on 23 April 2002, a 17.36% appreciation from the end of 2001. For the remaining months of the year, the KLCI was adversely affected by the poor performance of the US equity market attributable to fraudulent accounting scandals, weaker economic data and tensions in the Middle East. Investor sentiment was further dampened by the Bali bombing on 12 October 2002. Subsequently the KLCI closed at 646.32 on 31 December 2002, 7.15% lower than a year ago.

Due to the buoyant activities for the first 5 months in 2002, the Kuala Lumpur Stock Exchange ("KLSE") achieved a higher activity level in terms of volume and value in 2002 than those of the previous year. Total volume and value transacted on the KLSE in 2002 were 55,630 million units and RM116.95 billion respectively compared to 49,663 million units and RM85.01 billion respectively in 2001.

In accordance with the Malaysian Capital Market Masterplan, stockbroking commission rates for all trades are negotiable subject to a cap of 0.70% with effect from 1 July 2002. After considering a proposal from the Association of Stockbroking Companies in Malaysia, the Securities Commission ("SC") decided to raise the minimum handling charge per contract for all securities other than loan instruments from RM5 to RM12.

The KLSE entered into a new milestone in 2002 when the Minister of Finance gave his approval for the KLSE to proceed with the demutualisation of the exchange. The listing of the demutualised exchange is targeted by the end of 2003 and the demutualisation is expected to further increase its efficiency, accountability and transparency.

In March 2003, Deputy Prime Minister Dato' Seri Abdullah Haji Ahmad Badawi announced 10 measures intended to enhance the Malaysian Capital Market specifically in areas of investor participation, liquidity, efficiency of capital raising process, value of Government linked companies and intermediation. The specific measures to enhance investor participation include capping of stamp duty for all securities trading on the KLSE to RM200 per contract and standardisation of board lot sizes of securities traded on the KLSE to 100 units. The new standard board lots will make securities more affordable to a larger sector of the investing public as well as enhancing the shareholding spread of securities. All the measures announced are expected to benefit investors, stock broking companies and listed as well as to-be-listed companies in the medium to long term.

FINANCIAL HIGHLIGHTS AND REVIEW OF OPERATION

For the financial year ended 31 December 2002, the Group reported consolidated revenue and pre-tax loss of RM56.14 million and RM18.24 million respectively compared to consolidated revenue and pre-tax loss of RM75.64 million and RM49.40 million respectively in 2001. The decline in consolidated revenue was due to the divestment and voluntary winding-up of several subsidiaries during the preceding year. After adjustment for these subsidiaries, the consolidated revenue of the Group for 2002 would be RM8.5 million higher than that of 2001. The reduction in consolidated pre-tax loss for the period under review was mainly due to lower provision for diminution in value of investments.

Pan Malaysia Capital Berhad, ("PM Capital"), a 73.9% subsidiary of the Company, represents the financial services division which comprises mainly stockbroking operations, corporate advisory services, asset management and trading in derivatives products. PM Capital recorded a pre-tax loss of RM9.82 million on the back of RM16.74 million revenue for the year under review compared to pre-tax loss and revenue of RM42.79 million and RM7.45 million respectively in 2001. The increase in revenue was mainly due to the higher trading value and activities on the KLSE and the opening of additional branches and Electronic Access Facility ("EAF") as well as the commencement of corporate advisory activities by PM Securities Sdn Bhd ("PM Securities"). The improvement in pre-tax loss was mainly due to the absence of provision for diminution in value of unquoted shares and impairment losses of property, plant and equipment, lower provision for diminution in value of marketable securities and to a lesser extent the increased business activities.

As at 31 December 2002, PM Securities is one of the 6 Universal Brokers in Malaysia. In addition to its main office in Kuala Lumpur, PM Securities has six branch offices located in Seremban, Puchong, Penang, Johor Bahru, Melaka and Klang. PM Securities also set up an EAF in Kuala Klawang, Jelebu, Negeri Sembilan during the year under review. Subsequently, PM Securities set up its second and third EAF in Batu Pahat, Johor and in Segamat, Johor on 20 February 2003 and 18 April 2003 respectively.

In order to enable its clients to take full advantage of the convenience offered by information technology, PM Securities launched its website <u>www.pmlink2u.com</u> in 2002. In addition to offering online trading facility, the website also provides in-house research as well as relevant and accurate market and corporate information on a timely manner.

For the first nine months in 2002, Pan Malaysia Travel & Tours Sdn Bhd ("PM Travel"), a 80% owned subsidiary of the Company, performed satisfactorily. However, the performance of PM Travel in the fourth quarter 2002 was adversely affected by cancellations subsequent to the Bali bombing incident in October 2002. Despite a very difficult operating environment in the fourth quarter, PM Travel managed to maintain its revenue at RM31.32 million in 2002 and remained profitable. During the year under review, PM Travel relocated its office to MUI Plaza which offers a better strategic location and convenience for its clients.

Pengkalen Holiday Resort Sdn Bhd which owns and operates the 201 room Paradise Corus resort in Port Dickson performed satisfactorily with improved average room rates and sustained gross operating profit. The encouraging performance was due to the combination of the Government's efforts in promoting tourism in the country as well as more aggressive marketing strategies of Corus.

CORPORATE DEVELOPMENTS

The KLSE, via a letter dated 26 October 2002, approved the Company's application for extension of time up to 31 December 2004 to regularise the Group's financial condition. In the meantime, the Company will continue to be classified under the PN4 Condition sector until its financial condition no longer triggers the criteria specified in Practice Note No. 4 issued by the KLSE. Barring any unforeseen circumstances, the financial condition of the Group will be regularised by December 2004 upon the conversion of the irredeemable convertible preference shares of

PM Capital and the exchange of the redeemable exchangeable preference shares of Pan Malaysia Equities Sdn Bhd into new ordinary shares of PM Capital.

OUTLOOK FOR 2003

The concerns over global economic outlook, the outbreak of the atyptical pneumonia virus which causes Severe Acute Respiratory Syndrome ("SARS") and the US-Iraq war aftermath may have a dampening effect over the domestic economic growth in 2003. Nonetheless, the gradual recovery in the global electronics industry, firm commodity prices and stronger intra-regional trade together with sustained domestic demand are expected to drive the real Malaysian Gross Domestic Product growth in 2003.

Investor sentiment on the KLSE for the first half of 2003 will be affected by the continued tensions in the Middle East, the effects of SARS and the uncertain global economic environment. However, bargain hunting activities by local institutions including ValueCap Sdn Bhd are expected to cushion the KLCI against any short term drastic negative sentiment. Against this backdrop, the KLCI is envisaged to remain range bound in the first half of 2003 but is expected to resume an uptrend in the second half when investors shift their focus to the improving domestic economic fundamentals and the capital market enhancement measures announced by the Deputy Prime Minister in March 2003.

With the expectation of slower business activities in the first half of 2003, PM Securities will take this opportunity to further strengthen its supporting functions and to explore and implement expansion programmes as a Universal Broker. PM Securities will also focus on enhancing its corporate advisory activities to earn more fee based income. With a strengthened foundation, PM Securities is confident to reap the benefits when the business activities begin to pick up in the second half of 2003. Barring any unforeseen circumstances, the financial services division of the Group is cautiously optimistic to report an improved performance in 2003.

In view of the global economic uncertainties, effects of SARS and continued tensions in the Middle East, the trading environment for the hotel and travel business is envisaged to be very challenging. However, the hotel and travel division will draw on the global hotel and travel networking of The MUI Group to secure the competitive edge in business.

In accordance with Section 129(2) of the Companies Act, 1965, Dato' Abdul Aziz bin Ahmad, Dato' Rastam bin Abdul Hadi and Mr Yong Ming Sang retire from the Board at the forthcoming Annual General Meeting, and the Directors recommend their re-appointment under Section 129(6) of the said Act.

In accordance with Article 111 of the Company's Articles of Association, Dato' Choong Kok Min retires from the Board at the forthcoming Annual General Meeting, and he being eligible, offers himself for reelection.

Since the end of the previous financial year, no Director has received or become entitled to receive any benefits (other than benefits as disclosed in the financial statements) by reason of a contract made by the Company or a related corporation with the Director, or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest other than remuneration received by certain Directors as directors of related companies.

Neither at the end of the financial year, nor at any time during the financial year, did there subsist any arrangements, to which the Company is a party, whereby Directors might acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate except for Dato' Choong Kok Min who has been purportedly granted options to subscribe for 500,000 ordinary shares of RM1.00 each at an exercise price of RM3.02 per share pursuant to the Executive Share Option Scheme of the Company. The validity of the options granted has been challenged in the Kuala Lumpur High Court Civil Suit No. D2-22-337-1996. The case has now been fixed for further case management on 2 July 2003.

Share Options

Pursuant to the Company's Executive Share Option Scheme ("ESOS" or "Scheme") which was approved by the shareholders on 12 October 1994 and revised on 29 September 1995, options for a total of 19,553,000 ordinary shares of the Company have been purportedly granted to eligible executive employees of the Group. However, the validity of the options granted has been challenged in the Kuala Lumpur High Court Civil Suit No. D2-22-337-1996. The case has now been fixed for further case management on 2 July 2003.

The details of the ESOS are contained in the Bye-Laws and the salient features thereof are as follows:-

- (a) The Scheme is set up for participation in the ordinary share capital of the Company only. The total number of shares offered under the ESOS shall not exceed 10% of the total number of the issued and paid-up ordinary shares of the Company at any time during the duration of the Scheme.
- (b) Eligible executives are those who have been employed full-time by any company within the Group for at least three (3) years prior to the date of offer of the option under the ESOS, and includes any full-time salaried executive Director of any company within the Group.
- (c) The ESOS was in force for a duration of five (5) years and expired on 27 October 2000.
- (d) The Scheme shall be administered by a Committee appointed by the Board and comprised Directors of the Company who are not participating in the ESOS.
- (e) An option granted under the ESOS shall be capable of being exercised by the grantee at any time within the period of five (5) calendar years from the date of offer of the option or such shorter period as may be specifically stated in such offer but not beyond 27 October 2000, by notice in writing to the Company. The option granted shall be exercisable by the grantee in multiples of not less than 1,000 shares.

- (f) The persons to whom the options are granted under the Scheme shall not be entitled to participate in any other share option schemes of any other company within the Group.
- (g) The exercise price for each RM1.00 ordinary share under the Scheme shall be the average of the mean market quotation of the shares as quoted and shown in the Daily Official List issued by the Kuala Lumpur Stock Exchange for the five (5) preceding market days prior to the date of offer or at the par value of the shares of the Company, whichever is higher.
- (h) In the event of any alteration in the capital structure of the Company during the option period, corresponding alterations (if any subject to the provisos as stated in the Bye-Laws) shall be made in:-
 - (i) the number of shares relating to the option so far as unexercised;
 - (ii) the exercise price for the option; and
 - (iii) the terms of exercise of the option.

During the period from the expiry of the Scheme on 27 October 2000 to the end of the financial year, there has been no change in the position of the Company's unissued ordinary shares of RM1.00 each under options which have purportedly been granted as shown below:-

	Number of shares			
	<i>Balance on</i> <i>expiry of</i> <i>the Scheme</i> <i>on 27.10.2000</i>	Granted	Exercised	Balance as at 31.12.2002
Number of unissued ordinary shares under options which have purportedly been granted	16,465,000	_	_	16,465,000

To the best of the Directors' knowledge, on expiry of the Scheme on 27 October 2000, the number of unissued ordinary shares under the options which have purportedly been granted and their exercise prices per share were:-

Number of unissued ordinary shares under options	Exercise price per share RM
10,000	2.57
4,597,000	3.02
11,571,000	3.09
287,000	3.14
16,465,000	

In the event the Court finds that the options have been validly granted, the paid-up share capital of the Company will be increased accordingly.

Other Statutory Information

- (a) In the opinion of the Directors:-
 - (i) the results of the operations of the Group and of the Company during the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature other than as disclosed in Note 7.1 to the financial statements;

- (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group or of the Company for the financial year in which this report is made; and

 - (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate provision had been made for doubtful debts; and
 - (ii) to ensure that any current assets which were unlikely to realise their values as shown in the accounting records in the ordinary course of business have been written down to an amount which they might be expected so to realise.
- (c) At the date of this report, the Directors are not aware of any circumstances:-
 - (i) which would render the amount written off for bad debts or the amount of the provision for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; or
 - (ii) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or
 - (iii) which have arisen which would render adherence to the existing methods of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.
- (d) As at the date of this report, there does not exist:-
 - (i) any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; and
 - (ii) any contingent liability in respect of the Group or of the Company which has arisen since the end of the financial year.
- (e) At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.

The Group's financial risk management policy seeks to ensure that adequate financial resources are available for the development of the Group's businesses whilst managing its risks. The Group operates within clearly defined guidelines that are approved by the Board of Directors and the Group's policy is not to engage in speculative transactions.

The main areas of financial risks faced by the Group and the policy in respect of the major areas of treasury activity are set out as follows:-

Foreign Currency Risk

The Group is exposed to foreign currency risk as a result of its normal trading activities, both external and intra-Group where the currency denomination differs from the local currency, Ringgit Malaysia (RM). The Group's policy is to minimise the exposure of overseas operating subsidiaries to transaction risk by matching local currency income against local currency costs.

The Group is also exposed to foreign currency risk in respect of its borrowings in Sterling Pound. Subject to the approval of Bank Negara Malaysia, the lending financial institution has approved to convert the Sterling Pound borrowings into Ringgit Malaysia borrowings. The conversion is pending the approval of Bank Negara Malaysia.

Credit Risk

The Group has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis to ensure that the Group is exposed to minimal credit risk. Term and call deposits and bank balances are placed with major financial institutions.

Market Risk

The Group's principal exposure to market risk arises mainly from the changes in equity prices. Equity investments classified as current assets are available for sale and the Group manages disposal of its investments to optimise returns on realisation.

Interest Rate Risk

The Group's exposure to interest rate risk arises mainly from the Group's borrowings and deposits, and is managed through the use of fixed and floating rate debts, and term and call deposits.

Liquidity and Cash Flow Risks

The Group seeks to achieve a balance between certainty of funding and a flexible, cost-effective borrowing structure. This is to ensure that the projected net borrowing needs are covered by committed facilities. Also, the objective for debt maturity is to ensure that the amount of debt maturing in any one year is within the Group's means to repay and refinance.

4. Basis Of Preparation Of Financial Statements

5. Significant Accounting Policies

5.1 Basis of Accounting

The financial statements of the Group and of the Company have been prepared under the historical cost convention unless otherwise indicated in the significant accounting policies and in respect of the Group, also modified to include the revaluation of a landed property.

The preparation of financial statements in conformity with applicable approved accounting standards in Malaysia and the provisions of the Companies Act, 1965 requires the Directors to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

5.2 Basis of Consolidation

Other than those subsidiary companies as disclosed in Note 7.2 to the financial statements, the consolidated financial statements include the financial statements of the Company and all the other subsidiary companies made up to 31 December 2002. Subsidiary companies are consolidated from the date on which control is transferred to the Group and are no longer consolidated from the date that control ceases. Significant inter-company transactions are eliminated on consolidation and the consolidated financial statements reflect external transactions only.

The difference between the purchase price and the fair value of the attributable net assets of subsidiary companies at the date of acquisition represents goodwill or reserve arising on consolidation. Goodwill on consolidation is stated at cost and is written down only when there is impairment losses.

The gain or loss on disposal of a subsidiary company is the difference between the net disposal proceeds and the Group's share of its net assets together with any unamortised balance of goodwill on acquisition and exchange differences which were not previously recognised in the consolidated income statement.

Minority interest is measured at the minorities' share of net results and of net assets of subsidiary companies attributable to interests which are not owned, directly or indirectly through subsidiary companies, by the Company.

5.3 Intangible Assets

Intangible assets relate to cost incurred on acquisition of stockbroking licences to enable the stockbroking subsidiary company to fulfil the requisite criteria of a "Universal Broker". Intangible assets are stated at cost less impairment losses, if any.

5.4 Property, Plant and Equipment and Depreciation

The gross carrying amounts of property, plant and equipment are initially measured at cost. Land and buildings which have been subsequently revalued are stated at valuation less accumulated depreciation and impairment losses, if any. All other property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any.

Freehold land is not depreciated. Leasehold land is amortised over the lease period of 91 and 92 years.

Other property, plant and equipment are depreciated on a straight line method to write off the cost or valuation of the assets over their estimated useful lives. The principal annual depreciation rates are as follows:-

Buildings	2% - 2.5%
Plant and machinery	5% - 10%
Office equipment	10% - 20%
Furniture and fittings	10% - 20%
Renovation	10% - 20%
Motor vehicles	20%

5.5 Foreign Currencies

(i) Transactions in foreign currencies

Transactions in foreign currencies are converted into Ringgit Malaysia at rates of exchange prevailing on transaction dates. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated into Ringgit Malaysia at rates of exchange prevailing at that date. All gains and losses are included in the income statements.

(ii) Translation of foreign currency financial statements

In the consolidated financial statements, assets and liabilities of overseas subsidiary companies are translated at exchange rates ruling at the balance sheet date. Income statements items are translated at average exchange rates for the financial year. All exchange differences arising are dealt with through the exchange fluctuation reserve account.

The closing rates used in the translation of foreign currencies are as follows:-

	2002 RM	2001 RM
1 US Dollar	3.800	3.800
1 Sterling Pound	6.093	5.500
1 Singapore Dollar	2.192	2.050
1 Australian Dollar	2.153	1.934
1 Hong Kong Dollar	0.487	0.487
100 Rupiah	0.042	0.034

Deferred taxation is provided for under the liability method in respect of all material timing differences except where it can be demonstrated with reasonable probability that the tax deferrals will continue in the foreseeable future. Deferred tax benefits are recognised only when there are reasonable assurance of their realisation.

5.7 Investments

(i) Subsidiary companies

A subsidiary company is a company in which a group has power to exercise control over the financial and operating policies so as to obtain benefits from its activities.

(ii) Associated companies

An associated company is a company in which the Group has a long term equity interest of between 20% to 50% and where the Group is in a position to exercise significant influence over the financial and operating policies of the investee company.

Investment in associated companies is stated at cost less impairment losses, if any.

Investment in associated companies is accounted for in the consolidated financial statements using the equity method. The Group's interests in associated companies are stated at cost plus adjustments to reflect changes in the Group's share of profits and losses in the associated companies.

Goodwill or negative goodwill arising on acquisition represents the difference between the cost of investment and the Group's share of the value of net assets of the associated companies at the date of acquisition.

The Group's share of results and reserves in the associated companies acquired or disposed of are included in the consolidated financial statements from the effective date of acquisition or up to the effective date of disposal.

5.8 Impairment of Assets

The carrying amount of the Group's and Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated and an impairment loss is recognised whenever the recoverable amount is less than the carrying amount of the asset. The impairment loss is recognised in the income statement immediately except for the impairment on a revalued asset where the impairment loss is recognised directly against the revaluation surplus account to the extent of the surplus credited from the previous revaluation for the same asset with the excess of the impairment loss charged to the income statement. All reversals of an impairment loss are recognised as income immediately in the income statement except for the reversal of an impairment loss on a revalued asset where the reversal of the impairment loss is treated as a revaluation increase and credited to the revaluation surplus account of the same asset.

The impairment loss in respect of goodwill is not reversed unless the loss was caused by a specific external event of an exceptional nature that is not expected to recur, and subsequent external events have occurred that reverse the effect of the specific event. In respect of other assets, an impairment loss is reversed if there has been a change in estimates used to determine the recoverable amount.

An impairment loss is only reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

5.9 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average method.

Cost of consumable inventories comprise the original cost of purchase plus the cost of bringing the inventories to their present condition and location.

The cost of finished goods include the cost of raw materials, direct labour and a proportion of appropriate overheads.

5.10 Receivables

Known bad debts are written off and allowance is made for debts where the collectibility is considered doubtful.

For stockbroking subsidiary, specific allowance for doubtful debts is made for trade receivables which have been classified as non-performing, after deducting interest-in-suspense, the value of collateral held and the deposit of and all amounts owing to the dealers representatives. A general allowance based on a percentage of trade receivables is made after deducting specific allowance, to cover possible losses which are not specifically identified. Interest is suspended and credited to the interest-in-suspense account when an account is classified as non-performing. The classification of an account as performing and non-performing for allowance for doubtful debts and the suspension of interest is made in accordance with the Rules of Kuala Lumpur Stock Exchange.

5.11 Assets Acquired Under Hire-Purchase

Assets financed by hire-purchase agreements which in substance transfer the risks and benefits of ownership of the assets to the Group have been capitalised under property, plant and equipment and the corresponding obligations are treated as liabilities. These assets are depreciated on the same basis as that of the Group's assets. The finance charges are allocated to the income statements so as to give a constant periodic rate of charge on the remaining hire-purchase liabilities.

5.12 Development Property

Development property comprises cost of land and related development expenditure including interest on borrowings used to finance the project and administrative overheads relating to the project. Development property is written down to its estimated recoverable amount if the development of the project is no longer viable.

5.13 Provision

Provision is recognised when there is a present obligation, legal or constructive, as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

5.16.1 Financial instruments recognised on the balance sheets:-

a) Redeemable convertible bond ("Bond")

The redeemable convertible bond is convertible up to 1,000,000 new ordinary shares of RM1.00 each of Pan Malaysia Capital Berhad within a five (5) years period to 28 December 2004 or redeemable for cash at maturity date on 29 December 2004 at the issue price. As the Bond is redeemable on 29 December 2004, it is classified as liability. No coupon rate is attached to and no interest is payable on the Bond.

- b) The accounting policies for financial instruments other than those stated in 5.16.1 (a) are disclosed in the individual policies associated with each item.
- 5.16.2 Disclosures of fair values

The fair values of the financial assets and liabilities maturing within 12 months are stated at approximately the carrying value as at the balance sheet date.

The fair values of quoted investments other than quoted investments in a subsidiary company are estimated based on quoted market prices. For investments for which there are no quoted market prices, a reasonable estimate of fair value could not be made without incurring excessive costs. Therefore, such investments are valued at cost subject to review for impairment.

The fair value of quoted investment in a subsidiary company is based on its recoverable amount by reference to its value in use.

The fair value of the term loans from a related company is estimated based on the current market rates offered for loans of the similar nature.

The fair value of the redeemable convertible bond is estimated based on its discounted cash flow using the current market rate offered to the Group for borrowings of the similar remaining maturity.

The fair values of other term loans are estimated based on the quoted market prices for the same or similar issues or on the current rates offered to the Group for loans of the same remaining maturities.

As at 31 December 2002, a landed property of the Group is carried at revalued amount based on valuation made by independent professional valuers on open market value basis in 1993. The valuation has not been updated as the Group has not adopted a policy of regular revaluation.

Had the said asset been carried at cost less accumulated depreciation, the carrying amount would have been:-

	2002 RM'000	2001 RM'000
Cost	727	727
Less: Accumulated depreciation	(53)	(46)
Net book value	674	681

The net book value of property, plant and equipment pledged to financial institutions for banking facilities amounted to RM71,643,902 (2001 : RM72,892,466) for the Group and RM32,566,242 (2001 : RM33,092,211) for the Company.

The net book value of plant and machinery and other assets acquired under hire-purchase arrangements amounted to RM42,295 (2001 : RM10,819) and Nil (2001 : RM10,818) for the Group and for the Company respectively.

The subsidiary companies are listed in Note 46 to the financial statements.

As at 31 December 2002, the market value of an investment in a subsidiary company based on the market value of its quoted shares has declined significantly due to the prevailing weak equity prices on the Kuala Lumpur Stock Exchange ("KLSE"). In 2002, the equity prices were adversely affected, inter-alia, by the economic uncertainties and corporate governance malpractices in United States and the Iraq-United States conflict. 41. Contingent Liabilities

Group and Company

(i) Unsecured

(a) On 13 September 1995, Wakefield Nominees Ltd ("WNL"), which is incorporated in Hong Kong, presented a petition to the Supreme Court of Bermuda against the Company and AGA Holdings Ltd ("AGA") in which the Company allegedly has a 35% equity interest. WNL has petitioned to seek for compensation in respect of the dilution of its interest in AGA and Central Reinsurance Limited ("CRL"), a subsidiary company of AGA.

Consequent to the petition described above, Receivers and Managers have been appointed by the court to AGA and the Receivers and Managers have further petitioned and obtained an order to liquidate CRL.

The Company's solicitors are of the considered opinion that based upon available evidence, the Company has a valid defence to the petition.

(b) A suit was filed on 17 May 1996 in the High Court of Kuala Lumpur by Loyal Design Sdn Bhd ("LDSB"), a wholly-owned subsidiary of Malayan United Industries Berhad ("MUI"), against the Company and all its then existing directors for breach of directors' duties in conducting the affairs of the Company during the period involved with the takeover offer by MUI through LDSB in respect of the Company. The suit also seek to declare, inter-alia, that various options granted by the Company under the Company's Executive Share Option Scheme are void.

The case has now been fixed for further case management on 2 July 2003. The Company's solicitors are of the opinion, based on the documents available, that LDSB's chance of success on the claim is good.

43. Segment Information (Cont'd)

b) Geographical segments

As the Group's operation is predominantly in Malaysia, no segmental information is presented on geographical segments.

44. Significant Events

(i) Schemes of Arrangement

The schemes of arrangement of the Company and certain of its subsidiary companies ("Scheme"), which were implemented on 29 December 1999 have been completed except for settlement with three scheme creditors.

As at 29 December 2001, a total of up to 5,184,238 irredeemable convertible preference shares ("ICPS") could not be issued by the Company to two scheme creditors to settle the indebtedness due to them pursuant to the Scheme. This is because they had either not provided to the Company within the relevant time frame the relevant Central Depository System details required for the allotment and issue of the ICPS or had not finalised and submitted their claim on the amount of indebtedness. It remains the intention of the Company to settle all indebtedness pursuant to the Scheme and as such, the Directors proposed the direct issuance of up to 5,184,238 new ordinary shares of RM1.00 each at an issue price of RM1.00 per share to these two scheme creditors in substitution of the issuance of up to 5,184,238 ICPS of the Company as proposed earlier in the Scheme ("Proposed Share Issue"). The Securities Commission ("SC") has on 23 October 2002 approved the Proposed Share Issue.

(ii) Special Issue to Bumiputera Investors

In respect of the Company's special issue of 75,270,000 new ordinary shares of RM1.00 each at an issue price of RM1.00 per share to Bumiputera investors ("Special Issue") to be approved by the Ministry of International Trade and Industry, the SC on 6 September 2002, approved a final extension to 30 June 2003 for the Company to implement the Special Issue subject to the Company's obtaining the approval from the Foreign Investment Committee ("FIC") to extend the period to implement the Special Issue to 30 June 2003. Upon the Company's application for the said extension, the FIC approved an extension to 31 December 2003 for the Company to implement the Special Issue.

(iii) Private Placement to Bumiputera Investors

On 4 July 2002, the SC approved a final extension of 12 months to 30 June 2003 for PM Capital to implement the private placement to Bumiputera investors of up to 25,308,713 new ordinary shares of RM1.00 each representing approximately 10% of the issued and paid-up ordinary share capital of PM Capital, at an issue price of up to 15% discount based on the 5-day weighted average market price of the ordinary shares on a date to be determined later, subject to a minimum of the par value of RM1.00 per share.

44. Significant Events (Cont'd)

(iv) Continuing Exercise to Divest and Wind-up Non-Core Businesses

Fibercorp (Sarawak) Sdn Bhd and Cocoa Specialities (Malaysia) Sdn Bhd were placed under members' voluntary winding-up on 9 January 2002 and creditors' voluntary winding-up on 28 June 2002 respectively. The winding-up of these dormant and inactive subsidiary companies has resulted in a surplus of approximately RM1.22 million to the Group.

(v) Universal Broker Status for PM Securities Sdn Bhd ("PM Securities")

On 11 June 2002, the SC approved PM Securities to operate as a Universal Broker subject to the conditions set out in the Dealer's licence that was issued to PM Securities. With this approval, PM Securities is now able to offer clients a more comprehensive scope of services which would include corporate advisory services, asset management and trading in derivatives.

During the financial year, PM Securities has opened four new branches in Penang, Johor Bahru, Melaka and Klang and an Electronic Access Facility in Jelebu, Negeri Sembilan.

(vi) Other Corporate Developments

- (a) The SC has on 4 July 2000 approved the utilisation of RM25.92 million being part of the Company's rights issue proceeds to acquire ICPS in PM Capital from the open market. The Company has utilised fully the said RM25.92 million to acquire 80,627,000 ICPS in PM Capital.
- (b) On 7 January 2002, the Company purchased 71,000 ordinary shares of RM1.00 each of PM Capital from the open market for a consideration of RM43,896 which was funded by internal funds. The Company's interest in the total issued and paid up ordinary shares capital of PM Capital has increased accordingly from 73.86% to 73.89%.
- (c) The agreement with Lai Sun Development Company Limited ("Lai Sun") for the acquisition of 800,000 ordinary shares of RM1.00 each representing 10% of the total issued and paid-up share capital of Pengkalen Holiday Resort Sdn Bhd ("PHR") from Lai Sun for a cash consideration of RM1.00 and the acceptance by the Company of the assignment of RM2.47 million debt owing to Lai Sun by PHR after interest waived of RM0.73 million for a cash consideration of RM0.55 million was completed on 2 April 2002. PHR is now a wholly-owned subsidiary of the Company. The said completion has resulted in a gain of RM1.92 million and RM2.65 million to the Company and Group respectively.
- (d) On 10 May 2002 and 2 October 2002 respectively, Pan Malaysia Equities Sdn Bhd has redeemed from PM Securities its 10,637,588 and 2,000,000 of its redeemable non-convertible preference shares of RM1.00 each by cash.
- (e) On 26 September 2002, Pan Malaysia Travel & Tours Sdn Bhd ("PMTT"), a 80% owned subsidiary of the Company has acquired two (2) ordinary shares of RM1.00 each representing the entire issued and paid-up share capital of Destiny Aims Sdn Bhd ("DASB") for cash consideration of RM2.00, resulting in DASB becoming a wholly-owned subsidiary of PMTT.

44. Significant Events (Cont'd)

- (f) Following the distribution of assets of GCIH (Singapore) Pte Ltd, a 64.82% owned subsidiary company of GCIH Property Limited ("GCIH Property"), which in turn is a 84.12% owned subsidiary company of the Group, the entire share capitals of Anglo Pacific Corporation (Malaysia) Sdn Bhd and Upali Group Sdn Bhd have been transferred to GCIH Property on 23 July 2002. Consequently, these companies become wholly-owned subsidiaries of GCIH Property.
- (g) Subsequent to the holding of their final meetings on 26 July 2002 and the lodgement by their liquidator of the returns of holding of the final meetings ("Form 69") on 31 July 2002, the following subsidiary companies which were under voluntary winding-up were dissolved on 1 November 2002 pursuant to Section 272(5) of the Companies Act, 1965:-

 - 3. Fiberoptik (Sabah) Sdn Bhd
