Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

1. CORPORATE INFORMATION

The principal activity of the Company is that of investment holding. As stated in Note 8, one of the subsidiary had ceased operation in a prior year whereas the other subsidiary is dormant. There have been no significant changes in the nature of these activities during the financial year.

The Company is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Second Board of the Bursa Malaysia Securities. The registered office of the Company is located at Lot 5428-5429, Block 16, KCLD, Lorong Lapangan Terbang Baru 1, 93350 Kuching, Sarawak.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the directors dated 7 July 2008.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Fundamental Accounting Concept

Presently, the Group has no business operation. This indicate the existence of a material uncertainty which may cast significant doubt on the Group's and the Company's ability to continue as a going concern. As disclosed in Note 14 to the financial statements, the Company has proposed a new corporate restructuring scheme. The ability of the Group and the Company to continue as a going concern is dependent on the successful completion and implementation of the proposed new corporate restructuring scheme.

If the Group and the Company is unable to continue in operational existence for the foreseeable future, the Group and the Company may be unable to realise its assets and discharge its liabilities in the normal course of business. The financial statements of the Group and of the Company do not include any adjustments relating to the recoverability and classification of asset amounts or to amounts and classification of liabilities that may be necessary should the Group and the Company be unable to continue as a going concern.

2.2 Basis of Preparation

The financial statements comply with the provisions of the Companies Act, 1965 and applicable Financial Reporting Standards in Malaysia. At the beginning of the current financial year, the Group and the Company had adopted new and revised FRSs which are mandatory for financial periods beginning on or after 1 April 2007 as described fully in Note 2.4.

The financial statements are presented in Ringgit Malaysia (RM).

2. Significant Accounting Policies (cont'd)

2.3 Summary of Significant Accounting Policies

(a) Subsidiaries and Basis of Consolidation

(i) Subsidiaries

Subsidiaries are entities over which the Group has the ability to control the financial and operating policies so as to obtain benefits from their activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group has such power over another entity.

In the Company's separate financial statements, investments in subsidiaries are stated at cost less impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in profit or loss.

(ii) Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the balance sheet date. The financial statements of the subsidiaries are prepared for the same reporting date as the Company.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. In preparing the consolidated financial statements, intragroup balances, transactions and unrealised gains or losses are eliminated in full. Uniform accounting policies are adopted in the consolidated financial statements for like transactions and events in similar circumstances.

Acquisitions of subsidiaries are accounted for using the purchase method. The purchase method of accounting involves allocating the cost of the acquisition to the fair value of the assets acquired and liabilities and contingent liabilities assumed at the date of acquisition. The cost of an acquisition is measured as the aggregate of the fair values, at the date of exchange, of the assets given, liabilities incurred or assumed, and equity instruments issued, plus any costs directly attributable to the acquisition.

Any excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities represents goodwill. Any excess of the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition is recognised immediately in profit or loss.

Minority interests represent the portion of profit or loss and net assets in subsidiaries not held by the Group. It is measured at the minorities' share of the fair value of the subsidiaries' identifiable assets and liabilities at the acquisition date and the minorities' share of changes in the subsidiaries' equity since then.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**2.3 Summary of Significant Accounting Policies (cont'd)****(b) Intangible Asset****Goodwill**

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost of business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities. Following the initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is not amortised but instead, it is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

(c) Property, Plant and Equipment and Depreciation

All items of property, plant and equipment are initially recorded at cost. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefit associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Subsequent to recognition, property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation of property, plant and equipment is provided for on a straight line basis to write off the cost of each asset to its residual value over its estimated useful life, at the annual rates ranging from 10% to 33%.

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any and the net carrying amount is recognised in profit or loss.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

(d) Impairment of Non-financial Assets

The carrying amounts of assets, other than inventories and deferred tax assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated to determine the amount of impairment loss.

For goodwill, intangible assets that have an indefinite useful life and intangible assets that are not yet available for use, the recoverable amount is estimated at each balance sheet date or more frequently when indicators of impairment are identified.

For the purpose of impairment testing of these assets, recoverable amount is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, recoverable amount is determined for the cash-generating unit (CGU) to which the asset belongs to. Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's CGUs, or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the unit or groups of units on a pro-rata basis. An impairment loss is recognised in profit or loss in the period in which it arises.

Impairment loss on goodwill is not reversed in a subsequent period. An impairment loss for an asset other than goodwill is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of impairment loss for an asset other than goodwill is recognised in profit or loss.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**2.3 Summary of Significant Accounting Policies (cont'd)****(e) Financial Instruments**

Financial instruments are recognised in the balance sheet when the Group has become a party to the contractual provisions of the instrument.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. Interest, dividends, gains and losses relating to a financial instrument classified as a liability, are reported as expense or income. Distributions to holders of financial instruments classified as equity are recognised directly in equity. Financial instruments are offset when the Group has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

(i) Cash and Cash Equivalents

For the purposes of the cash flow statements, cash and cash equivalents include cash on hand and at banks and deposit at call and short term highly liquid investments which have an insignificant risk of changes in value.

(ii) Receivables

Receivables are carried at anticipated realisable values. Bad debts are written off when identified. An estimate is made for doubtful debts based on review of all outstanding amounts as at the balance sheet date.

(iii) Payables

Payables are stated at cost which is the fair value of the consideration to be paid in the future for goods and services received.

(iv) Equity Instruments

Ordinary shares are classified as equity. Dividend on ordinary shares are recognised in equity in the period in which they are declared.

(f) Income Tax

Income tax on the profit or loss for the year comprises current and deferred tax. Current tax is the expected amount of income taxes payable in respect of the taxable profit for the year and is measured using the tax rates that have been enacted at the balance sheet date.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**2.3 Summary of Significant Accounting Policies (cont'd)****(f) Income Tax (cont'd)**

Deferred tax is provided for, using the liability method. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. Deferred tax is not recognised if the temporary difference arises from goodwill or negative goodwill or from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax is recognised as income or an expense and included in the profit or loss for the period, except when it arises from a transaction which is recognised directly in equity, in which case the deferred tax is also recognised directly in equity, or when it arises from a business combination that is an acquisition, in which case the deferred tax is included in the resulting goodwill or the amount of any excess of the acquirer's interest is the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the cost of the combination.

g) Employee Benefits**(i) Short term benefits**

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(ii) Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities or funds and will have no legal or constructive obligation to pay further contributions if any of the funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current and preceding financial years. Such contributions are recognised as an expense in the profit or loss as incurred. As required by law, companies in Malaysia make such contributions to the Employees Provident Fund ("EPF").

Director related companies refer to companies in which a director, Tan Sri Dato' Paduka (Dr) Ting Pek Khiing, has substantial financial interests. In the financial year 2003, an advance of RM7.43 million was given to Ekran Berhad. The directors are of the opinion that even though the advance given to Ekran Berhad contravenes Section 133A of the Companies Act, 1965, under the circumstances, the advance was necessary to address the short term needs of Ekran Berhad. No provision for doubtful debts has been made for the advance given to Ekran Berhad as the directors are confident of the recovery upon completion of the Company's new restructuring scheme, of which the status is disclosed in Note 14. The amount due from Ekran Berhad is unsecured, bears nil interest (2007: Nil) and has no fixed term of repayment.

The Company waived the interest charge of 3.5% per annum on the outstanding amount of RM6,486,893 due from Ekran Berhad in consideration for a waiver of the annual charge of RM250,000 by Ekran Berhad on the Company in respect of reimbursement of expenses incurred by Ekran Berhad on behalf of the Company relating to staff cost for accounting, corporate finance, secretarial and administrative works, use of office as registered and correspondence address as well as printing and stationery cost with effect from 1 April 2004.

The amounts due from subsidiaries are unsecured, interest free and have no fixed terms of repayment.

As at balance sheet date, the Group has a significant concentration of credit risk that may arise from exposure to a single debtor representing approximately 99% (2007: 99%) of the total other receivables.

14. SIGNIFICANT AND SUBSEQUENT EVENTS

Following the disposal of its timber rights in 2001 and the absence of other revenue generating activities, the Company became classified as an affected listed issuer pursuant to Paragraph 2.1 of Practice Note 10 ("PN 10") of the Bursa Malaysia Securities Berhad ("BMSB").

On 16 July 2003, in connection with the proposed corporate restructuring, the Company had entered into four separate conditional agreements with Bintang Mover Bhd. ("BMB") and the respective vendors of Bintang Bulk Movers Sdn. Bhd. ("BBMSB"), Agenda Wira Sdn. Bhd. ("AWSB"), Jitu Transport Sdn. Bhd. ("JTSB") and Panglima Klasik Sdn. Bhd. ("PKSB") as follows:

- (i) proposed share exchange of 42,000,000 ordinary shares of RM1.00 each in PWE held by the existing shareholders of PWE with 19,764,000 new ordinary shares of RM0.50 each in BMB on the basis of approximately forty seven (47) new BMB Shares for every one hundred (100) PWE Shares held at a date to be determined later by the Board of Directors of PWE, pursuant to a scheme of arrangement between PWE, BMB and the existing shareholders of PWE under Section 176(1) of the Act;
- (ii) proposed settlement and compromise of the shortfall in the profit guaranteed by and receivable from Equatorial Timber Marketing Sdn. Bhd. ("ETM"), a company in which Tan Sri Dato' Paduka (Dr) Ting Pek Khiing ("TPK"), a Director and substantial shareholder of PWE has interest and directorship, amounting to RM6,978,359 pursuant to the Profit Guarantee Agreement dated 26 March 1997 executed between ETM and PWE, by way of issuance of 34,563,536 warrants in BMB to the shareholders of BMB after the Proposed Share Exchange (excluding TPK, his nominees and the two subscriber shareholders of BMB) on the basis of four (4) Warrants for every one (1) BMB Share held after the Proposed Share Exchange;

14. SIGNIFICANT AND SUBSEQUENT EVENTS (cont'd)

(iii) proposed acquisitions by BMB of:

- (a) 1,000,000 BBMSB ordinary shares representing 100% equity interest in BBMSB;
- (b) 120,000 AWSB ordinary shares representing 30% equity interest in AWSB;
- (c) 150,000 JTSB ordinary shares representing approximately 3.69% equity interest in JTSB;
- (d) 500,000 PKSB ordinary shares representing approximately 45.98% equity interest in PKSB;

from the respective vendors of these companies for an aggregate purchase consideration of RM100.0 million to be satisfied by way of issuance of:

- (aa) 114,000,000 new ordinary shares of RM0.50 each in BMB at an issue price of RM0.50 per BMB Share;
- (bb) 64,000,000 new Irredeemable Convertible Preference Shares of RM0.10 each ("ICPS") at the issue price of RM0.50 per ICPS; and
- (cc) RM11,000,000 nominal value of Redeemable Convertible Unsecured Loan Stocks ("RCULS") at 100% of the nominal value of the RCULS.

On 21 January 2008, the Company had received a letter from BBMSB stating that it no longer intends to participate in the implementation of the above proposed acquisitions. Accordingly, BBMSB intends to allow the conditional Sales and Purchase Agreements ("SPA") to lapse as it will not enter into any additional supplemental agreements with the Company and BMB to extend the period for the fulfillment of the conditions precedent under the SPA. In the circumstances, the Company has failed to implement its plan to regularise its level of operations in accordance with paragraph 8.16 of the Listing Requirements and Practice Note No. 10/2001.

Bursa Securities also decided to suspend the trading of the securities of the Company with the effect from 22 February 2008. The Company appealed against the decision. The appeal was rejected and the trading of the securities of the Company was suspended from the Official List of Bursa Securities on 11 March 2008. In addition, Bursa Securities also commenced de-listing procedures against the Company in event that, amongst other, the Company fails to submit a new regulation plan to the SC and other relevant authorities by 14 May 2008.

On 12 May 2008, the Company applied to Bursa Securities to extend the deadline for a period of four months from 13 May 2008 to carry out a new restructuring scheme as follows:

- (a) Proposed capital reduction involving the proposed cancellation of RM0.50 of the par value of the existing ordinary shares of RM1.00 each in PWE ("Proposed Capital Reduction");
- (b) Upon completion of Proposed Capital Reduction, PWE proposed to acquire the entire issued and paid-up capital of Pansar Company Sdn. Bhd. and Pansar Engineering Services Sdn. Bhd. from Pan Sarawak Holdings Sdn. Bhd. ("PHSB") for a total purchase consideration of RM119 million to be satisfied via issuance of 222 million Shares in PWE at an issue price of RM0.50 per share and cash consideration of RM8 million ("Proposed New Acquisitions").

14. SIGNIFICANT AND SUBSEQUENT EVENTS (cont'd)

Accordingly, on 12 May 2008, PWE has entered into a Conditional Sale and Purchase Agreement ("CSPA") with PHSB to effect the Proposed New Acquisitions. Upon the completion of CSPA, PHSB shall:

- (i) entered a deed of novation with several debtors of PWE whereby PHSB will agree to take over and pay to PWE the amount of RM8,983,047. Upon receipt of the full amount from PHSB, PWE shall assign the receivables to PHSB;
- (ii) entered a deed of novation with Equatorial Timber Marketing Sdn. Bhd. whereby PHSB will agree to take over and pay PWE the profit guarantee amount of RM6,978,359. Upon receipt of the full amount from PHSB, PWE shall assign the profit guarantee amount to PHSB;
- (c) Proposed waiver to PHSB and persons acting in concert with it from having to extend a takeover offer for all the remaining shares not already owned by them in PWE after the Proposed New Acquisitions ("Proposed GO Waiver"); and
- (d) Proposed offer of sale/placement of PWE shares to the Malaysian public and/or bumiputra investors by PHSB to regularise the public shareholding/ Bumiputra spread of PWE ("Proposed Offer For Sale").

On 12 June 2008, Bursa Securities rejected the Company's application for extension of time to submit its new regulation plan to Securities Commission. Bursa Securities also gave the notification to the Company to show cause on the delisting of its securities. The Company has appealed against the decision and Bursa Securities has on 1 July 2008 granted an extension of time until 11 July 2008 for PWE to submit its new regulation plan to the Securities Commission and other relevant authorities.

	RM		RM
Shortfall in profit guarantee receivable from the vendor of timber rights	6,978,359		6,978,359

The contingent asset is in respect of the shortfall in profit guarantee for the financial year ended 31 March 1999. The shortfall is receivable from Equatorial Timber Marketing Sdn. Bhd., the vendor of the timber rights, a company in which a director, Tan Sri Dato' Paduka (Dr) Ting Pek Khiing, has substantial financial interests. The proposed settlement of the shortfall in the profit guarantee are disclosed in Note 14.

16. FINANCIAL INSTRUMENTS**(a) Financial Risk Management Objectives and Policies**

The Group's financial risk management policy seeks to ensure that adequate financial resources are available for the development of the Group's businesses whilst managing its liquidity and credit risks. The Group does not engage in speculative transactions.

(b) Interest Rate Risk

The Group's primary interest rate risk relates to interest-bearing assets. The investment in financial assets are mainly short term in nature and they are not held for speculative purposes but have been mostly placed in fixed deposits.

The information on maturity dates and effective interest rates of financial assets are disclosed in the respective notes.

(c) Liquidity Risk

The Group actively manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that all refinancing, repayment and funding needs are met. As part of its overall prudent liquidity management, the Group maintains sufficient levels of cash or cash convertible investments to meet its working capital requirements.

(d) Credit Risk

Credit risk, or the risk of counterparties defaulting, is controlled by the application of credit approvals, limits and monitoring procedures. Credit risks are minimised and monitored via strictly limiting the Group's associations to business partners with high creditworthiness. Trade and other receivables are monitored on an ongoing basis via management reporting procedures.

As at balance sheet date, the Group has a significant concentration of credit risk in the form of outstanding balances due from a group of debtors relating to a director of the Company, Tan Sri Dato' Paduka (Dr) Ting Pek Khiing representing approximately 99% and 99% of the trade and other receivables respectively.

(e) Fair Values

The carrying amounts of cash and cash equivalents, trade and other receivables/payables approximate their fair values due to the relatively short term maturity of these financial instruments. It is not practical to estimate the fair value of contingent asset reliably due to the uncertainties of timing, costs and eventual outcome.
