In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. # Notes To The Financial Statements

– 31 March 2010

## 1. CORPORATE INFORMATION

The principal activity of the Company is that of investment holding. As stated in Note 8, one of the subsidiary had ceased operation in a prior year whereas the other subsidiary is dormant. There have been no significant changes in the nature of these activities during the financial year.

The Company is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Second Board of the Bursa Malaysia Securities. The registered office of the Company is located at Lot 5428-5429, Block 16, KCLD, Lorong Lapangan Terbang Baru 1, 93350 Kuching, Sarawak.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the directors dated 30 July 2010.

## 2. SIGNIFICANT ACCOUNTING POLICIES

### 2.1 Fundamental Accounting Concept

Presently, the Group has no business operation. This indicate the existence of a material uncertainty which may cast significant doubt on the Group's and the Company's ability to continue as a going concern. As disclosed in Note 14 to the financial statements, the Company has proposed a new corporate restructuring scheme. The ability of the Group and the Company to continue as a going concern is dependent on the successful completion and implementation of the proposed new corporate restructuring scheme.

If the Group and the Company is unable to continue in operational existence for the foreseeable future, the Group and the Company may be unable to realise its assets and discharge its liabilities in the normal course of business. The financial statements of the Group and of the Company do not include any adjustments relating to the recoverability and classification of asset amounts or to amounts and classification of liabilities that may be necessary should the Group and the Company be unable to continue as a going concern.

### 2.2 Basis of Preparation

The financial statements comply with the provisions of the Companies Act, 1965 and Financial Reporting Standards in Malaysia.

The financial statements are presented in Ringgit Malaysia (RM).

### 2.3 Summary of Significant Accounting Policies

#### (a) Subsidiaries and Basis of Consolidation

##### (i) Subsidiaries

Subsidiaries are entities over which the Group has the ability to control the financial and operating policies so as to obtain benefits from their activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group has such power over another entity.

In the Company's separate financial statements, investments in subsidiaries are stated at cost less impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in profit or loss.

## 2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.3 Summary of Significant Accounting Policies (cont'd)

#### (a) Subsidiaries and Basis of Consolidation (cont'd)

##### (ii) Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the balance sheet date. The financial statements of the subsidiaries are prepared for the same reporting date as the Company.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. In preparing the consolidated financial statements, intragroup balances, transactions and unrealised gains or losses are eliminated in full. Uniform accounting policies are adopted in the consolidated financial statements for like transactions and events in similar circumstances.

Acquisitions of subsidiaries are accounted for using the purchase method. The purchase method of accounting involves allocating the cost of the acquisition to the fair value of the assets acquired and liabilities and contingent liabilities assumed at the date of acquisition. The cost of an acquisition is measured as the aggregate of the fair values, at the date of exchange, of the assets given, liabilities incurred or assumed, and equity instruments issued, plus any costs directly attributable to the acquisition.

Any excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities represents goodwill. Any excess of the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition is recognised immediately in profit or loss.

Minority interests represent the portion of profit or loss and net assets in subsidiaries not held by the Group. It is measured at the minorities' share of the fair value of the subsidiaries' identifiable assets and liabilities at the acquisition date and the minorities' share of changes in the subsidiaries' equity since then.

#### (b) Intangible Asset

##### Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost of business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities. Following the initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is not amortised but instead, it is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

*Notes To The Financial Statements (cont'd)* ● ● ●**2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)****2.3 Summary of Significant Accounting Policies (cont'd)****(c) Property, Plant and Equipment and Depreciation**

All items of property, plant and equipment are initially recorded at cost. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefit associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Subsequent to recognition, property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation of property, plant and equipment is provided for on a straight line basis to write off the cost of each asset to its residual value over its estimated useful life, at the annual rates ranging from 10% to 33%.

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any and the net carrying amount is recognised in profit or loss.

**(d) Impairment of Non-financial Assets**

The carrying amounts of assets, other than inventories and deferred tax assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated to determine the amount of impairment loss.

For goodwill, intangible assets that have an indefinite useful life and intangible assets that are not yet available for use, the recoverable amount is estimated at each balance sheet date or more frequently when indicators of impairment are identified.

For the purpose of impairment testing of these assets, recoverable amount is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, recoverable amount is determined for the cash-generating unit (CGU) to which the asset belongs to. Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's CGUs, or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

## 2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.3 Summary of Significant Accounting Policies (cont'd)

#### (d) Impairment of Non-financial Assets (cont'd)

An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the unit or groups of units on a pro-rata basis. An impairment loss is recognised in profit or loss in the period in which it arises.

Impairment loss on goodwill is not reversed in a subsequent period. An impairment loss for an asset other than goodwill is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of impairment loss for an asset other than goodwill is recognised in profit or loss.

#### (e) Financial Instruments

Financial instruments are recognised in the balance sheet when the Group has become a party to the contractual provisions of the instrument.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. Interest, dividends, gains and losses relating to a financial instrument classified as a liability, are reported as expense or income. Distributions to holders of financial instruments classified as equity are recognised directly in equity. Financial instruments are offset when the Group has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

##### (i) Cash and Cash Equivalents

For the purposes of the cash flow statements, cash and cash equivalents include cash on hand and at banks and deposit at call and short term highly liquid investments which have an insignificant risk of changes in value.

##### (ii) Receivables

Receivables are carried at anticipated realisable values. Bad debts are written off when identified. An estimate is made for doubtful debts based on review of all outstanding amounts as at the balance sheet date.

*Notes To The Financial Statements (cont'd)* • • •**2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)****2.3 Summary of Significant Accounting Policies (cont'd)****(e) Financial Instruments (cont'd)****(iii) Payables**

Payables are stated at cost which is the fair value of the consideration to be paid in the future for goods and services received.

**(iv) Equity Instruments**

Ordinary shares are classified as equity. Dividend on ordinary shares are recognised in equity in the period in which they are declared.

**(f) Income Tax**

Income tax on the profit or loss for the year comprises current and deferred tax. Current tax is the expected amount of income taxes payable in respect of the taxable profit for the year and is measured using the tax rates that have been enacted at the balance sheet date.

Deferred tax is provided for, using the liability method. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. Deferred tax is not recognised if the temporary difference arises from goodwill or negative goodwill or from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax is recognised as income or an expense and included in the profit or loss for the period, except when it arises from a transaction which is recognised directly in equity, in which case the deferred tax is also recognised directly in equity, or when it arises from a business combination that is an acquisition, in which case the deferred tax is included in the resulting goodwill or the amount of any excess of the acquirer's interest is the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the cost of the combination.

**(g) Employee Benefits****(i) Short term benefits**

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

## 2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.3 Summary of Significant Accounting Policies (cont'd)

#### (g) Employee Benefits (cont'd)

##### (ii) Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities or funds and will have no legal or constructive obligation to pay further contributions if any of the funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current and preceding financial years. Such contributions are recognised as an expense in the profit or loss as incurred. As required by law, companies in Malaysia make such contributions to the Employees Provident Fund ("EPF").

Bhd. will agree to take over the receivables and pay to the Company as disclosed in Note 14 to the financial statements.

The Group's normal trade credit term ranges from 90 to 120 days (2009: 90 to 120 days). Other credit terms are assessed and approved on a case by case basis.

In the financial year 2003, an advance of RM7.43 million was given to Ekran Berhad. The directors are of the opinion that even though the advance given to Ekran Berhad contravenes Section 133A of the Companies Act, 1965, under the circumstances, the advance was necessary to address the short term needs of Ekran Berhad. No provision for doubtful debts has been made for the advance given to Ekran Berhad as the directors are confident of the recovery upon completion of the Company's new restructuring scheme, of which the status is disclosed in Note 14. The amount due from Ekran Berhad is unsecured, bears nil interest (2009: Nil) and has no fixed term of repayment.

The Company waived the interest charge of 3.5% per annum on the outstanding amount of RM6,081,771 (2009:RM6,269,706) due from Ekran Berhad in consideration for a waiver of the annual charge of RM250,000 by Ekran Berhad on the Company in respect of reimbursement of expenses incurred by Ekran Berhad on behalf of the Company relating to staff cost for accounting, corporate finance, secretarial and administrative works, use of office as registered and correspondence address as well as printing and stationery cost with effect from 1 April 2004.

The amounts due from subsidiaries are unsecured, interest free and have no fixed terms of repayment.

As at balance sheet date, the Group has a significant concentration of credit risk that may arise from exposure to a single debtor representing approximately 88% (2009: 99%) of the total other receivables.

#### 14. SIGNIFICANT AND SUBSEQUENT EVENTS (cont'd)

(collectively referred to as the "**Proposed Restructuring Scheme**")

The Securities Commission had on 10 November 2008, 20 May 2009 and 23 March 2010 approved the Proposed Restructuring Scheme.

The shareholders of the Company had on 2 March 2010 approved the following:-

The proposed settlement of the shortfall in the profit guarantee are disclosed in Note 14.

*Notes To The Financial Statements (cont'd)* ● ● ●**16. FINANCIAL INSTRUMENTS****(a) Financial Risk Management Objectives and Policies**

The Group's financial risk management policy seeks to ensure that adequate financial resources are available for the development of the Group's businesses whilst managing its liquidity and credit risks. The Group does not engage in speculative transactions.

**(b) Interest Rate Risk**

The Group's primary interest rate risk relates to interest-bearing assets. The investments in financial assets are mainly short term in nature and they are not held for speculative purposes but have been mostly placed in fixed deposits.

The information on maturity dates and effective interest rates of financial assets are disclosed in the respective notes.

**(c) Liquidity Risk**

The Group actively manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that all refinancing, repayment and funding needs are met. As part of its overall prudent liquidity management, the Group maintains sufficient levels of cash or cash convertible investments to meet its working capital requirements.

**(d) Credit Risk**

Credit risk, or the risk of counterparties defaulting, is controlled by the application of credit approvals, limits and monitoring procedures. Credit risks are minimised and monitored via strictly limiting the Group's associations to business partners with high creditworthiness. Trade and other receivables are monitored on an ongoing basis via management reporting procedures.

As at balance sheet date, the Group has a significant concentration of credit risk in the form of outstanding balances due from a group of debtors relating to a director of the Company, Tan Sri Dato' Paduka (Dr) Ting Pek Khiing representing approximately 99% and 99% of the trade and other receivables respectively.

**(e) Fair Values**

The carrying amounts of cash and cash equivalents, trade and other receivables/payables approximate their fair values due to the relatively short term maturity of these financial instruments. It is not practical to estimate the fair value of contingent asset reliably due to the uncertainties of timing, costs and eventual outcome.
