### **BACKGROUND INFORMATION**

FFM Group diversified downstream into broiler breeding and production of eggs with the incorporation of FFM Farms Sdn Bhd.

FFM Farms owns two breeder farms in Sua Betong, Negeri Sembilan and Gurun, Kedah covering a total area of 167 hectares, producing high quality day-old chicks. These chicks are sold to farmers who rear them to a market weight of approximately 2kg. The two farms can rear up to 350,000 Parent Stock chickens, capable of producing 2.65 million premium quality chicks every month through a combination of good farming practices, hatchery management and the usage of good breeds. FFM Farms supplies 6.7% of the local requirements of day-old-chicks.

FFM Farms has a layer farm in a 550-acre land at Trong, Perak with a production capacity of 20 million eggs a month which are sold under the "Seri Murni" label. FFM Farms supplies about 2.5% of the local egg consumption.

FFM Farms also produces organic fertiliser under the label "Origanic" using pure chicken manure that has been completely composted into a near odourless plant food.
